God Abby Eagle,2015-11-18 In 1984 I took Sannyas with Osho a contemporary mystic and soon after was introduced to NLP and Hypnotherapy Osho gave me a breadth and depth of knowledge about religion and an experience of meditation that I would never have been able to find through normal channels Most importantly Osho taught me not to rely upon borrowed knowledge but to make your own existential inquiry into truth to challenge everything for the ultimate Truth and Neuro Linguistic Programming NLP and Hypnosis gave me the tools to do just that I have attempted to present to the reader a new way of understanding faith healing placebo mind body healing conscious mind unconscious mind ego religion spirituality channelling angels god devil heaven hell near death experiences spiritual

experiences and enlightenment from the framework of NLP hypnosis meditation and the science of flow states The book was written over a period of eight years which gave me time to continually update the notes until it takes the form that you see it now It explores the concept that we are the meaning maker that we are the one who give meaning to events that occur in the world we are the one who gives meaning to the experiences that we have and to the experiences that others have meaning is not inherent in the event we create the meaning we are the meaning maker Sometimes that meaning serves us sometimes it does not Sometimes that meaning serves us but does not serve others The book explores the process of giving prestige of adulation and worship Of how we may be too quick to create fiction and fantasy based upon ideas that we hold in mind Of how we may be looking in the wrong direction to find God However this book is not a book about God it is a book based upon my own existential experience I wrote the book in part because it maps out my own personal inquiry into truth and because I want to help wake people up to themselves such that they might realise their true potential whether you call that Self Realisation Enlightenment or Self Actualisation The unconscious mind is like a silent partner that is always present knows your every thought and your every desire has the power to affect both body and mind at the core of your being and is always ready to help you as long as you should just communicate in the right way Hmm sounds much like God Abby Eagle
