Bales, 1948      **The Routledge Companion to Humanism and Literature** Michael Bryson, 2022-03-30 The Routledge Companion to Humanism and Literature provides readers with a comprehensive reassessment of the value of humanism in an intellectual landscape Offering contributions by leading international scholars this volume seeks to define literature as a core expressive form and an essential constitutive element of newly reformulated understandings of humanism While the value of humanism has recently been dominated by anti humanist and post humanist perspectives which focused on the flaws and exclusions of previous definitions of humanism this volume examines the human problems dilemmas fears and aspirations expressed in literature as a fundamentally humanist art form and activity Divided into three overarching categories this companion will explore the histories developments debates and contestations of humanism in literature and deliver fresh definitions of the new humanism for the humanities This focus aims to transcend the boundaries of a world in which human life is all too often defined in terms of restrictions political economic theological intellectual and lived in terms of obedience conformity isolation and fear The Routledge Companion to Humanism and Literature will provide invaluable support to humanities students and scholars alike seeking to navigate the relevance and resilience of humanism across world cultures and literatures      The Soul of Doubt Dominic Erdozain, 2015-08-31 It is widely assumed that science is the enemy of religious faith The idea is so pervasive that entire industries of religious apologetics converge around the challenge of Darwin evolution and the secular worldview This book challenges such assumptions by proposing a different cause of unbelief in the West the Christian conscience Tracing a history of doubt and unbelief from the Reformation to the age of Darwin and Karl Marx Dominic Erdozain argues that the most powerful solvents of religious orthodoxy have been concepts of moral equity and personal freedom generated by Christianity itself Revealing links between the radical Reformation and early modern philosophers such as Baruch Spinoza and Pierre Bayle Erdozain demonstrates that the dynamism of the Enlightenment including the very concept of natural

reason espoused by philosophers such as Voltaire was rooted in Christian ethics and spirituality The final chapters explore similar themes in the era of Darwin and Marx showing how moral revolt preceded and transcended the challenges of evolution and scientific materialism in the unseating of religious belief The picture that emerges is not of a secular challenge to religious faith but a series of theological insurrections against divisive accounts of Christian orthodoxy

**The God Who Kneels** Douglas D. Webster,2015-02-06 The God Who Kneels is a meditative journey in John 13 The Apostle John opens the door and invites us into the upper room to relive the words and actions of Jesus He writes us into the scene and gives us a seat at the table On Thursday night Jesus gave his

followers two simple object lessons during the evening meal He washed their feet and he broke bread These two enduring acts go a long way in defining the mission of God and the body of Christ They merge real hospitality and deep sacrament The towel and the basin and the bread and the cup signify the essence of Jesus's kingdom strategy The disciples missed the meaning of Jesus's message the first time around Like them we need a fresh experience of the upper room to grasp the Savior's humility and glory Less than twenty four hours before the crucifixion Jesus offered his disciples a vivid parable of the atonement and a true picture of discipleship This forty day Lenten series is a close reading of the biblical text revealing the significance of the God who kneels for today's discipleship *Reading Heresy* Gregory Erickson, Bernard

Schweizer, 2017-11-20 Heresy studies is a new interdisciplinary supra religious and humanist field of study that focuses on borderlands of dogma probes the intersections between orthodoxy and heterodoxy and explores the realms of dissent in religion art and literature Free from confessional agendas and tolerant of both religious and non religious perspectives heresy studies fulfill an important gap in scholarly inquiry and artistic production Divided into four parts the volume explores intersections between heresy and modern literature it discusses intricacies of medieval heresies it analyzes issues of heresy in contemporary theology and it demonstrates how heresy operates as an artistic stimulant Rather than treating matters of heresy blasphemy unbelief dissent and non conformism as subjects to be shunned or naively championed the essays in this collection chart a middle course energized by the dynamics of heterodoxy dissent and provocation yet shining a critical light on both the challenges and the revelations of disruptive kinds of thinking and acting
