Secrets Of The Invisible World Disclosed Or A Univ:

A Catalogue of the Library of Brown University Charles Coffin Jewett, 1843 **The Secret Life of Things** Mark Blackwell, 2007 This collection enriches and complicates the history of prose fiction between Richardson and Fielding at mid century and Austen at the turn of the century by focusing on it narratives a once popular form largely forgotten by readers and critics alike The volume also advances important work on eighteenth century consumer culture and the theory of things The essays that comprise *The Secret Life of Things* thus bring new texts and new ways of thinking about familiar ones to our notice Those essays range from the role of it narratives in period debates about copyright to their complex relationship with object riddled sentimental fictions from anti semitism in *Chrysal* to jingoistic imperialism in *The Adventures of a Rupee* from the it narrative as a variety of whore s biography to a consideration of its contributions to an emergent middle class ideology

A Catalogue of the Library of Brown University ... With an Index of Subjects Brown University (Providence, Rhode Island). - Library, 1843 **Demon Possession and Allied Themes** John Livingston Nevius, 1897 **History as Wonder** Marnie Hughes-Warrington, 2018-11-02 History and Wonder is a refreshing new take on the idea of history that tracks the entanglement of history and philosophy over time through the key idea of wonder From Ancient Greek histories and wonder works to Islamic curiosities and Chinese strange histories through to European historical cabinets of curiosity and on to histories that grapple with the horrors of the Holocaust Marnie Hughes Warrington unpacks the ways in which historians throughout the ages have tried to make sense of the world and to change it This book considers histories and historians across time and space including the Ancient Greek historian Polybius the medieval texts by historians such as Bede in England and Ibn Khaldun in Islamic Historiography and the more recent works by Martin Heidegger Luce Irigaray and Ranajit Guha among others It explores the different ways in which historians have called upon wonder to cross boundaries between the past and the present the universal and the particular the old and the new and the ordinary and the extraordinary Promising to both delight and unsettle it shows how wonder works as the beginning of historiography Accessible engaging and wide ranging History as Wonder provides an original addition to the field of historiography that is ideal for those both new to and familiar with the study of history **University Library of Autobiography, Including All the Great Autobiographhies and the Autobiographical Data Left by the World's Famous Men and Women**, 1918 **Defoe's Footprints** Robert M. Maniquis, Carl Fisher, 2009-01-01 In Defoe s Footprints essays by prominent scholars of eighteenth century literature salute Maximillian E Novak s influence upon the study of Daniel Defoe Best known today as the author of Robinson Crusoe Defoe was a prolific writer in the late seventeenth and early eighteenth centuries who wrote novels essays pamphlets and poems Widely extending Novak s perspectives this volume explores Defoe s place in the English novel and in literary developments of mimesis realism and popular mythology The contributors locate Defoe in new ways within the complex symbolism and discourse of a turbulent world of burgeoning capitalism Protestantism imperialism and economic

speculation With attention to Defoe's neglected writings as well as to his important works this volume uncovers his distance from and influence on modern literature paying tribute to Maximilian E Novak by presenting new ideas about and new readings of Daniel Defoe **University Library of Autobiography** ,1918 **Encyclopedia of the Essay** Tracy Chevalier,2012-10-12 This groundbreaking new source of international scope defines the essay as nonfictional prose texts of between one and 50 pages in length The more than 500 entries by 275 contributors include entries on nationalities various categories of essays such as generic such as sermons aphorisms individual major works notable writers and periodicals that created a market for essays and particularly famous or significant essays The preface details the historical development of the essay and the alphabetically arranged entries usually include biographical sketch nationality era selected writings list additional readings and anthologies The Athenaeum ,1850 **English Catholics and the Supernatural, 1553-1829** Francis Young,2016-05-06 In spite of an upsurge in interest in the social history of the Catholic community and an ever growing body of literature on early modern superstition and popular religion the English Catholic community's response to the invisible world of the preternatural and supernatural has remained largely neglected Addressing this oversight this book explores Catholic responses to the supernatural world setting the English Catholic community in the contexts of the wider Counter Reformation and the confessional culture of early modern England In so doing it fulfils the need for a study of how English Catholics related to manifestations of the devil witchcraft and possession and the dead ghosts in the context of Catholic attitudes to the supernatural world as a whole including debates on miracles The study further provides a comprehensive examination of the ways in which English Catholics deployed exorcism the church's ultimate response to the devil Whilst some aspects of the Catholic response have been touched on in the course of broader studies few scholars have gone beyond the evidence contained within anti Catholic polemical literature to examine in detail what Catholics themselves said and thought Given that Catholics were consistently portrayed as superstitious in Protestant literature the historian must attend to Catholic voices on the supernatural in order to avoid a disastrously unbalanced view of Catholic attitudes This book provides the first analysis of the Catholic response to the supernatural and witchcraft and how it related to a characteristic Counter Reformation preoccupation the phenomenon of exorcism **Mysteries and Secrets Revealed** Loren Pankratz,2021-04-01 Mysteries and Secrets Revealed uncovers the reality behind mysteries of nature and secrets of frauds that eluded common understanding The journey begins in the ancient Greek city of Delphi where priests claimed the gift of a priceless gold lion was an acknowledgement of their clairvoyant powers But their concocted story concealed an embarrassing blunder Those sufficiently savvy to catch the lie became aware of even deeper problems Author Loren Pankratz then guides us through the conflicts of Renaissance scholars including Galileo who explained things in ways that enraged philosophers and infuriated priests Galileo's methods of investigation were perpetuated by the meticulous work of the Academy of Experiment and Bernard Fontenelle's enthralling dialogue enabled common people to accept life in the rearranged sun

centered universe Clairvoyants in a mesmeric trance claimed they could visit distant planets and endure brutal surgical procedures If any of this was real how was it possible One nineteenth century mesmeric savant Alexis Didier was so convincing that someone claimed no case of clairvoyance could be made for anyone if his accomplishments were not real This unchallenged declaration is now unraveled here for the first time through information gleaned from uncommon documents and rare antiquarian pamphlets The surprising manifestations of modern spiritualism quickly escalated into a psychic arms race that included mysterious tipping and turning of tables Scientist Michael Faraday devised ingenious experiments to show how subtle muscle reactions outside of awareness created these manifestations On the other hand explanations for table levitations and mysterious writing on slates could only be solved by individuals with acute observational skills and acquainted with the methods of trickery Each story in *Mysteries and Secrets Revealed* captures the tension of conflict the thrill of discovery and the strategies of science that unmasked frauds fakes false belief and the enigmas of our natural world

Shakespeare's Ghosts Live Adrian Parker-Reed, Annekatrin Puhle, 2017-03-07 Shakespeare has been one of the most cited authors since his plays were performed and yet little attention has been paid to his views on psychic phenomena It took another 300 years of paranormal experiences before scholars at Cambridge University helped to found the Society for Psychical Research which brought scientific scrutiny to the area and the UK is now a world leader in university research on this topic This book throws new light on many historical case reports from Shakespeare's time onwards It identifies the core experiences that transcend time and give clues to an understanding of psychic phenomena The book highlights Shakespeare's insights showing how these relate to and even amplify the conclusions of later and on going research In our time of disconnectedness from nature the book discusses neglected human experiences which represent an important part of life and which do in fact occur to most of us In doing so the book raises awareness against the emptiness of a zombie like existence in today's society and offers a new approach to life and death and their deeper meaning **Alphabetical Finding List**

winning journalist Ted Gup exposes how and why our most important institutions increasingly keep secrets from the very people they are supposed to serve Drawing on his decades as an investigative reporter Ted Gup argues that a preoccupation with secrets has undermined the very values security patriotism and privacy in whose name secrecy is so often invoked He explores the blatant exploitation of privacy and confidentiality in academia business and the courts and concludes that in case after case these principles have been twisted to allow the emergence of a shadow system of justice unaccountable to the

public Nation of Secrets not only sounds the alarm to warn against an unethical way of life but calls for the preservation of our democracy as we know it *General Catalogue* Belfast Library and Society for Promoting Knowledge, 1896
