The Secular as Methodology Robert L. Montgomery, 2018-08-14 Secularization is a process that has been taking place throughout the world but especially in the West It refers to limitations of various types to religious thoughts activities ownership and power but does not necessarily mean limitation on religious freedom Because of this contested double effect secularization is perceived both negatively and positively I propose that the secular be viewed primarily as a methodology in various areas of life beginning most clearly with science but extending to many other areas of thought and activity When this is done I believe people then have the clear option to apply their faith to all of their thought and action and at the same time to allow for correction and improvement to their thought and action These corrections and improvements will be debated but in the end for Christians they are dependent on interpretations of the Bible Furthermore I believe the broad result for all people is to clarify the choice to believe in God or rather that we are chosen by God revealed in the Bible who is seeking to have fellowship with us
