True Sale Securitization in Germany and China Shengzhe Wang,2005-05-02 Inhaltsangabe Abstract The Master thesis for LL M at Goethe university s ILF titled True Sale Securitization in Germany and China is a comparative study about true sale securitization The initial reason for a comparative study was the similarity of banking centred financial systems in these two countries Another reason is connected with the True Sale Initiative TSI a plan composed by major German banks aiming at improving their financial situation German banks start to be plagued by the non performing loans NPLs since 2001 due to mediocre performance of German corporations and depreciation of banks investment to the east part during 1990s Facing the competitions from other countries and under pressures from the International Convergence of Capital Measurement and Capital Standards a Revised Framework Basel II issued by the Basel Committee on Banking and Supervisory Practice Basel Committee at the Bank for International Settlements the German banks employed the TSI as one part of the bigger financial reform to regain competition in Europe and worldwide December 2004 the first true sale securitization was successfully constructed in Germany after German federal government changed some of its formerly unfriendly legal taxation and

accounting rules The German experiences with TSI can shed some light into how China to develop its asset backed securities ABS market in order to save its heavy NPLs burdened banks and find alternative funds for its corporations Although securitization might be a possible solution the Chinese current legal system and market infrastructure prevents it from fully utilizing this modern financing technique What China can learn from Germany's experiences is that a special securitization law is preferred to amending each relevant laws and rules in order to get rid of legal barriers and contradictions for true sale securitizations In addition strong governmental supports will facilitate and accelerate the process of true sale securitization market development The similarities between the German and Chinese financial system is the main incentive for this study Both Germany and China have a financial system that is dominated by banks and at the same time features a weak capital market Banks are the main external financing sources for domestic corporations Furthermore in both countries banks are suffering losses and carrying burden of non performing loans NPLs due to the bad **Islamic Capital Markets and Products** Simon Archer, Rifaat Ahmed Abdel Karim, 2017-12-26 Ensure Basel III compliance with expert analysis specific to Islamic Finance Islamic Capital Markets and Products provides a thorough examination of Islamic capital markets ICM with particular attention to the products that they offer and the legal and regulatory infrastructure within which they operate Since Islamic banks act as asset managers attention is paid to the regulatory challenges which they face in the light of Basel III as regards both eligible capital and liquidity risk management The authors of the chapters are professionals and practitioners and write from experience The editors also contributed to some of the chapters The markets and products covered include Islamic equities Islamic investment certificates Suk k which are Shari ah compliant alternatives to conventional bonds and Islamic Collective Investment Schemes The coverage of legal and regulatory issues includes an examination of the implications for ICM of securities laws and regulations and of Basel III as well as collateralisation issues Shari ah compliance aspects in terms both of the selection criteria for Islamic equities and of the purification of impermissible components of income are also examined in some detail as are the implications of Basel III for eligible capital in general and for Shari ah compliant capital instruments in particular A similar analysis is also made of the implications of the Basel III requirements for liquidity risk management and high quality liquid assets HQLA including Shari ah compliant HQLA The book concludes with three case studies two describing the ICM in Malaysia and Bahrain and a third which describes Suk k issued as Shari ah compliant capital instruments followed by brief concluding remarks by the editors

Core Concepts of Commercial Law John F. Dolan, Bruce A. Markell, Lawrence Ponoroff, 2004 This book reflects the authors belief that to teach only the rules would give students a false sense and static understanding of what commercial law is all about and what makes it exciting This book is also an effective platform for a more detailed approach to the rules of commercial law Problems could be easily supplemented text to provide students with a more technical understanding of these rules The authors emphasize some of the rules because those rules help students understand the basic concepts Most

of the study deals with the UCC specifically Articles 9 3 4 and 5 **Research Handbook on Global Capital Markets Law** Iris H.-Y. Chiu, Iain G. MacNeil, 2023-06-01 This Research Handbook is a one stop resource on global capital markets and the laws that regulate them Featuring contributions from leading global experts the Research Handbook delves into a range of issues including investment products such as equity finance sustainable finance fintech impact investing and private equity It also provides analysis on institutional and procedural issues such as large and small companies capital formation the roles of institutional shareholders and information providers and the practices and regulation of financial trading markets

Systemic Risk, Institutional Design, and the Regulation of Financial Markets Anita Anand, 2016-12-22 Following the recent financial crisis regulators have been preoccupied with the concept of systemic risk in financial markets believing that such risk could cause the markets that they oversee to implode At the same time they have demonstrated a certain inability to develop and implement comprehensive policies to address systemic risk This inability is due not only to the indeterminacy inherent in the term systemic risk but also to existing institutional structures which because of their existing legal mandates ultimately make it difficult to monitor and regulate systemic risk across an entire economic system Bringing together leading figures in the field of financial regulation this collection of essays explores the related concepts of systemic risk and institutional design of financial markets responding to a number of questions In terms of systemic risk what precisely is the problem and what can be done about it How should systemic risk be regulated What should be the role of the central bank banking authorities and securities regulators Should countries implement a macroprudential regulator If not how is macroprudential regulation to be addressed within their respective legislative schemes What policy mechanisms can be employed when developing regulation relating to financial markets A significant and timely examination of one of the most intractable challenges posed to financial regulation Systemic Risk and the Future of Insurance Regulation Andromachi Georgosouli, Miriam Goldby, 2017-09-19 This book examines policy developments that have been occurring in the field of financial regulation and their implications for the insurance industry and markets With UK and US contributors from academia and legal practice this book will be essential reading for policy makers insurance regulators insurance and legal professionals as well as students and academics researching and studying insurance law **Cutting Edge Issues where** Securitization Meets Insolvency After LTV and Enron ,2001 Contemporary Issues in Islamic Law, Economics and Finance Flavia Cortelezzi, Alessandro Ferrari, 2022-08-12 This book explores how Islam can impact the structures and performance of firms financial institutions and capital markets across a range of countries and industries The Islamic finance industry represents an important reality not only because of the oil wealth of the Gulf states which have fueled demand for such financial services but also for an increased demand from a growing Muslim population in the West that aspires to express a full and all inclusive religious identity. The increased demand for Muslim financial institutions has prompted Western non Islamic firms to begin providing these services in an interesting effort of acculturation to the new plural

scenario By adopting a multidisciplinary approach which also takes into account the theological legal and geopolitical framework the book offers a comprehensive picture of Islamic financial tools contracts and business opportunities Drawing on different fields of expertise it deals with various themes such as the theological roots of Islamic economics and finance and its geopolitical impact the EU policy of cooperation with MENA and GCC countries the instruments of Islamic finance its legal principle and ability to become an instrument for enhancing business opportunities the functioning of Islamic banks the development of capital markets within a financial model influenced by religious constraints and finally the new relationships of this religious financial system with Western legal systems The book thus provides a complete and extensive overview of the practice of Islamic finance through the lenses offered by studies of economics and management Providing a careful analysis and an integrated framework of geo economic and political issues the book will be a valuable resource for academics researchers and professionals in International Business Entrepreneurship and Small Business Management Law and Religion and Intercultural Studies Index to Legal Periodicals & Books, 2003 Enron and Other Corporate Fiascos Nancy B. Rapoport, Jeffrey D. Van Niel, Bala G. Dharan, 2009 This law school text explores the Enron debacle from a variety of different aspects Essays analyze the business government interactions and decisions that laid the foundations for Enron's growth and subsequent demise Other essays describe and detail the complex web of partnerships and accounting tricks used by Enron to hide bad news and project good news Additional essays focus on the ethical and legal dimensions of the Enron crisis and the subsequent lessons for business and law students as well as for society **Subject Guide to Books in Print** ,1997

Taken from Introduction to paper Structured finance although only a recent innovation nonetheless is becoming one of the
dominant means for capital formation in the United States 1 Also known as asset securitization structured finance refers to
an approach used to raise capital whereby income producing financial assets are pooled and converted into capital market
instruments In a typical structured financing a sponsor transfers a pool of financial assets to a limited purpose entity which in
turn issues in the capital markets non redeemable debt obligations or equity securities with debt like characteristics Payment
on the securities depends primarily on the cash flows generated by the pooled assets
