Security In The Caribbean Basin The Challenge Of Regional Cooperation:

Security in the Caribbean Basin Ralph H. Espach, Joseph S. Tulchin, 2022 The authors provide both a theoretical and a practical operational framework for the development of a more cooperative multilateral security system in the Caribbean region

Security in the Caribbean Basin Joseph S. Tulchin, Ralph H. Espach, 2000 Since the end of the Cold War security concerns in the Caribbean have changed from containment of communism to transnational threats such as drugs illegal migration and natural disasters This text analyzes the situation and puts forward a framework for a cooperative regional security system

Crime, Violence and Security in the Caribbean M. Raymond Izarali, 2017-11-20 Security challenges pose significant hardship for citizens of Caribbean nations Public safety is threatened by high rates of crime especially violent crime in much of the region the plague of the illicit drug trade transnational organized crime gangs the current global proliferation of crimes of terrorism and related violent extremism and radicalization The situation diminishes morale among the youth their education and their future and operates as a major push factor Yet surprisingly there has been a scarcity of scholarly work that addresses these conditions This interdisciplinary volume succinctly responds to the gap in criminological and security studies on the Caribbean by drawing attention to the understudied nexus of crime violence and security that is so pervasive in the region and the ways in which underdevelopment re creates environments for insecurity The book is organized in three parts Part one encompasses conceptualizations of crime violence and punishment Part two takes up country cases on crime and security Part three addresses issues of regional security both public and private This timely volume will be valuable reading for scholars students practitioners and policy makers who share a critical interest in the scope impact and inter relationality of crime violence and in security in the region

Challenged Sovereignty Ivelaw Lloyd Griffith, 2024-03-12 The drug trade Crime Terrorism Cyber threats In the Caribbean these cross border Problems Without Passports PWPs have shaken the very foundation of nation states Blending case studies with regional analysis Ivelaw Lloyd Griffith examines the regionwide impact of PWPs and the complex security and sovereignty issues in play The interaction of local and global forces within PWPs undermines the governments basic goal of protecting their people against military threats subversion and the erosion of political economic and social values Seeking solutions to these multidimensional threats requires addressing both traditional and non traditional security and sovereignty issues Griffith focuses on clashes between PWPs and the state from warring drug gangs in Jamaica to Trinidad and Tobago s one time status as a center for terrorism related activities to the political resurgence of drug trafficker Desi Bouterse in Suriname and the growing cyber threats across the region Informed and up to date Challenged Sovereignty explains the effects of today s globalized problems on the contemporary Caribbean

Caribbean Security in the Age of Terror Ivelaw L. Griffith, 2004 The security issues which have come into prominence since the September 11 terrorist attack in the USA provide both the starting point and the focus for this comprehensive

survey of contemporary security issues in the Caribbean This volume assesses the impact of the 9 11 terrorist attack on Caribbean states and examines the institutional and operational terrorism response capacity of security agencies in the region However understanding security challenge and change in the Caribbean context requires a broad based multidimensional approach terrorism for the small open and vulnerable nation states of the Caribbean region is a real security issue but even more so is a range of untraditional threats like crime drug trafficking territorial disputes environmental degradation and the rapid spread of the HIV AIDS epidemic How these states adapt policies and practices to adjust to the new regional and global circumstances represent the challenge and the change
