Abstract

The nutrient content of soils is considered a key productivity factor. Sediment input from Amazonian rivers is one of the natural sources of soil fertility for fluvial islands and riverbank flooded forests. Despite the importance of soil factors for ecosystems, few edaphic studies along fluvial islands sediment-gradients have been undertaken in tropical areas. The current study provides a step forward by describing a mixed water (sediment-poor black water with the input of sediment-rich white water) fluvial archipelago with an emphasis on soil characteristics of seasonally inundated forests. To investigate how geographic distance from a white-water river mouth affects island soil properties, soil chemical and physical attributes, we sampled 61 sites on 35 islands at Jaú and Anavilhanas archipelago. The studied Central Amazon fluvial islands showed high variability in hydromorphic soils properties. In general, the fluvial island soils were acid and with low fertility. Islands from Jaú and other sites closer to the sediment source (Branco River) had higher soil fertility than the Anavilhanas Archipelago islands, which are further away from the sediment source. Our results show that sediment inputs from the Branco River can play an important role in soil properties in a relatively nutrient-poor area, and shed light on the role of biogeochemical processes in the largest freshwater archipelago in the world. Given that soil fertility is often correlated with forest productivity, the results reported here may serve as a baseline to support conservation politics with scientific data for Central Amazonian fluvial island environments.

Introduction

Floodplains represent 3–4% of the Amazon basin, covering more than 750,000 Km² (Wittmann and Junk 2016). Such environments are subject to inundation for several months every year (Junk et al. 1989). The sediment input from large Amazonian rivers is one natural source of fertility for flooded forests growing on riverbanks (Junk et al. 2011). However, the volume of organic ions and sediments received vary with location. Flooded forests periodically

inundated by sediment-rich white water (várzeas) grow on fertile soils, while those inundated by sediment-poor black and clearwater rivers (igapós) grows on oligotrophic and poorer soils (Prance 1979; Junk et al. 2011; Goulding et al. 2003). Although very useful, such categorical classification of water types simplifies a natural continuum. For example, the Branco River has an intermediate amount of organic ions, greater than that present in Guiana Shield-derived black water rivers, such as Negro River, but less than those found in rivers of Andean origin such as the Rio Amazonas, Rio Madeira, or Rio Solimões (Goulding et al. 2003). The Branco River is unusual because it is a sediment-rich white-water river where all neighboring rivers are sediment-poor (black-water) (Leenheer and Santos 1980). This spatial configuration may directly affect the Anavilhanas Archipelago, a system of fluvial islands within the nutrient-poor Negro River domain (Marinho et al. 2020).

Fluvial islands are subjected to similar environmental constraints imposed by their inundating rivers. Due to the

Hobby-horse and the Rhetoric of Translation Agnes Maria Zwaneveld, 1996 A Bookseller's Hobby Horse and the Rhetoric of Translation is a study of the first Dutch translation of Tristram Shandy 1759-67 as a product of and factor in the reception of Sterne's novel in the Netherlands and as a specific manifestation of this reception a derived text based on interpretation of the original It took sixteen years for this translation to appear Why was this so And why did its publication 1776-79 prove unrewarding to the publisher To answer the first question Agnes Zwaneveld relates the development of Sterne appreciation in the Netherlands from neglect in the 1760s to a literary craze in the 1780s to a number of socio cultural factors including a growing interest in German literature This relation with German literature is reflected in the choice of books published by A E Munnikhuysen a Sterne enthusiast and conscientious publisher but also an outsider in the book trade whose audacity led to the commercial failure of his enterprise A different question tackled in this study is to what extent the translation reflects the original text Can it be accepted as a faithful rendering or rather as an adaptation an imitation in the classical tradition To understand what norms the translator Bernardus Brunius followed and what effects he can have been aiming at his work is described in terms of the rhetorical theory of translation adhered to in his day To avoid subjectivity in assessing the resemblance between translation and original the comparison focuses on composition and the use of rhetorical figures as formal aspects which can be easily recognised across the centuries The textual comparison was limited to the opening chapter of Tristram Shandy seen as the novel's exordium in which both author and translator are likely to have made a show of their intentions Close reading of this chapter resulted in an interpretation of Tristram's authorial performance as inspired by both Quintilian and Longinus **Bringing Travel Home to England** Susan Lamb, 2009 This study is the first to identify and examine the circulations and mutually constitutive relations among literature tourism and the wider culture in the 18th century Gendering emerges as a key mechanism both for those who brought travel home and for those who were influenced by it in other ways Biblical Sterne Ryan J. Stark, 2021-01-14 Is Laurence Sterne one of the great Christian apologists Ryan

Stark recommends him as such perhaps to the detriment of the parson's roguish reputation. The book's aim however is not to dispel roguishness but rather to discern the theological motives behind Sterne's comic rhetoric from Tristram Shandy and the sermons to *A Sentimental Journey*. To this end Stark reveals a veritable avalanche of biblical themes and allusions to be found in Sterne often and seemingly awkwardly in the middle of sex jokes and yet the effect is not to produce irreverence. On the contrary we find an irreverently reverent apologetic Stark argues and a priest who knows how to play gracefully with religious ideas. Through Sterne in fact we might rethink humour's role in the service of religion.

Between Men Eve Kosofsky Sedgwick, 1992. At the time of its first appearance in 1985 *Between Men* was viewed as an important intervention into Feminist as well as Gay and Lesbian studies. It was an important book because it argued that sexuality and desire were not a historical phenomenon but carefully managed social constructs. This insight that actually originated with Michael Foucault is often viewed as anti-humanist or post-humanist because it argues that men and women are simply the products of patriarchal power relations over which they have no control. By mobilizing Foucault's theories of the history of sexuality Sedgwick re-fashions Feminism and Gay and Lesbian Studies to make it seem as though Feminism and Gay and Lesbian studies are ideally situated to continue those interventions into the history of sexuality begun by Foucault.

Laurence Sterne and the Visual Imagination W.B. Gerard, 2016-12-05. The first full length and comprehensive study of the illustrations of Sterne's work this book explores the ability of Sterne's texts to inspire the visual imagination. It helps to explain why scores of editions of his fiction have been illustrated some profusely to fulfill the reader's desire as well as the artist's compulsion to visualize Sterne's words. Gerard places his subject in a clear and innovative theoretical framework which opens the field to general word and image studies. The author begins by examining the distinct varieties of pictorialism in Sterne's texts. The remainder of the study takes into account three remarkable series of illustrations representing Trim reading the sermon didactic sentimentalism in *A Sentimental Journey* and Henry Mackenzie's *Man of Feeling* and the many and diverse portrayals of poor Maria to demonstrate the ways in which culture projects these texts differently through the various artists.

As the Dust of the Earth Harriet Murav, 2024-04-02. An estimated forty thousand Jews were murdered during the Russian Civil War between 1918 and 1922. *As the Dust of the Earth* examines the Yiddish and Russian literary response to the violence pogroms and the relief effort exploring both the poetry of catastrophe and the documentation of catastrophe and care. Brilliantly weaving together

narrative fiction poetry memoirs newspaper articles and documentary Harriet Murav argues that poets and pogrom investigators were doing more than recording the facts of violence and expressing emotions in response to it They were interrogating what was taking place through a central concept familiar from their everyday lifeworld hefker or abandonment Hefker shaped the documentation of catastrophe by Jewish investigators at pogrom sites impossibly tasked with producing comprehensive reports of chaos Hefker also became a framework for Yiddish writers to think through such incomprehensible violence by creating new forms of poetry Focusing less on the perpetrators and more on the responses to the pogroms As the Dust of the Earth offers a fuller understanding of the seismic effects of such organized violence and a moving testimony to the resilience of survivors to process and cope with catastrophe *Satire, Comedy and Tragedy* Richard C.

Cheap Modernism Lise Jaillant, 2017-04-17 We often think of Mrs Dalloway or A Portrait of the Artist as a Young Man as difficult books originally published in small print runs for a handful of readers But from the mid 1920s these texts and others were available in cheap format across Europe Uniform series of reprints such as the Travellers Library the Phoenix Library Tauchnitz and Albatross sold modernism to a wide audience thus transforming a little read highbrow movement into a popular phenomenon The expansion of the readership for modernism was not only vertical from high to low but also spatial since publisher s series were distributed within and outside metropolitan centres in Britain continental Europe and elsewhere Many non English native speakers discovered texts by Joyce Woolf and others in the original language a fact that has rarely been mentioned in histories of modernism Drawing on extensive work in neglected archives Cheap Modernism will be of interest to all those who want to know how the new literature became a global commercial hit

British Travel Writers in Europe 1750-1800 Katherine Turner, 2017-11-01 This title was first published in 2001 Hundreds of European travelogues produced by British travellers between 1750 and 1800 remain out of sight in most libraries and have generally been out of print since the 18th century While many people with a working knowledge of the 18th century are familiar with works including Sterne s A Sentimental Journey and Smollett s Travels through France and Italy those produced by less literary travellers are largely unknown This study aims to recreate the world of 18th century travel writing in order to illuminate its central role in shaping Britain s emerging sense of national identity an identity which proves to be more complex an less homogeneous than some cultural and historical studies would suggest The author finds that the developing discourse of national character is bound up with questions of gender national and authorial virtue are projected in terms of appropriately gendered behaviour for male and female travel writers alike In turn gender intersects with class most obviously in the tendency to denigrate aristocratic travellers as effeminate and celebrate the more manly activities of the middle class traveller These then national identity authorship and gender are the central preoccupations of the study

In Proximity Melvyn New, Robert Bernasconi, Richard A. Cohen, 2001 In a world in which everything is reduced to the play of signs detached from what is signified Levinas asks a deceptively simple question Whence then comes the urge to question injustice By seeing the demand for justice for the other the homeless the destitute as a return to morality Levinas escapes the suspect finality of any ideology Levinas s question is one starting point for In Proximity a collection of seventeen essays by scholars in eighteenth century literature philosophy history and religion and their readings of Spinoza Kant Goethe Wordsworth Behn Defoe Fielding Sterne Diderot Laclos and Mendelssohn The title In Proximity alone speaks volumes about Levinas s philosophy and its relevance today If it is true that we are through technology moving closer and closer to one another writes editor Melvyn New then the importance of proximity and our response to it cannot be overstated For the

contributors to this volume the question of whether we may ethically appropriate the object of study for our own causes has become vital Levinas asks us to see ourselves our own reading in proximity to what is not ourselves not our understanding of the world The dialogue created among the essays themselves establishes an enormous diversity of texts and ideologies to which Levinas can contribute something of significant value At a time when the secondary literature on Levinas and his work is expanding explosively the cross disciplinary voices gathered together in *In Proximity* come at precisely the right time
