Seductive Cinema The Art Of Silent Film:

Seductive Cinema James Card, 1994 He describes overlooked silent movies of social concern among them The Cry of the Children directed by George Nicholls such classic thrillers as Herbert Brenon s Beau Geste and such early avant garde American masterpieces as J Sibley Watson's The Fall of the House of Usher Silent Film and the Triumph of the American *Myth* Paula Marantz Cohen, 2001-05-03 Silent Film and the Triumph of the American Myth is a broad cultural study that connects the rise of film to the rise of America as a cultural center and world power in the twentieth century Cohen argues that through the medium of silent film America was able to sever its literary and linguistic ties to Europe assert its cultural independence and forge a unique form of cultural expression Silent films drew on elements developed in popular forms of representation like photography landscape panoramas and vaudeville performance to create a medium that more accurately represented the American experience Silent Films, 1877-1996 Robert K. Klepper, 2015-09-16 This film reference covers 646 silent motion pictures starting with Eadweard Muybridge's initial motion photography experiments in 1877 and even including The Taxi Dancer 1996 Among the genres included are classics dramas Westerns light comedies documentaries and even poorly produced early pornography Masterpieces such as Joan the Woman 1916 Intolerance 1916 and Faust 1926 can be found as well as rare titles that have not received critical attention since their original releases Each entry provides the most complete credits possible a full description critical commentary and an evaluation of the film's unique place in motion picture history Birth dates death dates and other facts are provided for the directors and players where available with a selection of photographs of those individuals The work is thoroughly indexed **Silent Film Adaptations of Novels by** British and American Women Writers, 1903-1929 Jamie Barlowe, 2024-08-08 Silent Film Adaptations of Novels by British and American Women Writers 1903 1929 focuses on fifty three silent film adaptations of the novels of acclaimed authors George Eliot Charlotte Bront Emily Bront Mary Shelley Louisa May Alcott Harriet Beecher Stowe Willa Cather and Edith Wharton Many of the films are unknown or dismissed and most of them are degraded destroyed or lost burned in warehouse fires spontaneously combusted in storage cans or quietly turned to dust Their content and production and distribution details are reconstructed through archival resources as individual narratives that when considered collectively constitute a broader narrative of lost knowledge a fragmented and buried early twentieth century story now reclaimed and retold for the first time to a twenty first century audience This collective narrative also demonstrates the extent to which the adaptations are intertextually and ideologically entangled with concurrently released early woman's films to re promote and re instill the norm of idealized white married domesticated womanhood during a time of extraordinary cultural change for women Retelling this lost narrative also allows for a reassessment of the place and function of the adaptations in the development of the silent film industry and as cinematic precedent for the hundreds of sound adaptations of the literary texts of these eight women writers produced from 1931 to the 2020s Silent Movies Peter Kobel, 2009-02-28 Drawing on the

intensifying storm seasons across the Pacific In Unseasonable Sarah Dimick links these accounts of shifting seasons across the globe tracing how knowledge of climate change is constructed conveyed and amplified via literature She documents how the unseasonable reverberates through environmentally privileged and environmentally precarious communities In chapters ranging from Henry David Thoreau s journals to Alexis Wright s depiction of Australia s catastrophic bushfires from classical Tamil poetry to repeat photography Dimick illustrates how seasonal rhythms determine what flourishes and what perishes She contends that climate injustice is an increasingly temporal issue unfolding not only along the axes of who and where but also in relation to when Amid misaligned and broken rhythms attending to the shared but disparate experience of the unseasonable can realign or sharpen solidarities within the climate crisis Wartime Style Lora Ann Sigler, 2022-10-24 This work is a comparative study of the three great American wars of the 20th century World War I World War II and Vietnam The book explores several aspects of American popular culture like fashion film and societal mores While a number of books have covered fashion during individual wars this is the first study to compare several major conflicts drawing some conclusions regarding the lasting influences of wardrobe over an entire century This book provides short background information for each war briefly covering earlier conflicts that shaped the hostilities of the 20th century Although the emphasis is on women s clothing participation and service men are not ignored Their fashions not only speak to the times but the enormity of their The Movies are Carl Sandburg, 2000 A compilation of hundreds of Sandburg's writings on film during the sacrifices silent era for the Chicago Daily News showing how this great American writer was an early champion of movies and their possibilities and thus set the stage for future film criticism The New Financial Order Robert J. Shiller, 2009-02-09 In his best selling Irrational Exuberance Robert Shiller cautioned that society s obsession with the stock market was fueling the volatility that has since made a roller coaster of the financial system Less noted was Shiller's admonition that our infatuation with the stock market distracts us from more durable economic prospects These lie in the hidden potential of real assets such as income from our livelihoods and homes But these ordinary riches so fundamental to our well being are increasingly exposed to the pervasive risks of a rapidly changing global economy This compelling and important new book presents a fresh vision for hedging risk and securing our economic future Shiller describes six fundamental ideas for using modern information technology and advanced financial theory to temper basic risks that have been ignored by risk management institutions risks to the value of our jobs and our homes to the vitality of our communities and to the very stability of national economies Informed by a comprehensive risk information database this new financial order would include global markets for trading risks and exploiting myriad new financial opportunities from inequality insurance to intergenerational social security Just as developments in insuring risks to life health and catastrophe have given us a quality of life unimaginable a century ago so Shiller's plan for securing crucial assets promises to substantially enrich our condition Once again providing an enormous service Shiller gives us a powerful means to convert our ordinary riches into a level of economic security equity

and growth never before seen And once again what Robert Shiller says should be read and heeded by anyone with a stake in (Re)Possessing Beauty: Politics, Poetics, Change Sallie McNamara, 2019-01-04 This volume was first published by Inter Disciplinary Press in 2014 Ideas of beauty permeate our lives in ways of which we are often unaware yet they are indicators of identity transgression sartorial codes and otherness While contemporary society sees the dominance of Western hegemonic ideals of beauty when comparing these to ideals in different cultures at different historical periods attention is drawn to the instability of beauty The work in this volume considers the ways individuals question respond to articulate reflect challenge modify or accept beauty within their lives to show it can be powerful destructive and transformative They show that beauty is not always what it appears and can challenge common sense preconceptions as to what is beautiful The range of topics provide an important contribution to ongoing discussions and are testament to both the diversity and complexity of debate the concept engenders across different disciplines **Medieval Art and the Look of Silent Film** Lora Ann Sigler, 2019-06-20 The heyday of silent film soon became quaint with the arrival of talkies As early as 1929 critics and historians were writing of the period as though it were the distant past Much of the literature on the silent era focuses on its filmic art ambiance and psychological depth the splendor of the sets and costumes yet overlooks the inspiration behind these This book explores the Middle Ages as the prevailing influence on costume and set design in silent film and a force in fashion and architecture of the era In the wake of World War I designers overthrew the artifice of prewar style and manners and drew upon what seemed a nobler purer age to create an ambiance that reflected higher ideals
