## **See You When We Get There Teaching For Change In Urban Schools:**

See You When We Get There Gregory Michie, 2004      *See You when We Get There* Gregory Michie, 2005 Gregory Michie's first bestseller *Holler If You Hear Me* put him on the map as a compelling and passionate voice in urban education. In his new book Michie turns his attention to young teachers of colour and once again provides readers with a unique and penetrating look inside public school classrooms. Featuring portraits of five young teachers: two African Americans, two Latinas, and one Asian American, who are working for change, Michie weaves the teachers' powerful voices with classroom vignettes and his own experiences. Along the way he examines what motivates and sustains these teachers as well as what they see as the challenges and possibilities of public education. In these times of national standards, high stakes accountability, and calls for reforming teacher education and preparation, *See You When We Get There* is essential reading.

**Holler If You Hear Me, Comic Edition** Gregory Michie, Ryan Alexander-Tanner, 2020 This graphic memoir of teaching in urban America is a brilliant reimagining of the classic text by Gregory Michie *Holler If You Hear Me: The Education of a Teacher and His Students*. Michie is joined by illustrator Ryan Alexander-Tanner and 10 artists, most of them young people of color, to bring a fresh, vibrant energy to the original tale of struggle and hope in the classroom. First published in 1999, the text has become one of the most enduring teacher memoirs of our time. Using comics to tell the story, this edition weaves back and forth like the original between Michie's awakening as a young teacher and the first-person stories of his students. Set in 1990s Chicago but startlingly relevant today, this powerful adaptation of a long-time educator favorite is sure to inspire a new generation of teachers, students, and anyone who is concerned about the future of public education. It is a great and marvelous thing to be reminded that to change the world, we need only to change ourselves. Greg Michie and his students give me that hope. Sandra Cisneros, author of *The House on Mango Street*. Individually and as a collection, these stories remind educators of their primary purpose: to fully see the young people they teach with and learn from each day. Interpreted and adapted by a group of incredible young artists, this new edition is a particular gift to those eager to see with young people, shifting our lens toward empathy and justice as we learn the value of seeing school through their eyes. Carla Shalaby, Coordinator of Social Justice Initiatives and Community Internships, University of Michigan School of Education. What moved me when I first read *Holler* years ago as a new teacher, and moves me even more now with the new graphic novel, is Greg's willingness to keep listening to young people, to keep valuing their inherent brilliance, and to keep seeking ways to make his instruction respond directly to relevant issues. I cannot wait to share *Holler If You Hear Me: Comic Edition*. Kim Parker, cofounder of DisruptTexts and assistant director of the Teacher Training Center at the Shady Hill School in Cambridge, Massachusetts.

**Teaching with Conscience in an Imperfect World** William Ayers, 2016-04-08 In this beautifully written little book, Bill Ayers blends personal anecdotes with critique of the state of education. He offers a plan to help educators, policymakers, and parents to stretch toward something new and dramatically better: schools that are more joyful, more balanced, and more guided by the

power of love      **White Women's Work** Stephen Hancock, Chezar A. Warren, 2016-12-01 Historically white women have had a tremendous influence on establishing the ideological political and cultural scaffold of American public schools. Pedagogical orientations, school policies, and classroom practices are underwritten by white cisgender feminine and middle to upper class social and cultural norms. Labor trends suggest that students of color are likely to sit in front of many more white women teachers than males or non-white teachers, thus making it imperative to better understand the nature of white women's work in culturally diverse settings and the factors that most profoundly impact their effectiveness. This book examines how white women teacher dispositions, i.e., knowledge, beliefs, and skills, intersect and/or interact with their racial identity development, the concept of whiteness, institutional racism, and cultural perspectives of racial difference. All of which, as the authors in this volume argue, matter for nurturing a teaching practice that leads to more equitable schooling outcomes for youth of color. While it is imperative that the field of education recruits and retains more nonwhite teachers, it is equally important to identify research-supported professional development resources for a white woman-dominated profession. To that end, the book's contributors present critical insight for creating cultural contexts for learning conducive to effective cross-cultural and cross-racial teaching. Chapters in the first section explore white women's role in establishing and maintaining school environments that cater to Eurocentric sensibilities and white racial preferences for learning and social interaction. Authors in the second section discern the implications of white images, whiteness, and white racial identity formation for preparing and professionally developing white women teachers to be effective educators. Chapters in the third section of the book emphasize the centrality of race in negotiating academic interactions that demonstrate culturally responsive teaching. Each chapter in this book is written to investigate the intersectionality of race, cultural responsive pedagogies, and teaching identities as it relates to teaching in multiethnic environments. In addition, the book offers solution-oriented practices to equip white women and any other reader to respond appropriately and adequately to the needs of racially diverse students in American schools.

Spectacular Things Happen Along the Way Brian D. Schultz, 2018 This celebrated narrative shows how a teacher alongside his 5th grade students co-created a curriculum based on the students' needs, interests, and questions. Follow Brian Schultz and his students from a Chicago housing project as they work together to develop an emergent and authentic curriculum based on what is most important to the 5th graders, replacing their dilapidated school. The persuasive storytelling that captured the attention of educators and the media depicts the journey of one teacher in an urban school and his students juxtaposed against the powerful and entrenched bureaucracy of Chicago's public education system. In this second edition, Schultz examines how school reform continues to fail students in urban contexts, reflects on his teaching and writing from a decade ago, and offers compelling updates on students and what became of the school. A lot can be learned from the young people of Room 405 then and now. Not only did these particular 5th graders push back against the city and school board in their pursuit for a better learning environment for themselves and their

community but they also learned about the power of using their voices in purposeful ways We can only hope that educators will read the new edition and be inspired to make similar choices themselves From the Foreword by Pedro Noguera UCLA In this eagerly awaited second edition Schultz has reiterated what it means to be a courageous and caring teacher From the Afterword by Sonia Nieto professor emerita University of Massachusetts Amherst A compelling read that continues to remind us how much a better world depends on our ability to foster learning and teaching experiences that nurture young people s capacity to think deeply Denise Taliaferro Baszile VP AERA Division B This second edition highlights the ongoing dismantling of urban public schools in the name of reform even while fueling our sense of possibility and hope Kevin Kumashiro author *Bad Teacher*

**Learning to Liberate** Vajra Watson, 2012-03-29 Few problems in education are as pressing as the severe crisis in urban schools Though educators have tried a wide range of remedies dismal results persist This is especially true for low income youth of color who drop out of school and into incarceration at extremely high rates The dual calamity of underachievement in schools and violence in many communities across the country is often met with blame and cynicism and with a host of hurtful and unproductive quick fixes blaming educators pitting schools against each other turning solely to the private sector and ratcheting up the pressure on teachers and students But real change will not be possible until we shift our focus from finding fault to developing partnerships from documenting problems to discovering solutions *Learning to Liberate* does just that by presenting true and compelling community based approaches to school reform Drawing on over three years of ethnographic research Vajra Watson explores the complicated process of reaching and teaching today s students She reveals how four nontraditional educators successfully empower young people who have repeatedly been left behind Using portraiture a methodology rooted in vivid storytelling Watson analyzes each educator s specific teaching tactics Uncovering four distinct pedagogies of communication community compassion and commitment she then pulls together their key strategies to create a theoretically grounded framework that is both useful and effective A poignant insightful and practical analysis *Learning to Liberate* is a timely resource for all educators and youth serving practitioners who are committed to transforming at risk youth into at promise individuals who put their agency and potential into action in their schools and neighborhoods
