Divine Dharma Save-Seed Satyajit Patidar,2021-05-14 I am on a mission to explain to the world the real fact that the human brain is NOT his mind rather his seed s DNA is his mind more specifically the blue strand of the DNA spiral Human brain is merely an evolved form of rRNA of the zygote which processes the mRNA and tRNA wirelessly Like the CPU of the computer brain is a non codon processing organ which processes the genetic codes of the seed s DNA mind through a wireless nerve system called Sushumna Ada Pingla To know the wireless processing of the seed genetics in the brain read this book Unless seeds are saved brain cannot produce any significant outcome If the seeds are saved then all the thoughts of the seed s mind come true naturally Understand follow and share Save Seed awareness to make the world a heaven

farmers the reduction in crop diversity increases the risk of danger from pests and though MVs enlarge cereal stocks many are too poor to afford them The book concludes that technical breakthroughs alone won't solve deep rooted social problems and that only new policies and research priorities will increase the choices assets and power of the rural poor Leghorn World ,1920
