The A to Z of Vietnam Bruce M.

Lockhart, William J. Duiker, 2010-04-14 Vietnam became part of French Indochina in 1887 and did not regain its independence again until after the Vietnam War. However, despite a relatively peaceful two decades, the country experienced little economic growth because of conservative leadership policies. In an effort to change this stagnation, Vietnamese authorities have committed to economic liberalization and enacted structural reforms needed to modernize the economy and to produce more competitive export-driven industries. The A to Z of Vietnam focuses on the recent changes and leadership of Vietnam while giving due attention to the earlier kingdoms, the period of French Indochina, the wars for liberation, the Vietnam War, and much more. Hundreds of cross-referenced A to Z dictionary entries are included on political, economic, social, and cultural aspects as well as the major cities and geographic features. This book also contains a chronology and introduction that traces Vietnam's history as well as a bibliography.

Tourism and War Richard Butler, Wantanee Suntikul, 2013-05-07 This is the first volume to fully explore the complex relationship between war and tourism by considering its full range of dynamics, including political, psychological, economic, and ideological factors at different levels in different political and geographical locations. Issues of peace and tourism are dealt with insofar as they pertain to the effects of war on tourism that emerge after the cessation of hostilities. The book therefore reveals how not only location but also political strategies, accidents of history, transportation linkages, and economic expediency all have played their role in the development and continuation of tourism before, during, and after wartime. It further shows how the effects of war are seldom, if ever, simply a negation or reversal of the effects of peace on tourism. The volume draws on a range of examples from medieval times to the present to reveal the multi-faceted development of tourism amidst and because of conflict in a wide variety of locations, including the Pacific, Europe, the Middle East, North America, Africa, and South East Asia, showing the diverse ways in which tourism and war interact. In doing so, it explores how some locations have been developed as tourist attractions primarily because of war and conflict, e.g., as resting and training places for troops, and others flourished because of the threat of danger from conflicts to more traditional tourist locations. This thought-provoking volume contributes to the understanding of the interrelationships between war, peace, and tourism in many different parts of the world at different scales. It will be valuable reading for all those interested in this topic, as well as dark tourism, battlefield tourism, and heritage tourism.

Languages, scripts, and Chinese texts in East Asia Peter Francis Kornicki, 2018-01-11 Chinese Writing and the Rise of the Vernacular in East Asia is a wide ranging study of vernacularization in East Asia not only China Japan Korea and Vietnam but also societies that no longer exist such as the Tangut and Khitan empires Peter Kornicki takes the reader from the early centuries of the common era when the Chinese script was the only form of writing and Chinese Buddhist Confucian and medical texts spread throughout East Asia through the centuries when vernacular scripts evolved right up to the end of the nineteenth century when nationalism created new roles for vernacular languages and vernacular scripts Through an examination of oral approaches to Chinese texts it shows how highly valued Chinese texts came to be read through the prism of the vernaculars and ultimately to be translated This long process has some parallels with vernacularization in Europe but a crucial difference is that literary Chinese was unlike Latin not a spoken language As a consequence people who spoke different East Asian vernaculars had no means of communicating in speech but they could communicate silently by means of written conversation in literary Chinese a further consequence is that within each society Chinese texts assumed vernacular garb in classes and lectures Chinese texts were read and declaimed in the vernaculars What happened in the nineteenth century and why are there still so many different scripts in East Asia How and why were Chinese texts dethroned and what replaced them These are some of the questions addressed in Chinese Writing and the Rise of the Vernacular in East Asia
