This a timely and moving meditation on isolation and longing both as individuals and as a society There is a silent epidemic in

America loneliness Shameful to talk about and often misunderstood loneliness is everywhere from the most major of metropolises to the smallest of towns In Seek You Kristen Radtke s wide ranging exploration of our inner lives and public selves Radtke digs into the ways in which we attempt to feel closer to one another and the distance that remains Through the lenses of gender and violence technology and art Radtke ushers us through a history of loneliness and longing and shares what feels impossible to share Ranging from the invention of the laugh track to the rise of Instagram the bootstrap pulling cowboy to the brutal experiments of Harry Harlow Radtke investigates why we engage with each other and what we risk when we turn away With her distinctive emotionally charged drawings and deeply empathetic prose Kristen Radtke masterfully shines a light on some of our most vulnerable and sublime moments and asks how we might keep the spaces between us from splitting entirely **Seeking a Richer Harvest** Tina Thurston, Christopher T Fisher, 2006-11-25

Subsistence intensification innovation and change have long figured prominently in explanations for the development of social complexity among foragers and horticulturalists and the rise of chiefly societies and archaic states yet there is considerable debate over the actual mechanisms that promote these processes Traditional approaches to the intensification question emphasize population pressure climate change bureaucratic management or even land degradation as prerequisites for the onset of new or changing strategies or the construction and maintenance of agricultural landscapes Most often these factors are modeled as external forces outside the realm of human decision making but recent archaeological research presents an alternative to this suggesting that subsistence intensification is the result of human driven strategies for power prestige and status stemming from internal conditions within a group When responding to environmental adversity human groups were less frequently the victims as they have been repeatedly portrayed Instead human groups were often vigorous actors responding with resilience ingenuity and planning to flourish or survive within dynamic and sometimes unpredictable social and natural milieus Seeking the Sacred with Psychoactive Substances J. Harold Ellens, 2014-10-28 Can drugs be used intelligently and responsibly to expand human consciousness and heighten spirituality This two volume work presents objective scientific information and personal stories aiming to answer the question The first of its kind this intriguing two volume set objectively reports on and assesses this modern psycho social movement in world culture the constructive medical use of entheogens and related mind altering substances Covering the use of substances such as ayahuasca cannabis LSD peyote and psilocybin the work seeks to illuminate the topic in a scholarly and scientific fashion so as to lift the typical division between those who are supporters of research and exploration of entheogens and those who are strongly opposed to any such experimentation altogether The volumes address the history and use of mind altering drugs in medical research and religious practice in the endeavor to expand and heighten spirituality and the sense of the divine providing unbiased coverage of the relevant arguments and controversies regarding the subject matter Chapters include examinations of how psychoactive agents are used to achieve altered states in Judaism Christianity Islam and Buddhism as well as in the rituals of
