The Justices, Judging, and Judicial Reputation Kermit L. Hall, 2000 First Published in 2001 Routledge is an imprint of Taylor Francis an informa company *Seeking Justices* Michael Comiskey, 2004 In the long shadows cast by the Robert Bork and Clarence Thomas nominations Supreme Court confirmations remain highly contentious and controversial This is due in part to the Senate s increasing reliance upon a much lengthier much more public and occasionally raucous confirmation process in an effort to curb the potential excesses of executive power created by presidents seeking greater control over the Court s ideological composition Michael Comiskey offers the most comprehensive systematic and optimistic analysis of that process to date Arguing that the process works well and therefore should not be significantly altered Comiskey convincingly counters those critics who view highly contentious confirmation proceedings as the norm Senators have every right and a real obligation he contends to scrutinize the nominees constitutional philosophies He further argues that the media coverage of the Senate s deliberations has worked to improve

the level of such scrutiny and that recent presidents have neither exerted excessive influence on the appointment process nor created a politically extreme Court He also examines the ongoing concern over presidential efforts to pack the court concluding that stacking the ideological deck is unlikely As an exception to the rule Comiskey analyzes in depth the Thomas confirmation to explain why it was an aberration offering the most detailed account yet of Thomas s pre judicial professional and political activities He argues that the Senate Judiciary Committee abdicated its responsibilities out of deference to Thomas s race Another of the book s unique features is Comiskey s reassessment of the reputations of twentieth century Supreme Court justices Based on a survey of nearly 300 scholars in constitutional law and politics it shows that the modern confirmation process continues to fill Court vacancies with jurists as capable as those of earlier eras We have now seen the longest period without a turnover on the Court since the early nineteenth century making inevitable the appointment of several new justices following the 2004 presidential election Thus the timing of the publication of Seeking Justices could not be more propitious

HOLDING THE GAVEL PAVAN KUMAR. R, 2025-02-22 Democracy as stated on the first page of our constitution is based on the basic premise that political sovereignty ultimately belongs to the people of the nation Independence should not be considered as an aim in itself but

rather as a means for obtaining this objective If accountability is not taken seriously we may see a dangerous partnership between dishonest politicians and judges that will bring democracy to an end The unique character of the position needs autonomous treatment which is done for the benefit of the country Let BenchBar Accountability to Indian Humanity be high on the national even constitutional agenda The judges themselves should take steps to develop a code of behavior Immediately the Bar Council of India must diligently and ingeniously draft a professional code for the Bar and advise one for the Bench with the goal of preventing pathology The situation of outstanding judges carrying out their tremendous responsibilities as judges suggests a high esteem on the part of the public for the judiciary which is the reservoir of justice embodied If there are some delinquents there must be procedures for testing correction lest the entropy scenario pathologically expand or degrade into a widespread desire for vengeance *The Law Student's Helper*, 1908 **Judge Richard S. Arnold** Polly J. Price, 2009-09-25 Through internal court documents interviews and Arnold's diaries Price traces the former judge's life career and political transformation from an elite Southerner with deep misgivings about Brown v Board of Education to a modern champion of civil rights **Judicial Integrity**, 2004-05-01 Traditional separation of powers theories assumed that governmental despotism will be prevented by dividing the branches of government which will check one another Modern governments function with unexpected complicity among these branches Sometimes one of the branches becomes overwhelming Other governmental structures however tend to mitigate these tendencies to domination Among other structures courts have achieved considerable autonomy vis vis the traditional political branches of power They tend to maintain considerable distance from political parties in the name of professionalism and expertise The conditions and criteria of independence are not clear and even less clear are the conditions of institutional integrity Independence including depolitization of public institutions is of particular practical relevance in the post Communist countries where political partisanship penetrated institutions under the single party system Institutional integrity particularly in the context of administration of justice became a precondition for accession to the European Union Given this practical challenge the present volume is centered around three key areas of institutional integrity primarily within the administration of justice First in a broader theoretical interdisciplinary context the criteria of institutional independence are discussed The second major issue is the relation of neutralized institutions to branches of government with reference to accountability Thirdly comparative experience regarding judicial independence is discussed to determine techniques to enhance integrity
