Regardless of social strata, readers and spectators alike were caught up in a paradigm shift wherein belief systems were increasingly governed by reason even though the discursive primacy of supernatural doxa and Christian wonder remained firmly entrenched. Thanks to their potential for motion, religious and profane puppets, automata, and mechanical stage props deployed a rationalized sense of wonder that illustrates the relationship between faith and reason, reevaluates the boundaries of fiction in art, and entertainment cultures acknowledge the rise of science and technology and questions normative authority.
