Legalism Paul Dresch,Hannah Skoda,2012-08-30 Law and law like institutions are visible in human societies very distant from each other in time and space When it comes to observing and analysing such social constructs historians anthropologists and lawyers run into notorious difficulties in how to conceptualize them Do they conform to a single category of law How are divergent understandings of the nature and purpose of law to be described and explained Such questions reach to the heart of philosophical attempts to understand the nature of law but arise whenever we are confronted by law like practices and concepts in societies not our own In this volume leading historians and anthropologists with an interest in law gather to analyse the nature and meaning of law in diverse societies They start from the concept of legalism taken from the anthropologist Lloyd Fallers whose 1960s work on Africa engaged unusually with jurisprudence The concept highlights appeal to categories and rules The degree to which legalism in this sense informs people s lives varies within and between societies and over time but it can colour equally both simple and complex law Breaking with recent emphases on practice nine specialist contributors explore in a wide ranging set of cases the place of legalism in the workings of social life The essays make obvious the need to question our parochial common sense where ideals of moral order at other times and places differ from those of modern North Atlantic governance State centred law for instance is far from a central case Legalism may be aspirational connecting people to wider visions of morality duty may be as prominent a theme as rights and rulers from thirteenth century England to sixteenth century Burma appropriate as much they impose a vision of justice as consistency The use of explicit categories and rules does not reduce to simple questions of power The cases explored range from ancient Asia Minor to classical India and from medieval England and France to Saharan oases and southern Arabia In each case they assume no knowledge of the society or legal system discussed The volume will appeal not only to historians and anthropologists with an interest in law but to students of law engaged in legal theory for the light it sheds on the strengths and limitations of abstract legal philosophy      *A Companion to Britain in the Later Middle Ages* S. H. Rigby,2008-04-15 This authoritative survey of Britain in the later Middle Ages comprises 28 chapters written by leading figures in the field Covers social economic political religious and cultural history in England Ireland Scotland and Wales Provides a guide to the historical debates over the later Middle Ages Addresses questions at the leading edge of historical scholarship Each chapter includes suggestions for further reading      Studies in the Constitutional History of the Thirteenth and Fourteenth Centuries Bertie Wilkinson,      Select Cases and Other Authorities on the Law of Private Corporations Edward Henry Warren,1916

**Kings, Barons and Justices** Paul Brand,2003-08-07 This book is a study of two important and related pieces of thirteenth century English legislation the Provisions of Westminster of 1259 and the Statute of Marlborough of 1267 and is the first on any of the statutes of this period of major legislative change The Provisions of Westminster were the first major legislation enacted in England after Magna Carta when Henry III surrendered control of government to a baronial council with an agenda of institutional reform The Provisions were revised and reissued by the king in 1263 and a further revision in 1267 produced the Statute of Marlborough Exceptionally good surviving documentation is used to follow the evolution of the individual clauses from initial suggestions for reform through a series of drafts to the various versions of the final texts
