International Humanitarian Law and Human Rights this commentary on four of the most important treaties in international The Development of Human Rights law is unmissable for anyone working in or studying situations of armed conflicts Law by the Judges of the International Court of Justice Shiv R.S. Bedi, 2007-01-18 The jurisprudence of the International Court of Justice generally demonstrates that no rule of international law can be interpreted and applied without regard to its innate values and the basic principles of human rights Through its case law the ICJ has made immense contributions to the development of human rights law and in so doing continues to provide solutions to mounting international problems such as terrorism and unilateral use of force Part I of the book argues that the legislative spirit of contemporary international law lies in the doctrine of human rights and that the spirit of human rights doctrine lies in the principle of human dignity Furthermore it argues that the processes of international legislation and international adjudication are inseparable and that there is no norm of international law which does not intertwine the fundamental principle of human dignity with human rights doctrine Hence human rights law is more a school of law than merely a normative branch of international law and the ICI s willingness to engage in the development of human rights law depends upon which judicial ideology its judges subscribe to In order to evaluate how this human rights spirit is manifested or occasionally not manifested through the vast jurisprudence of the ICJ Parts II and III critically examine the Court's principal contentious and advisory cases in which it has treated human rights questions The legal reasoning of the Court and the opinions appended to its decisions by its individual judges are analysed in light of the principle of human dignity and the doctrine of human rights The Universal **Declaration of Human Rights** Gudmundur Alfredsson, Asbjørn Eide, 2023-06-26 This volume celebrates the 50th anniversary of the Universal Declaration of Human Rights UDHR In so doing it offers a comprehensive and systematic treatment of the rights and duties contained in the UDHR in the light of its history the intentions of its drafters ant the standard setting activities and monitoring efforts which have grown out of its existence Each article of the UDHR is treated in a separate chapter each chapter is written by different authors all scholars from or associated with the Nordic countries all active in human rights work either academically or in the field A consolidated bibliography completes the collection The subtitle of this volume is A Common Standard of Achievement a phrase drawn from the Preamble of the UDHR In many ways this collection is intended to demonstrate that this phrase has to a considerable extent come true
