biography of Page is an important addition and corrective to our understanding of black spirituality and religion political organizing and civic engagement **Bonds of Womanhood** Susanna Delfino, 2022-03-15 Class race and gender collide in this insightful examination of the life of Susanna Susan Preston Shelby Grigsby 1830 1891 a white plantation mistress and slaveholder who struggled to participate in the economic modernization of antebellum Kentucky Drawing on Grigsby s correspondence author Susanna Delfino uses Grigsby s story to explore the complex cultural and social issues at play in the state s economy before during and after the Civil War Delfino demonstrates that Grigsby engaged in certain kinds of antislavery activism such as hiring white servants as a way of conveying her support for free labor and avoiding ever selling a slave Despite her beliefs however Grigsby failed to hold to her moral compass when faced with her husband s patriarchal authority or when she experienced serious economic trouble This compelling study not only illuminates how white women participated in the South s nineteenth century economy but also offers new perspectives on their complicity in slavery

The Columbia Companion to American History on Film Peter C. Rollins, 2004-03-24 American history has always been an irresistible source of inspiration for filmmakers and today for good or ill most Americans sense of the past likely comes more from Hollywood than from the works of historians In important films such as *The Birth of a Nation* 1915 *Roots* 1977 *Apocalypse Now* 1979 and *Saving Private Ryan* 1998 how much is entertainment and how much is rooted in historical fact In *The Columbia Companion to American History on Film* more than seventy scholars consider the gap between history and Hollywood They examine how filmmakers have presented and interpreted the most important events topics eras and figures in the American past often comparing the film versions of events with the interpretations of the best historians who have explored the topic Divided into eight broad categories Eras Wars and Other Major Events Notable People Groups Institutions and Movements Places Themes and Topics and Myths and Heroes the volume features extensive cross references a filmography of discussed and relevant films notes and a bibliography of selected historical works on each subject *The Columbia Companion to American History on Film* is also an important resource for teachers with extensive information for research or for course development appropriate for both high school and college students Though each essay reflects the unique body of film and print works covering the subject at hand every essay addresses several fundamental questions What are the key films on this topic What sources did the filmmaker use and how did the film deviate or remain true to its sources How have film interpretations of a particular historical topic changed and what sorts of factors technological social political historiographical have affected their evolution Have filmmakers altered the historical record with a view to enhancing drama or to enhance the truth of their putative message **Tasteful Domesticity** Sarah Walden, 2018-04-25 *Tasteful Domesticity* demonstrates how women marginalized by gender race ethnicity and class used the cookbook as a rhetorical space in which to conduct public discussions of taste and domesticity Taste discourse engages cultural values as well as physical constraints and thus serves as a bridge between the contested space of the self and the body particularly for women in the nineteenth

century Cookbooks represent important contact zones of social philosophies cultural beliefs and rhetorical traditions and through their rhetoric we witness women's roles as republican mothers sentimental evangelists wartime fundraisers home economists and social reformers Beginning in the early republic and tracing the cookbook through the publishing boom of the nineteenth century the Civil War and Reconstruction the Progressive era and rising racial tensions of the early twentieth century Sarah W Walden examines the role of taste as an evolving rhetorical strategy that allowed diverse women to engage in public discourse through published domestic texts

The Southern Past William Fitzhugh Brundage, 2009-07 Since the Civil War whites and blacks have struggled over the meanings and uses of the Southern past Indeed today's controversies over flying the Confederate flag renaming schools and streets and commemorating the Civil War and the civil rights movement are only the latest examples of this ongoing divisive contest over issues of regional identity and heritage The Southern Past argues that these battles are ultimately about who has the power to determine what we remember of the past and whether that remembrance will honor all Southerners or only select groups For more than a century after the Civil War elite white Southerners systematically refined a version of the past that sanctioned their racial privilege and power In the process they filled public spaces with museums and monuments that made their version of the past sacrosanct Yet even as segregation and racial discrimination worsened blacks contested the white version of Southern history and demanded inclusion Streets became sites for elaborate commemorations of emancipation and schools became centers for the study of black history This counter memory surged forth and became a potent inspiration for the civil rights movement and the black struggle to share a common Southern past

rather than a divided one W Fitzhugh Brundage's searing exploration of how those who have the political power to represent the past simultaneously shape the present and determine the future is a valuable lesson as we confront our national past to meet the challenge of current realities

Entering the Fray Jonathan Daniel Wells, Sheila R. Phipps, 2009-12-01 The study of the New South has in recent decades been greatly enriched by research into gender reshaping our understanding of the struggle for woman suffrage the conflicted nature of race and class in the South the complex story of politics and the role of family and motherhood in black and white society This book brings together nine essays that examine the importance of gender race and culture in the New South offering a rich and varied analysis of the multifaceted role of gender in the lives of black and white southerners in the troubled decades of the late nineteenth and early twentieth centuries Ranging widely from conservative activism by white women in 1920s Georgia to political involvement by black women in 1950s Memphis many of these essays focus on southern women's increasing public activities and high profile images in the twentieth century They tell how women shouldered responsibilities for local national and international interests but just as nineteenth century women's status could be at risk from too much public presence women of the New South stepped gingerly into the public arena taking care to work within what they considered their current gender limitations The authors both established and up and coming scholars take on subjects that reflect wide ranging sophisticated and diverse scholarship on black and white women in the New South They include the efforts of female Home Demonstration Agents to defeat debilitating diseases in rural Florida and the increasing participation of women in historic preservation at Monticello They also reflect unique personal stories as diverse as lobbyist Kathryn Dunaway's efforts to defeat the Equal Rights Amendment in Georgia and Susan Smith's depiction by the national media as a racist southerner during coverage of her children's deaths Taken together these nine essays contribute to the picture of women increasing their movement into political and economic life while all too often still maintaining their gendered place as determined by society Their rich insights provide new ways to consider the meaning and role of gender in the post Civil War South
