Islanders as coastwatchers scouts carriers and labourers under the Royal Australian Navy and other Allied military units Where islanders are mentioned they are represented as loyal helpers The nature of local contributions in the war and their impact on islander perceptions are more complex than has been represented in these outsiders perspectives Islander encounters with white American troops enabled self awareness of racial relationships and inequality under the colonial administration which sparked struggles towards recognition and political autonomy that emerged in parts of the British Solomon Islands Protectorate in the postwar period Exploitation of postwar military infrastructure by the colonial administration laid the foundation for later sociopolitical upheaval experienced by the country In the aftermath of the 1998 crisis the supposed unity and pride that prevailed among islanders during the war has been seen as an avenue whereby different ethnic identities can be unified This national unification process entailed the construction of the Pride of our Nation monument that aims to restore the pride and identity of Solomon Islanders

*Sea Power in the Twenty-First Century* Charles Koburger, 1997-09-16 As the U S Navy enters the twenty first century many of the ships aircraft weapons and tactics it employed so successfully during the Cold War will no longer be cost effective or even effective Future battlefields will shift the locus of naval action from the high seas into littoral waters demanding sustained operations in relatively narrow shallow

waters Naval forces in the twenty first century must not only meet the traditional requirements of command of the sea ships planes troops and bases carrying out forward presence crisis response strategic deterrence and sealift They must now put these together to obtain the four key operational capabilities of littoral warfare command control intelligence and surveillance and communication battlespace dominance power projection and force sustainment The core of the new U S strategic concept is power projection and it envisions naval forces directly leading Army and Air Force elements to influence events ashore most probably in the Third World And this navy must be cost effective World War II Michael J. Lyons,2016-07-01 Highly regarded for its concise clarification of the complexities of World War II this book illuminates the origins course and long range effects of the war It provides a balanced account that analyzes both the European and Pacific theaters of operations and the connections between them The Fifth Edition incorporates new material based on the latest scholarship offering updated conclusions on key topics and expanded coverage throughout The Solomon Islands Campaign, Guadalcanal to Rabaul Eugene L.
