Pacific Visions:

Canada and Competing Indo-Pacific Visions of China and the US Kenneth M. Holland, 2024-12-13 This book describes and analyzes the choices that Canada as a Middle Power has regarding the strategic rivalry between the United States and China. The administrations of Republican Donald Trump and his successor Democrat Joe Biden have taken a hardline stance toward Beijing which in turn has adopted an increasingly belligerent tone toward Washington. The posture of the United States toward China has put traditional American allies in a difficult position. They must choose whether to join the effort to counter China's ambitions, support those ambitions, or take some intermediate stance. As one of America's closest and longest standing allies, Canada must make decisions that will affect its position in the world for the rest of the twenty-first century. The book argues that Canada's national interests are best served by alignment with the confrontational posture of the United States while at the same time joining the efforts of U.S. allies Japan, India, and South Korea to moderate the thrust of Washington's Indo-Pacific Strategy in a direction more consistent with multilateralism and the preservation of the rules-based international order. The book has important implications for other U.S. allies including the member states of the European Union, Organization of American States, and Association of Southeast Asian Nations, each of which finds itself caught in the middle between the world's two greatest powers. *Making a Modern U.S. West* Sarah Deutsch, 2022

This book surveys the history of the U.S. West from 1898 to 1940, centering what is often relegated to the margins in histories of the region: the flows of people, capital, and ideas across borders. **Transpacific Visions** Yasuko Hassall

Kobayashi, Shinnosuke Takahashi, 2021-09-30 This book argues that transpacific history cannot be comprehended without including vertical connections, namely those between the southern hemisphere and the northern hemisphere. It explores such connections by uncovering small histories of ordinary people's attempts at ventures which they undertake by means of uneven, unlevel, and multidirectional mobilities. In this way, this book goes beyond the usual notion of transpacific history as a matter of Northern Hemisphere-centric connections between the United States and Asian countries and enables us to imagine a transpacific space as a more dynamic and multi-faceted world of human mobilities and connections. In this book, both eminent and burgeoning historians uncover the stories of little-known myriad encounters in various parts of the Asia-Pacific region. By exploring cases whose actors include soldiers, missionaries, colonial administrators, journalists, essayists, and artists, the book highlights the significance of vertical perspectives in understanding complex histories of the region. *Japan and its Partners in the Indo-Pacific* Srabani Roy Choudhury, 2023-05-12

The book studies the development of Japan's Free and Open Indo-Pacific (FOIP) vision. As strategic competition grows, the lessons from the pandemic, the deepening Sino-US rivalry, and the United States losing grip on the current world strategic environment all compel Japan to focus its attention on the Indo-Pacific region. The volume examines Japan's foreign policy through an analysis of its strategic agenda, economic calculations, maritime security concerns, and soft power policies. It looks at Japan's relations with United States, Australia,

India Vietnam Africa South Korea Indonesia and the United States in the context of Japan's bilateral and multilateral arrangements An important contribution to the study of politics in the Indo Pacific region the book will be an indispensable resource for students and researchers of political science international relations foreign policy geopolitics security studies strategic studies as well as area studies namely East and Southeast Asian studies and Indo Pacific studies *Maritime Issues and Regional Order in the Indo-Pacific* Leszek Buszynski, Do Thanh Hai, 2021-07-02 This edited volume examines the political and security issues influencing and shaping the developing maritime order in the Indo Pacific It focuses specifically on the impact of China's maritime expansion upon the policies and strategies of the regional states as well as the major players The chapters examine the interaction of these players paying particular attention to Japan as the originator of the Indo Pacific idea and promoter of security cooperation and regionalism It also covers the responses of the ASEAN claimants Vietnam Malaysia the Philippines as well as Indonesia alongside the key players India the US and also the EU Europe's Indo-Pacific Pivot Gabriele Abbondanza, Gorana Grgić, 2025-09-29 This is the first book exploring Europe's engagement with the Indo Pacific region Its novel comparative perspective favours a bird's eye view of Europe's unfolding Indo Pacific pivot and nuances the many priorities and mechanisms that are involved in this process The volume provides a wide scoped account of Europe's policies on the Indo Pacific comprising both the EU and Europe's major middle and minor powers It also offers a careful assessment of the resulting implications including trends commonalities and differences advantages and risks and consequences for cross regional cooperation Endorsed by experts from universities think tanks and international institutions this book is meant for academics policymakers and diplomats as well as journalists and students interested in Europe's growing focus on the Indo Pacific *India and ASEAN in the Indo Pacific* Swaran Singh, Reena Marwah, 2024-02-08 This book investigates India ASEAN partnership and their overlapping perspective on the Indo Pacific region and big powers contestation and competition in this region providing specific nuances and newer insights It is policy oriented and examines the confluence of ASEAN's Outlook for Indo Pacific AOIP and India's Indo Pacific Oceans Initiative IPOI It brings out various contemporary geopolitical drivers that highlight the hidden complementarities and gaps in India ASEAN multi sectoral connectivity and its future The book provides a balanced assessment of evolving trends undergirded by theoretical debates and empirical analyses with diverse sub regional and country perspectives of the intersection between the potential for regional convergence domestic capacity issues and security interests It is thus of immense use for think tanks and media commentators policy makers and researchers of Indo Pacific Asian affairs international relations and China US relations interested in evolving contours of Indo Pacific geopolitics Learning in and Through Art Stephen M.
