The Dream of a Democratic Culture T. Lacy, 2013-11-26 This book presents a moderately revisionist history of the great books idea anchored in the following movements and struggles fighting anti intellectualism advocating for the liberal arts distributing cultural capital and promoting a public philosophy anchored in mid century liberalism that fostered a shared civic culture

Thinking Constructively About Science, Technology, and Society Education Dennis W. Cheek, 1992-07-01 This book defines STS science technology and society education and discusses current thinking about its conceptual evolution It

synthesizes a broad range of research and thought in the history and philosophy of science and technology STS studies and education as they are informed by the the dual perspectives of cognitive and social psychology A model for STS curriculum development in science social studies or technology education is presented with well chosen examples The book includes an extensive and invaluable bibliography that will enable students teachers and researchers to explore the richness of this emerging field

Passing the Torch Louis Markos,2025-04-29 What is the purpose and meaning of classical education Imagine a world where education isn t just about information transfer but about shaping the soul where students are nurtured to become virtuous morally self regulating citizens Passing the Torch makes an energetic case for the critical role of classical Christian education in today s world From the pre Christian musings of Plato to the modern reflections of C S Lewis Passing the Torch intertwines the wisdom of diverse epochs to argue for an educational renaissance grounded in classical Christian values Passing the Torch takes educators and parents on a literary and philosophical pilgrimage that includes Bibliographic Essays Each essay serves as a gateway to key texts and influential thinkers making it an invaluable guide for educators and homeschooling parents alike Close Readings Delve into thoughtful examinations of pivotal figures such as Augustine Rousseau and Dorothy Sayers offering an intimate understanding of the moral and educational imperatives they championed Passionate Advocacy Passing the Torch ignites a fervor for the value and necessity of classical Christian education that is both infectious and inspiring In an era where educational paradigms often prioritize technological proficiency over moral formation Passing the Torch is a call to return to the roots of classical Christian education Reflecting on the writings of literary and philosophical giants from Plato and Augustine to C S Lewis and Dorothy Sayers Markos makes a strong case for the benefits of classical education over the modern public education system Library Journal Review April 2025

Kant's Conception of Pedagogy G. Felicitas Munzel,2012-08-31 Although Kant was involved in the education debates of his time it is widely held that in his mature philosophical writings he remained silent on the subject In her groundbreaking Kant s Conception of Pedagogy G Felicitas Munzel finds extant in Kant s writings the so called missing critical treatise on education It appears in the Doctrines of Method with which he concludes each of his major works In it Kant identifies the fundamental principles for the cultivation of reason s judgment when it comes to cognition beauty nature and the exercise of morality while subject to the passions and inclinations that characterize the human experience From her analysis Munzel extrapolates principles for a cosmopolitan education that parallels the structure of Kant s republican constitution for perpetual peace With the formal principles in place the argument concludes with a query of the material principles that would fulfill the formal conditions required for an education for freedom

Content-Based Curriculum for High-Ability Learners Joyce VanTassel-Baska,2010-07 This newly updated edition provides a solid introduction to curriculum development in gifted and talented education Written by experts in the field of gifted education this text uses cutting edge curriculum design techniques and aligns the core content with national and state standards In addition to a revision of the

original chapters the second edition contains new chapters on topics such as second language learning leadership arts curriculum and technology The text identifies the basic principles of curriculum development accelerated learning within the core content areas use of higher order process skills development of creative student products and concept development and learning These techniques are incorporated into a chapter on each core content area language arts mathematics science and social studies as well as world languages and the arts The final chapters focus on the roles of teachers program coordinators and administrators during curriculum design including selecting resources and materials aligning curriculum and assessing student learning from back cover
