Pain Sex And Time:

Pain, Sex and Time; a New Hypothesis of Time ,1940 **Notes from the Edge Times** Daniel Pinchbeck,2010-10-14 In this unsparing tour of the perils and promises of the current era visionary author Daniel Pinchbeck helps us understand that we don't need to wait for the dawning of the next age to radically change our perspectives In the years since his pioneering work 2012 Daniel Pinchbeck has touched a legion of readers hungry for insight and guidance about new ways of living amid the crises of the current moment Notes from the Edge Times collects Pinchbeck's most penetrating recent columns articles and essays that amount to an extraordinary mosaic view of the hopes nightmares and signs of breakthrough that mark our present era Pinchbeck examines the current economic collapse an event he had foreseen by many months radical political and ecological alternatives the uses of psychedelics for spiritual insight the revival of the sexual revolution unexplained phenomena such as crop circles and the Norway spiral the imminent and often misunderstood question of 2012 and what it means to be an artist in a time of radical change Pinchbeck's virtuosity as a social critic on full display in these pieces is his ability to illuminate real and serious questions within unconventional topics that most literary intellectuals are unwilling to touch from secret weapons systems to extrasensory abilities to the intelligence of plant life In Notes from the Edge Times Pinchbeck does more than critique present day questions and conflicts he provides fresh ideas for living more consciously now and for constructing our own more enlightened futures even as the world around us faces profound environmental social and spiritual challenges **Between the Pigeonholes** Alison Falby,2020-12-15 Aldous Huxley described Gerald Heard as that rare being a learned man who made his mental home on the vacant spaces between the pigeonholes Heard's off beat interests made him a cultural and intellectual pioneer on both sides of the Atlantic in the middle decades of the twentieth century Despite accolades from such figures as E M Forster who characterized him as one of the most penetrating minds in England and Christopher Isherwood who described him upon his death as one of the few great magic mythmakers and revealers of life's wonder Heard is largely unknown today Between the Pigeonholes is the first published full length study of Gerald Heard Alison Falby examines Heard's ideas and contexts in interwar Britain and postwar America demonstrating his significance in several important twentieth century movements These movements include popular science and psychology psychical research Eastern spirituality pacifism cooperativism and Californian counter culture All of Heard's involvements expressed his desire to convey religious ideas in the modern languages of biological social and physical science Falby also traces Heard's shifting political leanings from left liberal in the early 1930s to libertarian in the early 1960s She finds that his modernist theological approach conventionally associated with liberal religion and politics provided spiritual fodder for those on both the Left and the Right Isherwood and W H Auden on the one hand and Clare Boothe Luce and Spiritual Mobilization on the other Using Heard as a prism through which to examine popular ideas Falby shows that the twentieth century contained much political and religious heterogeneity This heterogeneity illustrates the diverse and overlapping roots of both

liberal religion and conservative politics in the twenty first century
