## **Painting A Likeness:**

**Painting a Likeness** Douglas R. Graves, 1984-01-01 Painting a convincing likeness is essential to a good portrait. It requires two elements: the reproducing of physical characteristics and the suggesting of character that elusive inner spirit behind the physical facade, the soul of the sitter. **Painting Portraits** Helen Olsen, 1964 With 13 full color step by step plates and 100 black and white illustrations. Lessons in Likeness Estill Pennington, 2010-11-26 From 1802 when the young artist William Edward West began painting portraits on a downriver trip to New Orleans to 1918 when John Alberts, the last of Frank Duveneck's students, worked in Louisville, a wide variety of portrait artists were active in Kentucky and the Ohio River Valley. Lessons in Likeness: Portrait Painters in Kentucky and the Ohio River Valley 1802-1920 charts the course of those artists as they painted the mighty and the lowly, statesmen and business magnates as well as country folk living far from urban centers. Paintings by each artist are illustrated when possible from The Filson Historical Society collection of some 400 portraits, representing one of the most extensive holdings available for study in the region. This volume begins with a cultural chronology, a backdrop of critical events that shaped the taste and times of both artist and sitter. The chronology is followed by brief biographies of the artists, both legends and recent discoveries, illustrated by their work. Matthew Harris Jouett, who studied with Gilbert Stuart, William Edward West, who painted Lord Byron, and Frank Duveneck are well known; far less so are James T. Poindexter, who painted charming children's portraits in western Kentucky, Reason Croft, a recently discovered itinerant in the Louisville area, and Oliver Frazer, the last resident portrait artist in Lexington during the romantic era. Pennington's study offers a captivating history of portraiture, not only as a cherished possession but also representing a period of cultural and artistic transitions in the history of the Ohio River Valley region. Some T'Ang and Pre-T'Ang Texts on Chinese Painting Chang Yen-Yuan, 1974-12-01 Contents: V II part 1 Translation and annotations; V II part 2 Chinese text. **Some T'ang and Pre-T'ang Texts on Chinese Painting**, 2022-05-16 The Chinese Literati on Painting Susan Bush, 2012-11-01 This classic work, first published in 1971, explores the transition in painting styles from the late Sung period to the art of Yuan dynasty literati. Building on the pioneering work of Oswald Siren and James Cahill, Susan Bush's investigations of painting done under the Chin dynasty confirmed the dominance of scholar artists in the north and their gradual development of scholarly painting traditions. A related study of Northern Sung writings showed that their theory was shaped as much by the views of their social class as by their artistic aims. Bush's perspective on Sung scholars' art and theory helps explain the emergence of literati painting as the main artistic tradition in Yuan times. Social history thus served to supplement an understanding of the evolution of artistic styles. Real Likenesses Michael Morris, 2020 Real Likenesses presents a radical new approach to the philosophy of artistic representation. Through a close analysis of paintings, photographs, and novels, it reconsiders the relationship between medium and content and proposes a new understanding of the real likenesses that we encounter in representational art. *You Can Draw Portraits* David Rite, 2020-09-30 In this
