**Royal Academy Pictures and Sculpture** ,1912      **National Galleries** Simon Knell,2016-01-22 Are national galleries different from other kinds of art gallery or museum What value is there for the nation in a collection of international masterpieces How are national galleries involved in the construction national art National Galleries is the first book to undertake a panoramic view of a type of national institution which are sometimes called national museums of fine art that is now found in almost every nation on earth Adopting a richly illustrated globally inclusive comparative view Simon Knell argues that national galleries should not be understood as great galleries but as peculiar sites where art is made to perform in acts of nation building A book that fundamentally rewrites the history of these institutions and encourages the reader to dispense with elitist views of their worth Knell reveals an unseen geography and a rich complexity of performance He considers the ways the national galleries entangle art and nation and the differing trajectories and purposes of international and national art Exploring galleries artists and artworks from around the world National Galleries is an argument about how we think about and study these institutions Privileging the situatedness of each national gallery performance and valuing localism over universalism Knell looks particularly at how national art is constructed and represented He ends with examples that show the mutability of national art and by questioning the necessity of art nationalism      Shepp's Library of History and Art Daniel B. Shepp,1905      *149 Paintings You Really Should See in Europe — Great Britain and Ireland* Julian

Porter,2013-10-21 This chapter from Julian Porter s essential companion to all the major European museums and galleries discusses some of the greatest paintings to be found in the museums and galleries of the United Kingdom and Ireland His passion for art began with the seven years he spent as a student tour guide in Europe In this segment he visits London Dublin and the university towns of Cambridge and Oxford and discusses works by masters such as Constable Turner Waterhouse and many more In the usually pretentious arena of art connoisseurs Porter s voice stands out as fresh and original He finds the best of the best which he describes with entertaining irreverence and spares you hours of sore feet and superfluous information      *Congressional Record* United States.
