The Pakistan Cauldron James P. Farwell, 2011-10-01 The killing of Osama bin Laden spotlighted Pakistan's unpredictable political dynamics which are often driven by conspiracy theory paranoia and a sense of betrayal In Pakistan the late prime minister Benazir Bhutto famously declared there is always the story behind the story In *The Pakistan Cauldron* James P Farwell explains what makes Pakistani politics tick Farwell has advised the Department of Defense on terrorism sovereignty and the political issues in the Middle East Africa and Pakistan Here he reveals how key Pakistani political players have inconsistently employed the principles of strategic communication to advance their agendas and undercut their enemies Pakistan is an enigma to many Only by understanding the complex forces that shape Pakistani leaders can we uncover their shifting political agendas and how they affect America and the West Farwell explains how and why former president Pervez Musharraf clamped down on nuclear scientist A Q Kahn and isolated him He assesses Benazir Bhutto's unique legacy and analyzes how Musharraf handled the aftermath of her assassination He explains Pakistan's current instability and demonstrates how the country's emotional reaction to bin Laden's death is best understood as the outcome of long standing political dynamics *The Pakistan Cauldron* is for anyone who needs to know why Pakistan continues to pose increasingly difficult challenges for the United States and the West

Transforming Pakistan Hilary Synnott, 2012-12-06 This book argues that any strategy for dealing with Pakistan requires an understanding of the country's complex and turbulent history and of the weaknesses of its political and other institutions It describes how in the absence of an inherent national identity successive military and civilian governments have made use of Islam and Kashmir the unfinished business of Partition for political purposes It also examines the role of the army and of its intelligence service the ISI in relation to India Afghanistan and internal political manipulation The nature and history of the tribal regions in Pakistan and Afghanistan which are little understood in the West and which explain much of the animosity towards the US are also described in detail After 9 11 Pakistan's support for counter terrorism and military operations in Afghanistan increased the population's animosity towards the West and hence the government's difficulties in delivering Meanwhile the military leadership hedged its bets by maintaining links with militant organisations and with a re emerged Taliban With the arrival of an elected leadership the emergence of simultaneous political economic and security crises tactical errors by the West and the Mumbai terrorist attacks in late 2008 the situation was complicated further The book concludes with recommendations aimed particularly at the new US administration for a durable long term relationship with Pakistan entailing increased attention and resources devoted to institution building and over time the reduction of the role and

influence of the army **The Making of Terrorism in Pakistan** Eamon Murphy, 2013 This book explains the origins and nature of terrorism in Pakistan and examines the social political and economic factors that have contributed to the rise of political violence there Since 9 11 the state of Pakistan has come to be regarded as the epicentre of terrorist activity committed in the name of Islam The central argument of this volume suggests that terrorism in Pakistan has in essence been manufactured to suit the interests of mundane political and class interests and effectively debunks the myth of Islamic terrorism A logical consequence of this argument is that the most effective way of combating terrorism in Pakistan lies in addressing the underlying political social and economic problems facing the country After exploring the root causes of terrorism in Pakistan the author goes on to relate the historical narrative of the development of the Pakistani state to the theories and questions raised by Critical Terrorism Studies CTS scholars The book will therefore make an important contribution to CTS scholarship as well as presenting an analysis of the many complex factors that have shaped the rise of Pakistani terrorism This book will be of great interest to students of Critical Terrorism Studies Asian history and politics Security Studies and IR in general Pakistan David Abbott, 2015-01-01 This book explores Pakistan a country in a state of political economic and social transformation It examines the benefits of change as well as the challenges to traditional ways of life in an age of increasing globalization Making Sense of Pakistan Farzana Shaikh, 2018-10-15 Argues that the decline of Pakistan is deeply entrenched with roots in its original national foundations The Warrior State T. V. Paul, 2015 As the U S forces withdraw from Afghanistan a Taliban victory in that besieged long suffering country and the further Talibalization of Pakistan itself have become a real possibility This book explores why Pakistan has become such a heavily militarized ideologically driven state yet remains deeply insecure weak and unable to unite itself or pacify its warring ethnic and religious groups **Pakistan's National Security Approach and Post-Cold War Security** Arshad Ali, 2021-03-30 This book analyzes the paradox that despite being a national security state Pakistan has become even more insecure in the post Cold War era It provides an in depth analysis of Pakistan s foreign and security policies and their implications for the overall state and society The book identifies the immediate security challenges to Pakistan and charts the distinctive evolution of Pakistan s national security state in which the military elite became the dominant actor in the political sphere of government during and after the Cold War period By examining the national security state militarization democracy and security proxy wars and the hyper military industrial complex the author illustrates how the vanguard role of the military created considerable structural sociopolitical economic and security problems in Pakistan Furthermore the author argues that the mismatch between Pakistan s national security stance and the transformed security environment has been facilitated and sustained by the embedded interests of the country s military industrial complex A critical evaluation of the role of the military in the political affairs of the government and how it has created structural problems for Pakistan this book will be of interest to academics in the field of South Asian Politics and Security South Asian Foreign and Security Policy International

Relations Asian Security and Cold War Studies Historical Dictionary of Pakistan Shahid Javed Burki, 2015-03-19 Pakistan is unlike most other countries in the emerging world. It is one of the two nations the other being the state of Israel founded on the basis of religion. Although it was created to provide a homeland for the Muslim community of British India in its original form it was able to accommodate only about half of the people of Islamic faith who lived in the subcontinent. Pakistan's birth in 1947 resulted in one of the largest movements of people in human history when some 14 million people left their homes with 8 million Muslims leaving India for what is now Pakistan and 6 million Hindus and Sikhs moving in the opposite direction. This was the first large scale incidence of ethnic cleansing the world was to witness. This fourth edition of Historical Dictionary of Pakistan covers its history through a chronology, an introductory essay, appendixes and an extensive bibliography. The dictionary section has over 700 cross referenced entries on important personalities, politics, economy, foreign relations, religion and culture. This book is an excellent access point for students, researchers and anyone wanting to know more about Pakistan.

Deconstructing India-Pakistan Relations Sanjeev Kumar H. M., 2023-12-14 This book examines the complex dynamics of India-Pakistan relations by situating the same in the postcolonial setting of the subcontinent. In pursuit of this, the book analyses the impact of the linkages between the postcolonial processes of state making and the structuring of political communities upon the evolution of the problematique of state security in South Asia. For the purpose of undertaking this task, the author deconstructs the countries colonial history with an aim to map its impact on the making of the foreign policy of Pakistan. Drawing primarily from colonial discourse theory and historical sociology, the book links the trajectory of Pakistan's international politics to its domestic politics and weak state inheritances. By doing this, it offers a stimulating treatment of the history of the country's troubled postcolonial relations with India. This has been done in the book by presenting the modes by which the religious, military and politico-bureaucratic classes that constitute the power elite in Pakistan tended to have moulded an India-centred State security problematique. This book will be of interest to researchers studying South Asian security, India-Pakistan relations and the defence and foreign policy of Pakistan.
