Pakistans Islamic Bomb:

Pakistan's Islamic Bomb D. K. Palit, P. K. S. Namboodiri, 1979 Pakistan's Pathway to the Bomb Mansoor Ahmed, 2022-05-01 In Pakistan's Pathway to the Bomb author Mansoor Ahmed provides a groundbreaking account of Pakistan's rise as a nuclear power. By drawing on elite interviews and previously untapped primary sources, Ahmed reveals how bureaucratic politics shaped the nuclear program's development and where it stands today. **America, Britain and Pakistan's Nuclear Weapons Programme, 1974-1980** Malcolm M. Craig, 2017-06-26 This book analyses US and UK efforts to shut down Pakistan's nuclear programme in the 1970s between the catalytic Indian nuclear test of May 1974 and the decline of sustained non-proliferation activity from mid-1979 onwards. It is a tale of cooperation between Washington and London but also a story of divisions and disputes. The brutal economic realities of the decade, globalisation and wider geopolitical challenges all complicated this relationship. Policy and action were also affected by changes elsewhere in the world. Iran's 1979 revolution brought a new form of political Islamic radicalism to prominence. The fears engendered by the Ayatollah and his followers coupled to the blustering rhetoric of Pakistani leaders gave rise to the Islamic bomb, a nuclear weapon supposedly created by Pakistan to be shared amongst the Muslim ummah. This study thus combines cultural, diplomatic, economic and political history to offer a rigorous, deeply researched account of a critical moment in nuclear history. **Pakistan's Nuclear Weapons** Bhumitra Chakma, 2012-10-12 Pakistan is a vitally important country in the contemporary global political system. It is a de facto nuclear state and a pivotal country in the War on Terror. This book provides a comprehensive study of a nuclear-armed Pakistan, investigating the implications of its emergence as a nuclear weapons state. Setting out the historical background of Pakistani nuclear development, the book examines the lessons for proliferation that can be drawn from the Pakistan case. It explains the changes and continuities of Pakistan's nuclear policy, assessing its emerging force posture and the implications for Pakistani, South Asian and global security. It also considers the extent to which Pakistan can be said to have a nuclear doctrine, the Pakistani nuclear command and control system and the relationship between Pakistan and the Non-Proliferation regime. Addressing the issue of whether Pakistan should be viewed as a proliferator and the implications of a nuclear Pakistan for global terrorism, *Pakistan's Nuclear Weapons* is an important study of all the major issues surrounding Pakistan's emergence as a nuclear power. **Pakistan's Nuclear Disorder** Garima Singh, 2006 Non-proliferation concerns have often been shrugged off by nations for short-term and short-sighted strategic interests. The present relationship between Pakistan and the US is a case in point. Though a member of the NPT coupled with non-proliferation as its foreign policy, the US has been turning a blind eye to Pakistan's long and avid quest for nuclear weapons, primarily to serve its own short-term strategic interests in the region. Pakistan well aware of this has exploited the situation to full. The focus of this work is to determine whether the Western experts' apprehensions on the safety and security of Pakistan's nuclear installations and fissile material are well founded or an exaggeration. The decades-old

nuclear trade between Pakistan and other countries has also been discussed with a view to highlighting the fact that A Q Khan's proliferation linkages did not come as a surprise to the US emphasizing the point that Washington had been turning a blind eye to the nuclear linkages and programmes for its own strategic interests The study also holds that NPT has been unsuccessful in controlling nuclear proliferation and suggests ways to curb further proliferation *Shopping for Bombs* Gordon Corera,2009-10 Here is the riveting inside story of the rise and fall of A Q Khan and his role in the devastating spread of nuclear technology over the last thirty years Drawing on exclusive interviews with key players in Islamabad London and Washington as well as with members of Khan's own network BBC journalist Gordon Corera paints a truly unsettling picture of the nuclear arms bazaar Corera reveals how Khan operated within a world of shadowy deals amongst rogue states and how his privileged position in Pakistan protected his unique and deadly business empire *America and the Islamic Bomb* David Armstrong,Joseph John Trento,2007 The Carter and Reagan administrations set aside concerns about the spread of nuclear weapons in order to win Pakistan's assistance in a covert war against the Soviet Union a policy that snowballed as the U S continued to turn a blind eye to Pakistani nuclear trafficking after 9 11 and has seriously compromised both U S and world security Drawing on exclusive interviews classified records and secret government records and secret government reports this book provides an entirely new perspective on the so called A Q Khan nuclear black market scandal

Pakistan's Nuclear Exclusion Sana Rahim,2024 Developed over six chapters Pakistan's Nuclear Exclusion provides an account of how orientalism is a lived experience of post colonial racism injustice and inequality amongst members of the nuclear community in Pakistan The account is produced through interviews with members of the community consisting of students academics and physicists in Pakistan Rahim offers unique insights into how Pakistan's nuclear community is not only perceived and represented but also how it seeks to operate in a wider nuclear community dominated by Western nuclear powers The provision of such highly contextualised insights is enabled by the book setting out to both a provide analytical space for and b give voice to how orientalism is experienced in the everyday of their lives Consequently the work provides 1 an analysis of how dominant discourses of nuclear management and their pictures of reason are exclusionary 2 an analysis of the core features of orientalism as they pertain to Pakistan's nuclear community and 3 empirical findings which produce categories of the experience of orientalism into areas of the everyday exclusion making a career Islamophobia technology denial and self reliance Pakistan's Nuclear Exclusion is enormously valuable to the research community as well as extremely well conceived and researched In addition much of the methodology chapter offers a level of sophistication and self reflection that translates well in the interview material and its subsequent analysis *Soviet-American Relations with Pakistan, Iran and Afghanistan* Hafeez Malik,1987-03-02 This is a collective volume on Soviet American relations with the three rimland states of Iran Afghanistan and Pakistan The contributors argue that what happens in these three states would ultimately affect the states in the Gulf and the Middle East The USA maintains friendly relations only with Pakistan while her relations

with Iran and Afghanistan are antagonistic The future penetration of the Soviet influence in Iran and Afghanistan is assessed and probable scenarios are discussed by the seventeen contributors who represent the military diplomacy and academia The concluding chapter synthesizes the discussions and the criticism of various papers The book is the most up to date thorough analysis of superpower relations with the three neighbouring states of the Soviet Union currently available

Non-Proliferation Stockholm International Peace Research Institute, 2020-11-19 Is the appearance of new nuclear weapon states inevitable Who are the sponsors and apologists of nuclear weapons and why are others in favour of renouncing them What are the implications for international security of the increasingly wide use of nuclear energy How can nuclear threats be defused Originally published in 1985 SIPRI's study suggests some answers to these questions The book examines the situation in a number of countries of key importance for non proliferation the two nuclear weapon states which have declined to join the 1968 Non Proliferation Treaty China and France a group of nuclear threshold states also remaining outside the Treaty Argentina Brazil India Israel Pakistan South Africa and Spain and a group of states both developed and developing which for various reasons have joined the Treaty Canada Egypt South Korea Sweden Switzerland and Taiwan The focus of the book is on motivations for and against nuclear proliferation An analysis of these motivations leads the editor to make detailed recommendations aimed at halting the spread of nuclear weapons Appendices include a list of nuclear facilities in the countries studied specifying the degree of their coverage by international controls and other relevant documentation
