Palabras Y Las Cosas Una Arqueologa A De Las Ciencias Humanas:

Las palabras y las cosas Michel Foucault, 1997 El proyecto de la obra es triple primero es una arqueología a un estudio sistemático que busca reconstituir a través de las obras de teóricos y pragmáticos las configuraciones mentales que dan cuenta desde finales del Renacimiento de la naturaleza de las ciencias y del modo en que estas consideran a las cosas segundo es una investigación que intenta revelar la existencia y significación de obras que la historia de la cultura descuida constantemente tercero es una crítica que indaga a partir de qué ideas y de qué sistemas de ideas se formaron esas ciencias humanas que contribuyen a la ambigüedad del mundo actual El rigor la originalidad la inspiración de Michel Foucault ofrecen una mirada radicalmente nueva sobre el pasado de la cultura Occidental y una concepción más lúcida de su confuso presente La descripción y el análisis del saber y aquí Foucault examina en detalle la evolución de la economía la biología y la lingüística terminando por dar cuenta del psicoanálisis y de la etnología es la tarea que se impuso en este libro Es del hombre de quien hay que hablar Es el objeto y el subjetivo del saber racional Esto es lo que Foucault finalmente pone en duda Su análisis de la finitud muestra a la vez por qué la noción del hombre desempeña un papel tan eminente y usurpa irrisoriamente ese mismo papel

Las palabras y las cosas Michel Foucault, 1999 **Avances en las infraestructuras de datos espaciales** Carlos Granell Canut, 2006-10 Spatial Data Infrastructures SDI is a fairly recent field that has soon yielded very interesting results as shown by the studies published in this book which is a reference for all those interested in developing or using this technology **La huella analógica del caminar humano** Mauricio Beuchot, 2015-01-28 En este libro el autor pretende hacer una breve exposición de la hermenéutica analógica y algunas aplicaciones Se hace esto por ejemplo a las humanidades ya que en las ciencias humanas y sociales se utiliza mucho la hermenéutica y se quiere evitar en ellas el univocismo y el equivocismo postulándose una hermenéutica analógica es decir una interpretación basada en la analogía También se aplica a la retórica la cual tradicionalmente había cumplido las funciones de la hermenéutica actual Igualmente se usa en la construcción de una ética y una estética Se presenta como superación del ideal univocista del estructuralismo y de la deriva equivocada del posmodernismo Finalmente esta utilización del concepto de analogía se rastrea en algunos filósofos mexicanos y se desemboca en la necesidad de aplicarlo a la amistad que es uno de los supremos valores de la vida Las conclusiones tratan de extraer el resultado de ese caminar por el sendero de la hermenéutica y de la analogía **Michel Foucault** Rosario García del Pozo, 1988 **Writers of the Spanish Colonial Period** David William Foster, Daniel Altamiranda, 1997 These critical studies propose innovative readings and overall reformulations of the texts and authors that stand as representative of the period for the contemporary reader The first group of articles refers to reports chronicles and Renaissance epics a vast block of texts that fall in most cases halfway between history and narrative fiction and examine the experiences of the discovery the conquest and the colonization of the new territories The second group concentrates on regionally marked texts from the Baroque period especially those of the central figure of the Mexican nun poet and intellectual Sor Juana Inés de la Cruz

Finally there are some essays on representative texts of the latter part of the colonial period Publisher's description La autopsia psicológica Damián G. Ricardo, 2019-11-29 El autor es Licenciado en Psicología egresado en la Universidad de Buenos Aires magister en Metodología de Investigación de la Universidad Nacional de la Patagonia Austral y Perito Oficial en el Poder Judicial de la Provincia de Santa Cruz además de poseer una amplia experiencia tanto en el área Clínica como en el área Forense Dentro del ámbito judicial al que pertenece se ha ocupado de más de treinta casos de autopsia psicológica sobre las que se basan las conclusiones del presente libro utilizando un marco teórico con orientación en la obra de autores como Gilles Deleuze Michel Foucault y bibliografía específica del campo disciplinar La obra avanza asimismo con una propuesta estética que acompaña el desarrollo de los conceptos y nos involucra en un entrecruzamiento entre ciencia y arte Junto al procedimiento de autopsia psicológica se propone el avance sobre una disciplina que engloba un conjunto de prácticas para las que se sugiere el nombre de Psicotanatología Forense **El individuo en la cultura y la historia** Jesús Ferro Bayona, 2005 Consciente de la necesidad actual de clarificar la relación entre el psicoanálisis y algunas de las principales propuestas filosóficas y psicológicas contemporáneas que de alguna manera se han visto influenciadas por los planteamientos psicoanalíticos el autor se aproxima a los planteamientos freudianos desde una perspectiva que aunque implica el aspecto psicológico también apunta a la contextualización de este en el ámbito histórico y cultural Cinco estudios de filosofía contemporánea Barcia Lago, Modesto, 2023-11-15 Se reúnen en esta publicación cinco estudios de filosofía contemporánea Son independientes entre sí y cada uno se centra en la consideración de un libro especialmente significativo de la problemática abordada Así la cuestión del Ser en Heidegger la teoría crítica de Horkheimer Adorno la arqueología del saber de Foucault la biopolítica de Agamben o el feminismo de N Fraser son abordados a través de la irradiación de obras centrales de cada uno de estos autores que en conjunto pese a su diferente problemática revelan el trasfondo de la filosofía política y de la historia que recorre el siglo XX y se adentra en el actual por lo que ese pensamiento merece ser revisitado cuando el cambio de paradigma civilizacional se nos muestra inequívoco y abordar la problemática que se abre ante nosotros es ya un imperativo
