# Pathfinder John Charles Fremont And The Course Of American Empire

**Michael L. Tate**

## **Pathfinder John Charles Fremont And The Course Of American Empire:**

**Pathfinder** Tom Chaffin, 2002 The author presents a comprehensive portrait of John Charles Fremont the nineteenth century explorer changed the American imagination permanently by mapping the American West traversed by Lewis and Clark 10 000 first printing

**Pathfinder** Tom Chaffin, 2004-05-12 But Fremont was more than an explorer Chaffin's narrative includes Fremont's varied experiences as an entrepreneur abolitionist Civil War general two time Republican presidential candidate husband to the extraordinary Jessie Benton Fremont and Gilded Age aristocrat Chaffin brings to life the personal and political experiences of a remarkable American whose saga offers insight into the conflicts tensions and contradictions at the core of America's lust for empire and its conquest of the Trans Missouri West BOOK JACKET

**Pathfinder** TOM. CHAFFIN, 2004 **The Age of Jackson and the Art of American Power, 1815-1848** William R. Nester, 2013 As William Nester asserts in *The Age of Jackson* it takes quite a leader to personify an age A political titan for thirty three years 1815 1848 Andrew Jackson possessed character beliefs and acts that dominated American politics Although Jackson returned to his Tennessee plantation in March 1837 after serving eight years as president he continued to overshadow American politics Two of his proteges Martin the Magician van Buren and James Young Hickory Polk followed him to the White House and pursued his agenda Jackson provoked firestorms of political passions throughout his era Far more people loved than hated him but the fervor was just as pitched either way Although the passions have subsided the debate lingers Historians are split over Jackson's legacy Some extol him as among America's greatest presidents citing his championing of the common man holding the country together during the nullification crisis and eliminating the national debt Others excoriate him as a mean spirited despot who shredded the Constitution and damaged the nation's development by destroying the Second Bank of the United States defying the Supreme Court and grossly worsening political corruption through his spoils system Still others condemn his forcibly expelling more than forty thousand Native Americans from their homes and along the Trail of Tears which led far west of the Mississippi River with thousands perishing along the way In his clear eyed assessment of one of the most divisive leaders in American history Nester provides new insight into the age old debate about the very nature of power itself

**The F Street Mess** Alice Elizabeth Malavasic, 2017-09-26 Pushing back against the idea that the Slave Power conspiracy was merely an ideological construction Alice Elizabeth Malavasic argues that some southern politicians in the 1850s did indeed hold an inordinate amount of power in the antebellum Congress and used it to foster the interests of slavery Malavasic focuses her argument on Senators David Rice Atchison of Missouri Andrew Pickens Butler of South Carolina and Robert M T Hunter and James Murray Mason of Virginia known by their contemporaries as the F Street Mess for the location of the house they shared Unlike the earlier and better known triumvirate of John C Calhoun Henry Clay and Daniel Webster the F Street Mess was a functioning oligarchy within the U S Senate whose power was based on shared ideology institutional seniority and personal friendship By centering on their most significant

achievement forcing a rewrite of the Nebraska bill that repealed the restriction against slavery above the 36 30 parallel Malavasic demonstrates how the F Street Mess s mastery of the legislative process led to one of the most destructive pieces of legislation in United States history and helped pave the way to secession      Senator Benton and the People Ken Mueller,2014-05-15 Senator Thomas Hart Benton was a towering figure in Missouri politics Elected in 1821 he was their first senator and served in Washington DC for more than thirty years Like Andrew Jackson with whom he had a long and complicated relationship Benton came out of the developing western section of the young American Republic The foremost Democratic leader in the Senate he claimed to represent the rights of the common man against monied interests of the East Benton and the people the Missourian was fond of saying are one and the same a bit of bombast that reveals a good deal about this seasoned politician who was himself a mass of contradictions He possessed an enormous ego and a touchy sense of personal honor that led to violent results on several occasions Yet this conflation of the people and their tribune raises questions not addressed in earlier biographies of Benton Mueller provides a fascinating portrait of Senator Benton His political character while viewed as flawed by contemporary standards is balanced by his unconditional devotion to his particular vision Mueller evaluates Benton s career in light of his attitudes toward slavery Indian removal and the Mexican borderlands among other topics and reveals Benton s importance to a new generation of readers He offers a more authentic portrait of the man than has heretofore been presented by either his detractors or his admirers      The Transcontinental Railroad Michael V. Uschan,2009-05-11 This colorful and easy to read volume presents background of the Transcontinental railroad including the increasing demand for land and the partnership between government and wealthy individuals It tells the tale of how more than 1 700 miles of track were built through mountains and deserts by using mere shovels and picks The book explains the impact of the railroad on the nation s settlement and how Native Americans lost their land to white homesteaders Readers will learn about the technical challenges and huge scale of the task overcome by the hard labor of thousands of workers to connect the nation across itself      **Wires That Bind** Torsten Kathke,2017-07-15 The arrival of telegraphy and railroads changed power relations throughout the world in the nineteenth century In the Mesilla region of the American Southwest it contributed to two distinct and rapid shifts in political and economic power from the 1850s to the 1920s Torsten Kathke illustrates how the changes these technologies wrought everywhere could be seen at a much accelerated pace here A local Hispano elite was replaced first by a Hispano Anglo one and finally a nationally oriented Anglo elite As various groups tried to gain hold and defend power the region became bound ever closer to the US economy and to the federal government      **Imperialism and Expansionism in American History** Chris J. Magoc,David Bernstein,2015-12-14 This four volume encyclopedia chronicles the historical roots of the United States current military dominance documenting its growth from continental expansionism to hemispheric hegemony to global empire This groundbreaking four volume encyclopedia offers sweeping coverage of a subject central to American history and of urgent

importance today as the nation wrestles with a global imperial posture and the long term viability of the largest military establishment in human history The work features more than 650 entries encompassing the full scope of American expansionism and imperialism from the colonial era through the 21st century War on Terror Readers will learn about U S Native American conflicts 19th century land laws early forays overseas for example the opening of Japan and America s imperial conflicts in Cuba and the Philippines U S interests in Latin America are explored as are the often forgotten ambitions that lay behind the nation s involvement in the World Wars The work also offers extensive coverage of the Cold War and today s ongoing conflicts in Iraq Afghanistan Africa and the Middle East as they relate to U S national interests Notable individuals including American statesmen military commanders influential public figures and anti imperialists are covered as well The inclusion of cultural elements of American expansionism and imperialism for example Hollywood films and protest music helps distinguish this set from other more limited works      *Encyclopedia of Politics of the American West* Steven L. Danver,2013-04-25 The Encyclopedia of Politics in the American West is an A to Z reference work on the political development of one of America s most politically distinct not to mention its fastest growing region This work will cover not only the significant events and actors of Western politics but also deal with key institutional historical environmental and sociopolitical themes and concepts that are important to more fully understanding the politics of the West over the last century      All the Powers of Earth Sidney Blumenthal,2019-09-03 Lincoln s incredible ascent to power in a world of chaos is newly revealed in this compelling original and elegantly written Michael Beschloss New York Times bestselling author third volume of the magisterial The New York Times Book Review Political Life of Abraham Lincoln series following A Self Made Man and Wrestling with His Angel After a period of depression that he would ever find his way to greatness Lincoln takes on the most powerful demagogue in the country Stephen Douglas in the debates for a senate seat He sidelines the frontrunner William Seward a former governor and senator for New York to cinch the new Republican Party s nomination All the Powers of Earth is the political story of all time Lincoln achieves the presidency by force of strategy of political savvy and determination This is Abraham Lincoln who indisputably becomes the greatest president and moral leader in the nation s history But he must first build a new political party brilliantly state the anti slavery case and overcome shattering defeat to win the presidency In the years of civil war to follow he will show mightily that the nation was right to bet on him He was its preserver a politician of moral integrity All the Powers of Earth is as essential as any political biography is likely to be and Sidney Blumenthal is the definitive chronicler of Lincoln s political career Kirkus Reviews starred review      **Freedom National: The Destruction of Slavery in the United States, 1861-1865** James Oakes,2013 Traces the history of emancipation and its impact on the Civil War discussing how Lincoln and the Republicans fought primarily for freeing slaves throughout the war not just as a secondary objective in an effort to restore the country OCLC      **The Great Medicine Road, Part 1** Michael L. Tate,2014-10-22 Between 1841 and 1866 more than 500 000 people followed trails to Oregon

California and the Salt Lake Valley in one of the greatest mass migrations in American history This collection of travelers accounts of their journeys in the 1840s the first volume in a new series of trail narratives comprises excerpts from pioneer and missionary letters diaries journals and memoirs many previously unpublished accompanied by biographical information and historical background Beginning with Father Pierre Jean de Smet s letters relating his encounters with Plains Indians and ending with an account of a Mormon gold miner s journey from California to Salt Lake City these narratives tell varied and vivid stories Some travelers fled hard times religious persecution the collapse of the agricultural economy illness or unpredictable weather Others looked ahead attracted by California gold the verdant Willamette Valley of Oregon or the prospect of converting Native people to Christianity Although many welcomed the adventure and adjusted to the rigors of trail life others complained in their accounts of difficulty adapting Remembrances of the Oregon California and Mormon Trails have yielded some of the most iconic images in American history This and forthcoming volumes in The Great Medicine Road series present the pioneer spirit of the original overlanders supported by the rich scholarship of the past century and a half

**A Machine to Move Ocean and Earth** James Tejani, 2024-07-23 Winner of the 2025 Bancroft Prize An enthralling debut a beguiling history of Southern California early industrial development and U S empire Publishers Weekly starred review A deeply researched narrative of the creation of the Port of Los Angeles a central event in America s territorial expansion and rise as a global economic power The Port of Los Angeles is all around us Objects we use on a daily basis pass through it furniture apparel electronics automobiles and much more The busiest container port in the Western hemisphere it claims one sixth of all US ocean shipping Yet despite its centrality to our world the port and the story of its making have been neglected in histories of the United States In *A Machine to Move Ocean and Earth* historian James Tejani corrects that significant omission charting the port s rise out of the mud and salt marsh of San Pedro estuary and showing how the story of the port is the story of modern globalized America itself By the mid nineteenth century Americans had identified the West Coast as the republic s destiny a gateway to the riches of the Pacific In a narrative spanning decades and stretching to Washington DC the Pacific Northwest Civil War Richmond Southwest deserts and even overseas to Europe Hawaii and Asia Tejani demonstrates how San Pedro came to be seen as all important to the nation s future It was not virgin land but dominated by powerful Mexican estates that would not be dislodged easily Yet American scientists including the great surveyor George Davidson imperialist politicians such as Jefferson Davis and William Gwin and hopeful land speculators among them the future Union Army general Edward Ord would wrest control of the estuary and set the scene for the violence inequality and engineering marvels to come San Pedro was no place for a harbor Tejani reveals The port was carved in defiance of nature using new engineering techniques and massive mechanical dredgers Business titans such as Collis Huntington and Edward H Harriman brought their money and corporate influence to the task But they were outmatched by government reformers laying the foundations for the port for the modern city of Los Angeles and for our globalized world

Interweaving the natural history of San Pedro into this all too human history Tejani vividly describes how a wild coast was made into the engine of American power A story of imperial dreams and personal ambition A Machine to Move Ocean and Earth is necessary reading for anyone who seeks to understand what the United States was what it is now and what it will be

**The Bohemians** Ben Tarnoff,2015-02-24 An extraordinary portrait of a fast changing America and the Western writers who gave voice to its emerging identity At once an intimate portrait of an unforgettable group of writers and a history of a cultural revolution in America The Bohemians reveals how a brief moment on the far western frontier changed our culture forever Beginning with Mark Twain s arrival in San Francisco in 1863 this group biography introduces readers to the other young eccentric writers seeking to create a new American voice at the country s edge literary golden boy Bret Harte struggling gay poet Charles Warren Stoddard and beautiful haunted Ina Coolbrith poet and protector of the group Ben Tarnoff s elegant atmospheric history reveals how these four pioneering writers helped spread the Bohemian movement throughout the world transforming American literature along the way Tarnoff s book sings with the humor and expansiveness of his subjects prose capturing the intoxicating atmosphere of possibility that defined for a time America s frontier The New Yorker Rich hauls of historical research deeply excavated but lightly borne Mr Tarnoff s ultimate thesis is a strong one strongly expressed that together these writers helped pry American literature away from its provincial origins in New England and push it into a broader current Wall Street Journal

#### **Civil War Biographies from the Western Waters**

Myron J. Smith, Jr.,2015-02-20 From 1861 to 1865 the Civil War raged along the great rivers of the Ohio and Mississippi valleys While various Civil War biographies exist none have been devoted exclusively to participants in the Western river war as waged down the Mississippi to the mouth of the Red River and up the Ohio the Tennessee and the Cumberland Based on the Official Records county histories newspapers and internet sources this is the first work to profile personnel involved in the fighting on these great streams Included in this biographical encyclopedia are Union and Confederate naval officers down to the rank of mate enlisted sailors who won the Medal of Honor or otherwise distinguished themselves or who wrote accounts of life on the gunboats army officers and leaders who played a direct role in combat along Western waters political officials who influenced river operations civilian steamboat captains and pilots who participated in wartime logistics and civilian contractors directly involved including shipbuilders dam builders naval constructors and munitions experts Each of the biographies includes where known birth death and residence data unit organization or ship involvement in the river war pre and post war careers and source documentation Hundreds of individuals are given their first historic recognition

**American Amphibious Warfare** Gary J Ohls,2017-12-15 American Amphibious Warfare offers analysis of the early amphibious landing operations from the Revolutionary War to the Civil War Through a case study approach the operational and strategic significance of each action is analyzed and its impact on the development of the United States is assessed By focusing on seven major campaigns Gary J Ohls provides readers with a richer appreciation of the origins of American

amphibious warfare For many Americans the concept of amphibious warfare derives from the World War II model in which landing forces assaulted foreign shores and faced determined resistance These actions usually resulted in very high casualty rates yet they proved uniformly successful The circumstances of geography coupled with the weapons and equipment available at that time dictated this type of warfare During the eighteenth and nineteenth centuries no such equipment or weapons existed for assaulting defended beaches Commanders attempted to land their forces in areas where the resistance would be light or nonexistent The initiative and maneuverability inherent in naval forces permitted the delivery of combat power to the point of attack faster than the land based defenders could react Ohls explains how amphibious traditions began in this era and shows how they compare with modern amphibious forces particularly the tactics of today's U S Marine Corps The author makes a compelling case for a continuing tradition of American amphibious warfare learned and honed through a set of key battles and carried forward Further Ohls argues that the Marine Corps is the true inheritor of this warfare tradition formed in early America concluding that weapons and equipment coupled with new doctrine actually allow modern forces to return to the sort of amphibious tactics and operations practiced more than two centuries ago Both a work of history as well as an analysis of operational conflict this study should please readers looking for a clearer understanding of U S amphibious operations Since the concepts presented in this book continue to serve as excellent tools for both the professional officer and the analytical historian **American Amphibious Warfare** as a whole provides a much needed comprehensive history of naval and military warfare

**The California Gold Rush and the Coming of the Civil War** Leonard L. Richards, 2008-02-12 Award winning historian Leonard L Richards gives us an authoritative and revealing portrait of an overlooked harbinger of the terrible battle that was to come When gold was discovered at Sutter's Mill in 1848 Americans of all stripes saw the potential for both wealth and power Among the more calculating were Southern slave owners By making California a slave state they could increase the value of their slaves by 50 percent at least and maybe much more They could also gain additional influence in Congress and expand Southern economic clout abetted by a new transcontinental railroad that would run through the South Yet despite their machinations California entered the union as a free state Disillusioned Southerners would agitate for even more slave territory leading to the Kansas Nebraska Act and ultimately to the Civil War itself

**Knickerbocker Commodore** Bruce A. Castleman, 2016-05-12 Knickerbocker Commodore chronicles the life of Rear Admiral John Drake Sloat an important but understudied naval figure in US history Born and raised by a slave owning gentry family in New York's Hudson Valley Sloat moved to New York City at age nineteen Bruce A Castleman explores Sloat's forty five year career in the Navy from his initial appointment as midshipman in the conflicts with revolutionary France to his service as commodore during the country's war with Mexico As the commodore in command of the naval forces in the Pacific Sloat occupied Monterey and declared the annexation of California in July 1846 controversial actions criticized by some and defended by others More than a biography of one man this book illustrates the

evolution of the peacetime Navy as an institution and its conversion from sail to steam Using shipping news and Customs Service records from Sloat's merchant voyages Castleman offers a rare and insightful perspective on American maritime history

**States of Inquiry** Oz Frankel, 2006-07-21 In the mid nineteenth century American and British governments marched with great fanfare into the marketplace of knowledge and publishing British royal commissions of inquiry inspectorates and parliamentary committees conducted famous social inquiries into child labor poverty housing and factories The American federal government studied Indian tribes explored the West and investigated the condition of the South during and after the Civil War Performing printing and then circulating these studies government established an economy of exchange with its diverse constituencies In this medium which Frankel terms print statism not only tangible objects such as reports and books but knowledge itself changed hands As participants citizens assumed the standing of informants and readers Even as policy investigations and official reportage became a distinctive feature of the modern governing process buttressing the claim of the state to represent its populace government discovered an unintended consequence it could exercise only limited control over the process of inquiry the behavior of its emissaries as investigators or authors and the fate of official reports once issued and widely circulated This study contributes to current debates over knowledge print culture and the growth of the state as well as the nature and history of the public sphere It interweaves innovative theoretical discussions into meticulous historical analysis

## Whispering the Secrets of Language: An Emotional Journey through **Pathfinder John Charles Fremont And The Course Of American Empire**

In a digitally-driven earth wherever monitors reign great and quick conversation drowns out the subtleties of language, the profound techniques and mental subtleties concealed within words frequently go unheard. However, situated within the pages of **Pathfinder John Charles Fremont And The Course Of American Empire** a interesting fictional value blinking with organic feelings, lies an exceptional journey waiting to be undertaken. Published by an experienced wordsmith, that wonderful opus encourages visitors on an introspective journey, gently unraveling the veiled truths and profound affect resonating within ab muscles fabric of each word. Within the emotional depths of the moving evaluation, we shall embark upon a sincere exploration of the book is key subjects, dissect its interesting publishing design, and succumb to the effective resonance it evokes strong within the recesses of readers hearts.
