*Paths of Neighborhood Change* Richard P. Taub, D. Garth Taylor, John Dunham, Jan D. D. Dunham, 1987-09-01 [The Voucher Promise](#) Eva Rosen, 2022-05-24 A must read for anyone interested in solutions to America's housing crisis Matthew Desmond Pulitzer Prize winning author of *Evicted* Poverty and Profit in the American City An in depth look at America's largest rental assistance program and how it shapes the lives of residents in one low income Baltimore neighborhood Housing vouchers are a cornerstone of US federal housing policy offering aid to more than two million households Vouchers are meant to provide the poor with increased choice in the private rental marketplace enabling access to safe neighborhoods with good schools and higher paying jobs But do they The Voucher Promise examines the Housing Choice Voucher Program colloquially known as Section 8 and how it shapes the lives of families living in a Baltimore neighborhood called Park Heights Eva Rosen tells stories about the daily lives of homeowners voucher holders renters who receive no housing assistance and the landlords who provide housing While vouchers are a powerful tool with great promise she demonstrates how the housing policy can replicate the very inequalities it has the power to solve Rosen spent more than a year living in Park Heights sitting on front stoops getting to know families accompanying them on housing searches speaking to landlords and learning about the neighborhood's history Voucher holders disproportionately end up in this area despite rampant unemployment drugs crime and abandoned housing Exploring why they are unable to relocate to other neighborhoods Rosen illustrates the challenges in obtaining vouchers and the difficulties faced by recipients in using them when and where they want to Yet despite the program's real shortcomings she argues that vouchers offer basic stability for families and should remain integral to solutions for the nation's housing crisis Delving into the connections between safe affordable housing and social mobility The Voucher Promise investigates the profound benefits and formidable obstacles involved in housing America's poor

**Neighborhoods and Health** Ichiro Kawachi, Lisa F. Berkman, 2003-03-20 Do places make a difference to people's health and well being The authors of this groundbreaking textbook demonstrate convincingly how the physical and social characteristics of a neighborhood can shape the health of its residents Drawing on the expertise of a renowned cast of researchers this book presents a state of the art account of the theories methods and empirical evidence linking neighborhood conditions to population health Represented in the volume are contributions from the world's leading investigators in the field including social epidemiologists demographers medical geographers sociologists and medical practitioners This comprehensive textbook lays out for the first time the methodological approaches to conducting neighborhood research including multi level and contextual analysis geocoding and the use of small area based measures of deprivation as well as the evolving science of ecometrics Substantive chapters present the case for the relevance of neighborhood effects on health outcomes throughout the life cycle from infant mortality and low birthweight to childhood asthma adult infectious diseases and disability in old age The approaches covered in the book range from testing the linkages

between community level variables such as social capital and residential segregation and population health to designing and implementing community interventions and policies to improve the health of the public The book is a timely companion volume to *Social Epidemiology* Oxford University Press 2000 edited by the same authors and an indispensable manual on neighborhood research for students researchers and practitioners

**Villa Victoria** Mario Luis Small, 2009-05-08 For decades now scholars and politicians alike have argued that the concentration of poverty in city housing projects would produce distrust alienation apathy and social isolation the disappearance of what sociologists call social capital But relatively few have examined precisely how such poverty affects social capital or have considered for what reasons living in a poor neighborhood results in such undesirable effects This book examines a neglected Puerto Rican enclave in Boston to consider the pros and cons of social scientific thinking about the true nature of ghettos in America Mario Luis Small dismantles the theory that poor urban neighborhoods are inevitably deprived of social capital He shows that the conditions specified in this theory are vaguely defined and variable among poor communities According to Small structural conditions such as unemployment or a failed system of familial relations must be acknowledged as affecting the urban poor but individual motivations and the importance of timing must be considered as well Brimming with fresh theoretical insights *Villa Victoria* is an elegant work of sociology that will be essential to students of urban poverty

**Neighborhood Effects on Crime and Youth Violence**, 2009 Business improvement districts BIDs collect assessments and invest in local service provisions and activities such as place promotion street cleaning and public safety Such activities can help reduce crime and youth violence by increasing informal social control reducing signs of disorder and blight improving order maintenance and enriching job opportunities This report examines BIDs impact on crime and youth violence in Los Angeles

*Understanding and Preventing Violence, Volume 3* National Research Council, Division of Behavioral and Social Sciences and Education, Commission on Behavioral and Social Sciences and Education, Panel on the Understanding and Control of Violent Behavior, 1994-02-01 This volume examines social influences on violent events and violent behavior particularly concentrating on how the risks of violent criminal offending and victimization are influenced by communities social situations and individuals the role of spouses and intimates the differences in violence levels between males and females and the roles of psychoactive substances in violent events

**Urban Exodus** Gerald Gamm, 2001-03-16 Across the country white ethnics have fled cities for suburbs But many have stayed in their old neighborhoods When the busing crisis erupted in Boston in the 1970s Catholics were in the forefront of resistance Jews 70 000 of whom had lived in Roxbury and Dorchester in the early 1950s were invisible during the crisis They were silent because they departed the city more quickly and more thoroughly than Boston's Catholics Only scattered Jews remained in Dorchester and Roxbury by the mid 1970s In telling the story of why the Jews left and the Catholics stayed Gerald Gamm places neighborhood institutions churches synagogues community centers schools at its center He challenges the long held assumption that bankers and real estate agents were responsible for

the rapid Jewish exodus Rather according to Gamm basic institutional rules explain the strength of Catholic attachments to neighborhood and the weakness of Jewish attachments Because they are rooted territorially defined and hierarchical parishes have frustrated the urban exodus of Catholic families And because their survival was predicated on their portability and autonomy Jewish institutions exacerbated the Jewish exodus Gamm shows that the dramatic transformation of urban neighborhoods began not in the 1950s or 1960s but in the 1920s Not since Anthony Lukas's *Common Ground* has there been a book that so brilliantly explores not just Boston's dilemma but the roots of the American urban crisis *Visions of Place* Zane L. Miller, 2001 These structural shifts involved a variety of familiar nineteenth and twentieth century urban phenomena including not only the switch from suburban village to city neighborhood and the salience of interracial fears but also the rise of formal city planning and conflicts among Protestants Catholics and Jews over the future of Clifton's religious and ethnic ambiance

**Gangs** Jacqueline Schneider, 2017-11-30 The task of researching gangs is fraught with difficulties central to which are issues of definition and reliance on certain forms of data for analyses These methodological issues have been acknowledged as limitations in most of the existing research but they have not been explored as being potentially serious flaws contributing to the proliferation of myth or as aggravating factors that exacerbate what is essentially a relatively uncomplicated social process Also unclear from existing studies is the extent to which suppositions about gangs feed moral panics or contribute to the misidentification or over specification of a problem This captivating volume focuses on gangs their formation identity and behaviour with a view to developing a preventive strategy

**The Oxford Handbook of Environmental Criminology** Gerben J.N. Bruinsma, Shane D. Johnson, 2018-02-08 The study of how the environment local geography and physical locations influence crime has a long history that stretches across many research traditions These include the neighborhood effects approach developed in the 1920s the criminology of place and a newer approach that attends to the perception of crime in communities Aided by new technologies and improved data reporting in recent decades research in environmental criminology has developed rapidly within each of these approaches Yet research in the subfield remains fragmented and competing theories are rarely examined together The Oxford Handbook of Environmental Criminology takes a unique approach and synthesizes the contributions of existing methods to better integrate the subfield as a whole Gerben J N Bruinsma and Shane D Johnson have assembled a cast of top scholars to provide an in depth source for understanding how and why physical setting can influence the emergence of crime affect the environment and impact individual or group behavior The contributors address how changes in the environment global connectivity and technology provide more criminal opportunities and new ways of committing old crimes They also explore how crimes committed in countries with distinct cultural practices like China and West Africa might lead to different spatial patterns of crime This is a state of the art compendium on environmental criminology that reflects the diverse research and theory developed across the western world

**Ethnicity Housing** Frederick W. Boal, 2020-09-29 This title was first published in 2000 This work has its

origins in the 1995 Congress of the International Federation for Housing and Planning held in Belfast The theme was Accommodating Differences Differences were defined in broad terms and included ethnic and social economic and political differences However Frederick W Boal s own interest in ethnic differences motivated him to invite a number of Congress participants to make available their papers for inclusion in this book of essays It seeks to offer experience that can be drawn on by housing practitioners who are operating in multi ethnic contexts It also provides empirical material that should contribute to the development of more soundly based theoretical insights in both urban sociology and social geography

Participation and Democracy East and West Dietrich Rueschemeyer, 2015-05-11 Since Alexis de Tocqueville first made the linkage in his writings on America a healthy democracy has been associated with the flourishing of civil society as measured by popular participation in voluntary and civic activities and the vitality of organizations that mediate between the individual and the state This volume takes a fresh look at this classic theme in the context of post communist Eastern Europe the West European welfare states and the United States asking what patterns of participation characterize the new democracies of Eastern Europe what levels of civic activism are characteristic of contemporary Western democracies what factors account for differences among countries and changing patterns over time and what do findings suggest about the prospects for democracy in the 21st century

**Causes of Conduct Disorder and Juvenile Delinquency** Benjamin B. Lahey, Terrie E. Moffitt, Avshalom Caspi, 2003-05-22 A great deal has been learned about serious child and adolescent conduct problems but their causes are still not well understood This book brings together an international group of leading authorities to advance specific testable hypotheses about the causes of conduct disorder and juvenile delinquency Four general causal models are delineated the social learning model the developmental pathways model an integrative antisocial propensity model and an integrative ecological developmental model Also provided are models focusing on specific aspects of the origins of conduct problems including contextual psychological and biological influences The authors present significant original theoretical work and map out the kinds of further studies

needed to confirm or disconfirm their new or revised hypotheses      *Metropolis 2000* Thomas Angotti, 2018-05-30 Originally published in 1993 *Metropolis 2000* analyses 20th century metropolitan development and planning under the economic and environmental conditions of the world's regions Attempts to achieve the physical integration of the city without economic equality have failed The book advances the principle of integrated diversity which emphasises linking neighbourhood planning with a broader vision of the planned metropolis and applies a political economy approach and argues for a new form of pro urban thinking The book argues that the basis for a humane approach to city planning is viewing the metropolis as a beneficial accompaniment to national independence equality and social progress      **Us Versus Them** Jan Doering, 2020 Crime and gentrification are hot button issues that easily polarize racially diverse neighborhoods How do residents activists and politicians navigate the thorny politics of race as they fight crime or resist gentrification And do conflicts over competing visions of neighborhood change necessarily divide activists into racially homogeneous camps or can they produce more complex alliances and divisions In *Us versus Them* Jan Doering answers these questions through an in depth study of two Chicago neighborhoods Drawing on three and a half years of ethnographic fieldwork Doering examines how activists and community leaders clashed and collaborated as they launched new initiatives built coalitions appeased critics and discredited opponents At the heart of these political maneuvers he uncovers a ceaseless battle over racial meanings that unfolded as residents strove to make local initiatives and urban change appear racially benign or malignant A thoughtful and clear eyed contribution to the field *Us versus Them* reveals the deep impact that competing racial meanings have on the fabric of community and the direction of neighborhood change      **Cityscape**, 1998      **Community Economic Development in Social Work** Steven D. Soifer, Joseph B. McNeely, Cathy Costa, Nancy Pickering-Bernheim, 2014-11-18 Community economic development CED is an increasingly essential factor in the revitalization of low to moderate income communities This cutting edge text explores the intersection of CED and social work practice which both focus on the well being of indigent communities and the empowerment of individuals and the communities in which they live This unique textbook emphasizes a holistic approach to community building that combines business and real estate development with a focus on stimulating family self reliance and community empowerment The result is an innovative approach to rehabilitating communities in decline while preserving resident demographics The authors delve deep into the social political human and financial capital involved in effecting change and how race and regional issues can complicate approaches and outcomes Throughout they integrate case examples to illustrate their strategies and conclude with a consideration of the critical role social workers can play in developing CED's next phase      **Story and Sustainability** Barbara Eckstein, James A. Throgmorton, 2003-05-23 *Story and Sustainability* explores the role of story in planning theory and practice with the goal of creating U S cities able to balance competing claims for economic growth environmental health and social justice In the book urban practitioners and scholars from fields as diverse as American studies English geography history planning and criminal justice reflect critically

on the traditional exclusionary power of storytelling and on its potential to facilitate the transformations of imagination theory and practice necessary to create sustainable democratic American cities The book begins with an editors introduction identifying story sustainable U S cities and democracy as the three key themes Part I advances and refines these concepts connects them to contemporary U S urban planning and provides tools that can be used when reading and interpreting the texts in part II Part II exemplifies amplifies and modifies the key themes and arguments through the presentation of eight texts theoretical and experiential academic and nonacademic expository and narrative and familiar and unfamiliar The combined focus on story and urban sustainability makes this book a unique contribution to planning literature
