Chronic Kidney Disease - Novel Insights into Pathophysiology and Treatment Giovanni Palleschi, Valeria Rossi, 2024-07-03 In clinical practice all physicians have to deal with patients suffering from chronic kidney disease Large numbers of these patients suffer from mild conditions but nevertheless they deserve special attention because inappropriate management may accelerate kidney function deterioration On the other side patients affected by end stage renal disease require replacement therapies and often represent a challenge for clinicians due to their complex pathophysiology Therefore an adequate knowledge of the most important clinical and therapeutic aspects of renal failure is an essential requirement for every doctor especially if we consider the increasing incidence and prevalence of this condition The book summarises the most important etiopathogenetic and pathophysiologic aspects of chronic kidney disease and focuses the attention on important emerging topics nutritional and dietary management renoprotective interventions new evidence about pathophysiological mechanisms provided by base research innovations in pharmacological treatment and strategies to improve patient s quality of life Data are reported in clear and concise language supported by graphics tables and pictures that facilitate the comprehension of all the arguments

Psychosocial Aspects of End-stage Renal Disease Mark Hardy, 1991 This thoughtful new book presents strategies for helping end stage renal disease patients and their families deal with the psychosocial aspects of the chronic long term illness Technological advances in the treatment of this disease have offered much hope for improved quality in living which has led caregivers to have a greater concern for preserving the quality of life of their patients In Psychosocial Aspects of End Stage Renal Disease leaders in the field of many disciplines share knowledge and reveal problems that are still evident to them in the confrontation with this potentially fatal illness Five comprehensive sections devote special attention to the different areas of concern for the psychosocial well being of end stage renal disease patients The impact of renal disease on family relationships is covered by examining issues of family responses and coping measures such as marital

and family reactions to home and hospital dialysis treatment Ethical issues in treatment are explored including the ethics of treatment refusal and a Jewish perspective on kidney transplants Relations between staff and patients and a timely section on renal disease and special populations particularly the elderly and AIDS patients make up the final two sections of this informative volume Professionals in all allied health disciplines will benefit from this important volume as it demonstrates a model approach if not the definitive one for the treatment of the psychosocial aspects of end stage renal disease as well as other chronic illnesses

An Assessment Study of the Effect of Cost and Dose on the Hemodialysis Treatment in Colombia Victor H. Nunez,1999-10 Scope of Study This dissertation investigates the effect of cost and dose on the hemodialysis treatment modality This modality of dialysis is an alternative to renal transplantation for people diagnosed with end stage renal disease The mortality rate is used as a quality indicator of the hemodialysis treatment by assessing the quality of service in Colombia and comparing it with the quality of service in the United States Findings and Conclusions The hypothesis testing used in this research shows that there is a significant difference between the delivered dose of hemodialysis in Colombia and the United States The mortality rate for patients in hemodialysis in Colombia for a comparable age group 45 64 is higher than that of the United States This is attributed in great part to the effect of the hemodialysis dose on the treatment A simple linear regression shows a strong negative relationship between mortality rate and dose Cost also has an impact on the quality of service of the hemodialysis therapy Nevertheless a direct relationship between cost and mortality rate could not be established Factors such as patient s vascular access and dialyzer flow rates are not evaluated in this investigation
