Health and Medical Service in American Prisons and Reformatories Frank Leslie Rector,1929

American Psychosis E. Fuller Torrey,2013-07-25 In 1963 President John F Kennedy delivered an historic speech on mental illness and retardation He described sweeping new programs to replace the shabby treatment of the many millions of the mentally disabled in custodial institutions with treatment in community mental health centers This movement later referred to as deinstitutionalization continues to impact mental health care Though he never publicly acknowledged it the program was a tribute to Kennedy s sister Rosemary who was born mildly retarded and developed a

schizophrenia like illness Terrified she d become pregnant Joseph Kennedy arranged for his daughter to receive a lobotomy which was a disaster and left her severely retarded Fifty years after Kennedy s speech E Fuller Torrey s book provides an inside perspective on the birth of the federal mental health program On staff at the National Institute of Mental Health when the program was being developed and implemented Torrey draws on his own first hand account of the creation and launch of the program extensive research one on one interviews with people involved and recently unearthed audiotapes of interviews with major figures involved in the legislation As such this book provides historical material previously unavailable to the public Torrey examines the Kennedys involvement in the policy the role of major players the responsibility of the state versus the federal government in caring for the mentally ill the political maneuverings required to pass the legislation and how closing institutions resulted not in better care as was the aim but in underfunded programs neglect and higher rates of community violence Many now wonder why public mental illness services are so ineffective At least one third of the homeless are seriously mentally ill jails and prisons are grossly overcrowded largely because the seriously mentally ill constitute 20 percent of prisoners and public facilities are overrun by untreated individuals As Torrey argues it is imperative to understand how we got here in order to move forward towards providing better care for the most vulnerable *The Encyclopedia of American Prisons* Carl Sifakis,2014-06-30 Examines the history of prisons in the United States with articles about convict labor escapes famous and infamous wardens fires notable prisoners riots prison society reformers terminology and more

The Care of the Uninsured in America Nancy J. Johnson,Lane P. Johnson,2009-10-27 As Dr Cullen s chapter on information technology points out what is required is not just a new electronic system that follows the patients but a new language that creates and defines a system that can appropriately care for the patient What we design for the complexities of caring for the medically underserved can serve as model for caring for everyone in this country Many innovative bold and wonderful solutions have been developed as local regional models As communities and states we can learn from and support each other But the local models are not by and large self sustaining Ultimately so tions to the lack of medical insurance in this country will require a national persp tive and federal funding That is part of the work we all must do and Dr Dalen s chapter points out some of the possibilities and pitfalls other countries have experienced When I wonder how the system we have hasn t already collapsed from its own weight I just need to look at the people working within it Healthcare is a service industry and we have been blessed with professionals who understand and live the concept of service in their daily lives who go the extra mile for the patient despite the vagaries the barriers and the sometimes mean spiritedness of the organi tional infrastructure Mental Health Care Issues in America Michael Shally-Jensen,2013-01-07 This two volume encyclopedia examines the social cultural and political dimensions of mental illness in America Americans are becoming more cognizant of the importance of mental wellness as incidents of bullying random shootings and eating disorders pervade our society This comprehensive resource provides an expansive overview of mental health and illness in the United States analyzing the

American Prisons David Musick, Kristine Gunsaulus-Musick, 2017-05-18 Imprisonment has become big business in the United States Using a history of ideas approach this book examines the cultural underpinnings of prisons in the United States and explores how shared ideas about imprisonment evolve into a complex loosely connected nationwide system of prisons that keeps enough persons to populate a small nation behind bars razor wire and electrified fences Tracing both the history of the prison and the very idea of imprisonment in the United States this book provides students with a critical overview of American prisons and considers their past their present and directions for the future Topics covered include a history of imprisonment in America from 1600 to the present day the twentieth century prison building binge the relationship between U S prisons and the private sector a critical account of capital punishment less visible prison minorities including women children and the elderly and sex violence and disease in prison This comprehensive book is essential reading for advanced courses on corrections and correctional management and offers a compelling and provocative analysis of the realities of American penal culture from past to present It is perfect reading for students of criminal justice corrections penology and the sociology of punishment

The Chronic Psychiatric Patient in the Community R.D. Budson, I. Barofsky, 2012-12-06 The purpose of this book is to present an integrated approach to the treatment of the chronic psychiatric patient living in the community This requires that topics as diverse as pharmacokinetics psychotherapy and community organization be appropriately coordinated Such an approach is partly complicated by the wide range of differences among patients in terms of social skills intellectual capacity and psychiatric diagnosis In addition unclear insular or overlapping roles of various mental health disciplines further confound integrated treatment efforts Given such complexity any single clinician's point of view is subject to the distortion inherent in specialization Too often a volume in the field of mental health focuses either on only one aspect or presents only one clinician's unique perspective of a task that is in fact multifaceted We have tried to avoid this pitfall by having representatives from many of the concerned professions present a variety of treatment approaches and associated issues in one text Further the editors have attempted to illuminate the relevant clinical and or administrative interrelationship between the subjects of each section through a succinct introductory commentary The book is divided into five sections The first section represents an attempt to address some of the interactive sociological psychological and pharmacological

Criminal Justice in America Carla Lewandowski, Jeff Bumgarner, 2020-11-17 This authoritative set provides a comprehensive overview of issues and trends in crime law enforcement courts and corrections that encompass the field of criminal justice studies in the United States This work offers a thorough introduction to the field of criminal justice including types of crime policing courts and sentencing landmark legal

decisions and local state and federal corrections systems and the key topics and issues within each of these important areas. It provides a complete overview and understanding of the many terms, jobs, procedures and issues surrounding this growing field of study. Another major focus of the work is to examine ethical questions related to policing and courts, trial procedures, law enforcement and corrections agencies and responsibilities and the complexion of criminal justice in the United States in the 21st century. Finally, this title emphasizes coverage of such politically charged topics as drug trafficking and substance abuse, immigration, environmental protection, government surveillance and civil rights, deadly force, mass incarceration, police militarization, organized crime, gangs, wrongful convictions, racial disparities in sentencing and privatization of the U.S. prison system.

Issues for Debate in American Public Policy CQ Researcher, 2016-05-24. This collection of non-partisan reports written by award-winning CQ Researcher journalists focuses on provocative current policy issues. As an annual publication that comes together just months before it goes to press, the volume is all new and as up-to-date as possible. And because it's CQ Researcher, the policy reports are expertly researched and written, showing all sides of an issue. Chapters follow a consistent organization: exploring three issue questions, then offering background, current context and a look ahead, and feature a pro-con debate box. All issues include a chronology, bibliography, photos, charts and figures. All selections are brand new and explore some of today's most significant American public policy issues, including the marijuana industry, air pollution and climate change, racial conflict, housing discrimination, campus sexual assault, transgender rights, reforming veterans' health care and immigrant detention.

Prisons and Punishment in America Michael O'Hear, 2018-09-14. Synthesizing recent scholarship in law and the social sciences on criminal sentencing and corrections, this book provides a thorough, balanced and accessible survey of the major policy issues in these fields of persistent public interest and political debate. After three decades of explosive growth, the American incarceration rate is impractically high. Drawing on leading research in law and the social sciences, this book covers a range of topics in sentencing and corrections in America in a manner that is accessible and engaging for general readers. Tackling high-level issues in the criminal justice system, it outlines the scale and causes of mass incarceration in the United States. To complement this, it details the roles and relative power of judges and prosecutors, the severity of punishment for drug offenders and white-collar offenders, the abuse of prisoners and the enforcement of prisoner rights and repeat offending by released prisoners. Readers will better understand the challenges that come with a high incarceration rate, such as the management of mental illness in the criminal justice system, the management of sex offenders and the impact of parental incarceration on children. Looking ahead, this timely resource also considers prospects for reducing current incarceration levels, the availability and effectiveness of alternatives to incarceration and the future of capital punishment.
