Patrol Field Problems And Solutions 847 Field Situations:

PATROL FIELD PROBLEMS AND SOLUTIONS Harry W. More, 2001-01-01 Patrol Field Problems and Solutions was developed as an operational manual for law enforcement officers working in the field. Because policies and regulations are always changing in police agencies, this guide offers timely solutions to problems and situations commonly encountered in the field. Criminal acts with which law enforcement officers must deal range from that of a serial killer or rapist to petty theft and vandalism by juveniles. This book offers case examples together with solutions to promote the best possible action by police. Topics include domestic violence situations, traffic violations, federal offenses, child abuse, sex offenses, hate and bias crimes, and substance abuse as it relates to criminal activity. There are guidelines for search and seizure procedures dealing with mentally impaired individuals, working with youthful offenders, and protocol for finding wanted and missing persons. Crime scene investigation is explained, as well as working in cooperation with other agencies. This book can be used as a training manual for new recruits and as a method for evaluating performance of officers already working in the field. *Criminal Justice*, 2000

Managing Crises Uriel Rosenthal, Arjen Boin, Louise Kloos Comfort, 2001. This textbook considers the phenomenon of crises from a new perspective, one that bridges the conventional social science view with the ever-changing nature of crises in modern society. The textbook is divided into five sections. The first section introduces the perspective taken in the textbook and offers an understanding of what crises mean. The second section discusses how crises develop and escalate. One chapter in this section offers case studies of a number of Los Angeles riots that have taken place since the 1960s, including the riot sparked by the verdict of the Rodney King trial. The third section provides discussions on the decision-making, leadership, and coordination that occur when responding to any particular crisis. Section four reviews the politicization of crisis, as well as the traumas that accompany any crisis. The fifth section details the unintended consequences of modernization and how this will shape crises of the future. **International Bibliography of Book Reviews of**
