Pattern For World Revolution:

Pattern for World Revolution Ypsilon (pseud.),1947 General staff in Moscow Professional revolutionaries Decline of world revolution the end of the Comintern Stalinism **Struggles in the State** George Armstrong Kelly,Clifford Waters Brown,1970 **Pattern for World Revolution** Ypsilon,1947 Pattern for World Revolution. [An Account of the Communist International from 1917.]. Ypsilon,1947 **Pattern for World Revolution** Ypsilon,1947 *Marriage and Modernization* Don S. Browning,2003-03-20 The processes of modernization and globalization promise more wealth and health for many people But they are also a threat to the stability and quality of marriage and family life This new book at once sobering and constructive looks at the impact of these processes on marriage and asks what Christianity in cooperation with other religions can do to strengthen married life today Among the deleterious effects of modernization and globalization on marriage are a worldwide drift of men away from the responsibility of parenthood and the tendency of mothers too readily to take on the task of childrearing alone After looking at recent research on these and other problems Don Browning suggests that the cure for modern marital disruption entails reforming and reconstructing the institution of marriage while also nurturing relevant forms of social support Yet the effort to initiate a world marriage revival requires a complex cultural work and Browning explores the key contributions that the religions of the world must make for such an effort to be successful **Jurisprudence For a Free Society** Harold D. Lasswell,Myres S. McDougal,2023-12-28 Patterns of Global Terrorism ,2001 **Patterns of Global Terrorism 2002** , Power and Society Harold D. Lasswell,2017-07-05 In *Power and Society* Harold D Lasswell collaborates with a brilliant young philosopher Abraham Kaplan to formulate basic theoretical concepts and hypotheses of political science providing a framework for further inquiry into the political process This is a classic book of political theory written by two of the most influential social scientists of the twentieth century The authors find their subject matter in interpersonal relations not abstract institutions or organizations and their analysis of power is related to human values They argue that revolution is a part of the political process and ideology has a role in political affairs The importance of class both as social fact and social symbol is reflected in their detailed analysis and emphasis on merit rather than rank skill rather than status as keystones of democratic rule The authors note that power is only one of the values and instruments manifested in interpersonal relations it cannot be understood in abstraction from other values Lasswell and Kaplan call for the replacement of power politics both in theory and in practice by a conception in which attention is focused on the human consequences of power as the major concern of both political thought and political action The basic discussions of core concepts in political science make *Power and Society* of continuing importance to scholars government officials and politicians Celebrating Christian Marriage Adrian Thatcher,2002-04-30 The interest in marriage and the future of marriage is urgent and increasing This collection of expert research analysis and discussion may be the most significant ever assembled on this subject There are contributions from different continents and cultures from Roman Catholic Protestant

Anglican and Orthodox traditions from theologians and many other professionals including historians social theorists sex therapists lawyers psychiatrists and demographers all in conversation with the idea of Christian marriage There are introductions to each topical section by Adrian Thatcher Marriage at the Start of the Millennium Beginning Marriage Love and Marriage The Marriage Relationship Children and Marriage Single Sex Marriage Ending Marriage Roman Catholic Perspectives Ending Marriage Anglican Perspectives *Legal Education and Public Policy* Harold D. Lasswell, 2017-07-05 In spite of a cascade of criticism launched against the social sciences they have brought a qualitative improvement in method and theory to the study of human beings and human relations In the process of developing now commonplace foundations of social research few individuals have exercised a greater role in justifying and enriching social scientific thought and practice than Harold D Lasswell Originally published in 1945 as *The Analysis of Political Behaviour* this extraordinary volume has been re titled *Legal Education and Public Policy* The selections acknowledge Lasswell s growing anxieties about a world of revolution violence and terror and the frailties of law in addressing such matters That he did so without recourse to vague and fatuous appeals to world law and world order is an indication of how close to empirical realities he remained Lasswell s essays fuse the legal and moral in the conduct of public policy This did not deter him from arguing the case for and ultimate benefits of democratic values as a ground for legal thought Lasswell singles out the interviewing technique of the psychiatrist what he calls the insight interview in many of these essays The Freudian world opened up the possibilities of analysis to political scientists who prior to Lasswell viewed neuroses in the leaders they studied but without normative points to measure their own biases Lasswell s essays serve as a landmark in accelerating rapid advance in social science research It allowed for the evolution of political behavior that has catapulted the field to a major dimension of political science studies in leadership and mass persuasion **The Analysis of Political Behaviour** Harold D. Lasswell, 2013-09-05 This is Volume III of eighteen in collection on Political Sociology Originally published in 1948 this is an empirical approach to the analysis of political behaviour The present volume contains a selection of Prof Lasswell s articles and papers on politics the science and the art of management written from the point of view of a man deeply intent on making Democracy a working institution It covers international political experiments and experiences of person to person relationships morals religion and quasi religious movements techniques of public opinion are scrutinized as well as the workings of the mind and the subconscious

Family Structure and Interaction Gary R. Lee, 1977 *Creativity in Social Revolutions* Bronislaw Czarnocha, 2025-08-23 This book offers a new perspective on the structure of contemporary social revolutions and wars It analyzes the actions of the participants and looks at possible solutions from the perspective of bisociativity The book elaborates on this concept originally formulated by Arthur Koestler which sees the underlying human creativity in finding a solution as a spontaneous leap of insight connecting previously unconnected matrices of discourse Drawing from Marxist theory the author discerns bisociative frames in contemporary revolutions such as the Bolivian revolution of 2000 2003 2005

or between different uprisings in Poland which led to the independent workers union solidarity One of the central aims of the book is the search for a bisociative frame that includes historical materialism as one of its two components It suggests that historical materialism is not a sufficient but necessary condition for understanding the complexity of contemporary struggles Discussions in different chapters point to the missing component of Marxist revolutionary theory individual self identity as the second component of the bisociative frame The author brings this analysis to the table from his background in mathematics education and teaching and points to how using mathematical generalization may help identify bisociative frames and therefore help find innovative solutions to conflicts This book offers an innovative theoretical framework for current problems from a Marxist perspective and is an interesting read for social scientists historians and anyone critically examining contemporary social revolutions or wars
