Pattern Of Collective Violence In A Provincial City:

Collective Violence in a Provincial City D. Parthasarathy, 1997 Drawing On A Vast Body Of Sociological Literature This Book Gives On Entirely New Focus To The Concept Of Collective Violence Education and Hegemony Nagaraju Gundemeda, 2014-10-02 Globalization is a multidimensional concept that encompasses the politico economic socio cultural and educational spheres of contemporary societies across time and space The ideological convictions and methodological subscriptions of social scientists guide the discourse on globalization to unravel the meanings and implications for institutions individuals and social groups in shaping and changing their everyday life experiences Globalization unleashed major lessons and has played a key role in shaping the educational systems of developing countries including India In this context this book 1 maps the multiple epistemological traditions to approach the conceptual formulations of the globalization of education 2 examines the socioeconomic context of the globalization of education in India 3 analyzes the local responses to processes associated with the knowledge discourse and 4 examines the relation between the globalization of education and its implications on the functioning of institutional structures such as caste class gender marriage in general and the education system in particular The book proposes various secondary readings and empirical observations of the global political and regional social economies that have in fact been guiding the Indian education system The institutional engagement with globalization needs to be located within the framework of social mobility either to extend or retain the social position of groups within the current social hierarchy This book proposes that the globalization of education not only hegemonizes the nature and direction of education but also hierarchizes the production and consumption of knowledge systems The hierarchical knowledge system tends to legitimize market driven education by simultaneously marginalizing the other multiple streams of knowledge systems The marginalisation of liberal knowledge creates a one dimensional pedagogy which tends to erase the tradition of critical reasoning which questions the oppressive elements of the state and suppressive values of the civil society **Explaining Collective Violence in Contemporary Indonesia** Z. Connected Histories of the Roman Civil Wars (88-30 BCE) David García Domínguez, Juan García González, Federico Santangelo, 2024-11-04 This book offers a distinctive take on the civil wars that unfolded in the Late Roman Republic It frames their discussion against the backdrop of the Mediterranean contexts in which they were fought and sets out to bring to the centre of the debate the significance of provincial agency on a traumatic

and complex process which cannot be understood through an exclusive focus on Roman and Italian developments The study of the late Republican civil wars can be productively read as an exercise of connected history in which the fundamental interdependence of the Mediterranean world comes to the fore through a set of case studies that await to be understood through a properly integrative approach Our project brings together an international and diverse lineup of scholars who engage with a wide range of literary documentary and archaeological material and make a collective contribution to the reframing of a problem that requires a collaborative and interdisciplinary outlook and can yield invaluable insights to the understanding of the Roman imperial project

meanwhile often experience regional insurgencies and even civil wars In Regimes and Repertoires Charles Tilly offers a fascinating and wide ranging case by case study of various types of government and the equally various styles of protests they foster Using examples drawn from many areas G8 summit and anti globalization protests Hindu activism in 1980s India nineteenth century English Chartists organizing on behalf of workers rights the revolutions of 1848 and civil wars in Angola Chechnya and Kosovo Tilly masterfully shows that such episodes of contentious politics unfold like loosely scripted theater Along the way Tilly also brings forth powerful tools to sort out the reasons why certain political regimes vary and change how the people living under them make claims on their government and what connections can be drawn between regime change and the character of contentious politics **Indian Review of Books** ,1997 Bibliography of Doctoral Dissertations
