Kellenberger, 2016-07-27 This book is a collection of papers presented and discussed at the 1992 Claremont Conference Its contributing authors come from various disciplines that share a concern with models and criteria for inter religious understanding including religious studies philosophy of religion theology comparative studies and feminist philosophy **Church Doctrine, Volume 1** Paul C. McGlasson, 2013-08-02 The present volume is the first in a five volume study of church doctrine The multivolume set will cover the major parts of church doctrine Canon God Creation Reconciliation and Redemption This first volume begins with an introduction on why doctrine matters which stresses the ecumenical global and above all biblical horizons of church doctrine as a primary expression of Christian witness The purpose of this volume is to begin a search for an alternative to the many theologies available on the religious left and the religious right Where doctrine is absent the church is held captive to ideology the same is as true among conservatives as it is among liberals The present work is an attempt to struggle toward the meaning of orthodoxy in church doctrine an orthodoxy that is never merely a given but which always has to be sought and found again and again in each new generation of the church Church doctrine is not a luxury but a necessity for the living community of faith by which its witness in word and deed is tested against the one true measure of Christ the risen Lord **The Doctrines of US Security Policy** Heiko Meiertöns, 2010-06-10 The practise of outlining principles for the conduct of US security policy in so called doctrines is a characteristic feature of US foreign policy From an international lawyer s point of view two aspects of these doctrines are of particular interest First to what degree are the criteria for the use of force as laid down in these doctrines consistent with the limitations for the use of force in international law Second which law creating effects do these doctrines have Furthermore the legal nature of these doctrines remains uncertain These matters are examined beginning with the Monroe Doctrine of 1823 and taking into account the Stimson Doctrine of 1932 the doctrines of the Cold War period and the Bush Doctrine of 2002 The Bush Doctrine in particular has generated controversies concerning its compatibility with Article 51 of the UN Charter due to its principle of preventive self defence **Oppositions of Religious Doctrines** William Armistead Christian, 1972-06-18 **The Formation of Christian Doctrine** Malcolm B. Yarnell, Malcolm B. Yarnell, III, 2007 The Formation of Christian Doctrine is an advanced academic study of how Christian doctrine develops distinguishing in particular between

Demarest, 2010-09-21 Integrative Theology is designed to help graduate students in a pluralistic world utilize a standard method of fruitful research Each chapter on a major doctrine 1 states a classic issue of ultimate concern 2 surveys alternative past and present answers and 3 tests those proposals by their congruence with information on the subject progressively revealed from Genesis to Revelation Then the chapter 4 formulates a doctrinal conclusion that consistently fits the many lines of biblical data 5 defends that conviction respectfully and finally 6 explores the conclusion's relevance to a person's spiritual birth growth and service to others all for the glory of God Why the title Integrative Theology In each chapter steps 2-6 integrate the disciplines of historical biblical systematic apologetic and practical theology      Federal Criminal Law Doctrines Kenneth M. Murchison, 1994 He identifies these federal doctrinal developments as an important but ignored legacy of prohibition and describes how these changes continue to effect contemporary law      **Doctrines of Faith and Morals for Jewish Schools and Families** Salomon Herxheimer, 1874      *Theology in Reconstruction* Thomas F. Torrance, 1996-12-19 A collection of fifteen essays addressing the basic intellectual challenges to the contemporary Christian church Professor Torrance deals with such topics as the centrality of Christology in scientific dogmatics the Reformed and Roman Catholic doctrines of grace theological education the relation of theological statements to scientific methodology the contemporary significance of some past theological giants and the nature and significance of the Holy Spirit and of the church      **A Series of Pamphlets on the Doctrines of the Gospel** Orson Pratt, 1899      **Text-book of the History of Doctrines** Reinhold Seeberg, 1905      Soviet Russia Today: Patterns and Prospects John L. Stipp, 1956      *Understanding Military Doctrine* Harald Hoiback, 2013-07-18 This book puts military doctrine into a wider perspective drawing on military history philosophy and political science Military doctrines are institutional beliefs about what works in war given the trauma of 9/11 and the ensuing War on Terror serious divergences over what the message of the new military doctrine ought to be were expected around the world However such questions are often drowned in ferocious meta doctrinal disagreements What is a doctrine after all This book provides a theoretical understanding of such questions Divided into three parts the author investigates the historical roots of military doctrine and explores its growth and expansion until the present day and goes on to analyse the main characteristics of a military doctrine Using a multidisciplinary approach the book concludes that doctrine can be utilized in three key ways as a tool of command as a tool of change and as a tool of education This book will be of much interest to students of military studies civil military relations strategic studies and war studies as well as to students in professional military education      **Human Significance in Theology and the Natural Sciences** Christopher L. Fisher, 2010-02-03 The medieval worldview that regarded human beings as at the center of God's plans for His universe has long been regarded as obsolete its synthesis of Christian theology and Greek philosophy having collapsed under the weight of Copernicus Galileo and Darwin The popular stereotype is that Science both in the Copernican revolution that dethroned the

earth centered view of the cosmos and in subsequent developments in evolutionary theory and general relativity has marginalized and trivialized human existence revealing humanity's place in the cosmos to be accidental peripheral and ultimately meaningless. However an investigation into both modern Christian theology and contemporary twenty first century Science reveals just the opposite providing solid evidence in the interdisciplinary dialogue concerning the significance of humanity within the universe. In this important study Christopher Fisher analyzes several modern theologians including Wolfhart Pannenberg, Karl Rahner and John Zizioulas to reveal how contemporary ecumenical theology is deeply and intrinsically committed to a high view of human cosmic significance as a consequence of Christianity's indelible Trinitarian and incarnational faith. Fisher then demonstrates how research in contemporary natural Science confirms this finding in its own way as recent primate intelligence studies, artificial intelligence research and even the quest for extra terrestrial intelligence reveal the wonder of human uniqueness. A contemporary version of the teleological argument also resurfaces in consideration of cosmic evolutionary perspectives on human existence. Even ecological concerns take on a new poignancy with the realization that among material creatures only human beings are capable of addressing the world's situation. This interdisciplinary study uncovers the surprising coherence and convergence of Christian Theology and Natural Science on the subject of human existence and significance here at the beginning of the twenty first century and it highlights the very unique role of humanity in global and cosmic history.

A Treatise of Legal Philosophy and General Jurisprudence Gerald J. Postema, 2011-08-05. Volume 11, the sixth of the historical volumes of *A Treatise of Legal Philosophy and General Jurisprudence* offers a fresh philosophically engaged critical interpretation of the main currents of jurisprudential thought in the English speaking world of the 20th century. It tells the tale of two lectures and their legacies: Oliver Wendell Holmes Jr's *The Path of Law* 1897 and H. L. A. Hart's *Holmes Lecture: Positivism and the Separation of Law and Morals* 1958. Holmes's radical challenge to late 19th century legal science gave birth to a rich variety of competing approaches to understanding law and legal reasoning: from realism to economic jurisprudence to legal pragmatism from recovery of key elements of common law jurisprudence and rule of law doctrine in the work of Llewellyn Fuller and Hayek to root and branch attacks on the ideology of law by the Critical Legal Studies and Feminist movements. Hart simultaneously building upon and transforming the foundations of Austinian analytic jurisprudence laid in the early 20th century introduced rigorous philosophical method to English speaking jurisprudence and offered a reinterpretation of legal positivism which set the agenda for analytic legal philosophy to the end of the century and beyond. A wide ranging debate over the role of moral principles in legal reasoning sparked by Dworkin's fundamental challenge to Hart's theory generated competing interpretations of and fundamental challenges to core doctrines of Hart's positivism including the nature and role of conventions at the foundations of law and the methodology of philosophical jurisprudence.

*Rhythm* Lexi Eikelboom, 2018-08-17 *Rhythm A Theological Category* argues that as a pervasive dimension of human existence with theological implications rhythm ought to be considered a category of theological significance Philosophers and theologians have drawn on the category of rhythm patterned movements of repetition and variation to describe reality however the ways in which rhythm is used and understood differ based on a variety of metaphysical commitments with varying theological implications Lexi Eikelboom brings those implications into the open through using resources from phenomenology prosody and the social sciences to analyse and evaluate uses of rhythm in metaphysical and theological accounts of reality The analysis relies on a distinction from prosody between a synchronic approach to rhythm which observes the whole at once and considers how various dimensions of a rhythm hold together harmoniously and a diachronic approach which focuses on the ways in which time unfolds as the subject experiences it Based on an engagement with the twentieth century Jesuit theologian Erich Przywara alongside thinkers as diverse as Augustine and the contemporary philosopher Giorgio Agamben Eikelboom proposes an approach to rhythm that serves the concerns of theological conversation It then demonstrates the difference that including rhythm in such theological conversation makes to how we think about questions such as what is creation and what is the nature of the God creature relationship from the perspective

of rhythm As a theoretical category capable of expressing metaphysical commitments yet shaped by the cultural rhythms in which those expressing such commitments are embedded rhythm is particularly significant for theology as a phenomenon through which culture and embodied experience influence doctrine
