**Contemporary Russia as a Feudal Society** V. Shlapentokh, Joshau Woods, 2007-11-26 The book offers a theoretical discussion of the feudal model and a preliminary application of the model to post Soviet Russia In addition to a review of the feudal model as an ideal type the author explains the analytical benefits of drawing comparisons between countries and across historical contexts Specifically contemporary Russia is compared to Western European countries during the Middle Ages and to the Soviet period in Russian history The book is devoted to illuminating the most important political social and economic characteristics of contemporary Russian society

*State and Civil Society in Northern Europe* Lars Trägårdh, 2007 In neo liberal political and economic climate it is suggested that a state stands in opposition to an autonomous civil society This book offers insights into the dynamics of state and civil society relations against trends of undermining the importance of the welfare state and presents autonomous civic participation as the only way forward

**Understanding Contemporary Society** Gary Browning, Gary K. Browning, Abigail Halcli, Frank Webster, 2000-02-11 This is a practical guide to the application of social theory in understanding the complex modern world A global perspective of the issues is provided by the contributors who cut through the confusion and upheavals in current thought and practice

*Modernist Patterns* M. the ubiquity of media consumption This book approaches the topic from historical ceremonial and globally cultural perspectives while addressing news sports and other significant current events It is a vital resource for students and teachers of communication media and journalism professionals in the media industry policy makers and sociologists *Readings in Contemporary Criminological Theory* Peter Cordella, Larry J. Johnston, 2015-12-03 Is there a growing gap in today's world between cultural aspirations and their fulfillment a gap that is increasing social problems of all kinds If so what forces are producing that gap How can these forces be changed To answer these questions Phillips and Johnston employ a very broad approach to the scientific method drawing evidence from a wide variety of data and sources including sociologists psychologists political scientists historians philosophers educators psychiatrists and novelists They find substantial evidence for a widening gap suggesting an invisible crisis throughout contemporary society They also find substantial evidence that a simplistic and static metaphysical stance or worldview is largely responsible for that gap and that an alternative worldview can work to close that gap The Neoliberal Pattern of Domination José Manuel Sánchez Bermúdez, 2012-06-21 At its current state of historical development capital finds its internal contradictions tending towards an irresolvable character as manifested in multiple crises Embodied in a fistful of gigantic transnational companies whose representatives seek consolidation as a global oligarchy capital continues to concentrate its economic political and military power as it produces a growing mass of redundant human beings promotes conflicts that result in misery chaos social degradation and death and destroys entire societies while razing the natural environment thereby putting humanity itself at risk The defense of life and the construction of renewed hope for a future require opposition to the domination of capital This book seeks to contribute to that effort by setting out an analysis of the mechanisms in which capital is based **Class and Conflict in an Industrial Society** Ralf Dahrendorf, 2022-01-12 Originally published in England in 1959 this book evolves a new theory of conflict in industrial society By way of illustrating and testing this theory the book provides

detailed analyses of various social phenomena The author carries out a full critique of Marx in the light of history and modern sociology and discusses the theories of class conflict of James Burnham Fritz Croner and Karl Renner Heritage Values in Contemporary Society George S Smith,Phyllis Mauch Messenger,Hilary A Soderland,2017-03-02 What do we value about the past In formulating policies about heritage preservation that is the inevitable question and deals not only with economic value but also the intangible value to individuals communities and society as a whole This interdisciplinary group of scholars anthropologists archaeologists architects educators lawyers heritage administrators policy analysts and consultants make the first attempt to define and assess heritage values on a local national and global level Chapters range from the theoretical to policy frameworks to case studies of heritage practice written by scholars from eight countries **Interpreting the Evolution of Atayal Tribal Textile Patterns** Po Hsun Wang,Jie Li,2025-07-02 This book elucidates findings from an anthropological study that analyzes the patterns of Taiwan s Atayal tribe s fabric in their ethnic dress codes By analyzing the changes and development of the patterns over time the authors draw fascinating conclusions regarding the geographical migration and intermarriage practices between indigenous minority groups in Taiwan s history The book brings new insights within East Asian linguistic anthropology in theorizing about the origins of legends and broader patterns of ethnic migration integrating the characteristics and relationships among Atayal fabrics and interpreting these relationships in connection with the flow of sub ethnic groups In doing so the book provides rich empirical evidence for anthropologists and migration scholars to better understand the movement of ethnic groups in Taiwan while also establishing a model for how studying textile design can be employed to establish such linkages The book shows that the composition and changes of ethnic minority patterns have their own internal logic and causes By studying this the authors demonstrate how such work might translate intangible and tangible culture into explicit and shareable knowledge and provide a compass for other anthropologists and researchers in the fields of visual and linguistic anthropology migration studies and ethnic and indigenous cultures in Asia and beyond *Democracy and Dictatorship* Zevedei Barbu,2013-10-15 First published in 1998 This is Volume VI of eighteen on a series of Political Sociology Written in 1956 it takes in the areas of the Psychology of Democracy of Nazism and of Communism *Careers of Couples in Contemporary Society : From Male Breadwinner to Dual-Earner Families* Hans-Peter Blossfeld,Sonja Drobnic,2001-10-04 This is the first systematic international comparative study of the transformation of couples careers in modern societies The countries included are Germany the Netherlands the Flemish part of Belgium Italy Spain Great Britain the United States Sweden Denmark Poland Hungary and China Using longitudinal data this book explores what has and what has not changed for couples in various countries due to women s greater involvement in paid employment It provides evidence that despite substantial improvement in women s educational attainment and career opportunities in all the countries studied dimensions of role specialization in dual earner couples have not undergone transformation to the same extent Gender role change within the family has generally been asymmetric so

that housework and childcare primarily remain women's work. There are however also significant institutional differences among modern societies which determine a country's timing, speed and pattern of change from the traditional male breadwinner to the dual earner family model. In particular, the impact of males' resources on their female partners' employment careers is dependent on the welfare state regime. In conservative and Mediterranean welfare state regimes, women's paid employment is negatively correlated with the occupational position of their husbands. In liberal welfare state regimes, no impact of husbands' resources on their wives' labour force participation could be detected. In the social democratic welfare state regime and generally in former socialist countries, husbands' resources have a positive effect on their wives' employment so that occupational resources cumulate in dual earner families.
