Paul In The Roman World The Conflict At Corinth:

Paul in the Roman World Robert McQueen Grant, 2001-01-01 Though the apostle Paul wrote letters to many of the churches he founded none of his extant letters reveal more about him his missionary activity and the community of faith he sought to pastor than 1 Corinthians In 1 Corinthians Paul tried to influence even control the church in the context of a city that had lasting memories of Greek democracy but the present realities of a Roman proconsul This volume highlights Paul as apostle missionary and pastor against the backdrop of the Greco Roman culture economics and politics **Paul in the**

Roman World Robert McQueen Grant, 2001 **Paul, Corinth, and the Roman Empire** Panayotis

Coutsoumpos, 2015-08-11 Paul's letter to the Corinthians provides an exclusive quick look into the social and political life of a young Christian congregation in a Greco Roman environment during the early decades when Christianity was emerging The letter provides a range and richness of information regarding the early church that is unparalleled by any other writing in the New Testament Much effort has gone into reconstructing the Christian church at Corinth more recently attention has focused on the Corinthian congregation itself and its influence towards the community of the Roman Empire The scholarly picture of the Corinthian community throughout the period of modern interpretation has been far from constant It has been continually altered as interpretative fashions have changed Paul's Political Strategy in 1 Corinthians 1-4 Bradley J.

Bitner, 2015-06-25 This volume examines 1 Corinthians 1-4 within first century politics demonstrating the significance of Corinth's constitution to the interpretation of Paul's letter Bradley J Bitner shows that Paul carefully considered the Roman colonial context of Corinth which underlay numerous ecclesial conflicts Roman politics however cannot account for the entire shape of Paul's response Bridging the Hellenism Judaism divide that has characterised much of Pauline scholarship Bitner argues that Paul also appropriated Jewish biblical notions of covenant Epigraphical and papyrological evidence indicates that his chosen content and manner are best understood with reference to an ecclesial politeia informed by a distinctively Christ centred political theology This emerges as a politics of thanksgiving in 1 Corinthians 1-4-9 and as a politics of construction in 3-5-4-5 where Paul redirects gratitude and glory to God in Christ This innovative account of Paul's political theology offers fresh insight into his pastoral strategy among nascent Gentile Jewish assemblies The Rhetorical Role of Scripture in 1

Corinthians John Paul Heil, 2005 The Rhetorical Role of Scripture in 1 Corinthians an exegetical analysis of all the explicit quotations and references to the Old Testament in Paul's First Letter to the Corinthians examines the various authoritative roles that not only scriptural quotations but also other explicit references and allusions to scripture play in Paul's rhetorical strategy in the letter Through this careful examination Heil shows how each scriptural quote or reference speaks with the divine authority of the scriptures in general and affects the audience with its authority and rhetorical power The end result is an enlightening portrait of the powerful impact that the Jewish scriptures exerted on Paul's implied audience at Corinth

Adams, David G. Horrell, 2004-01-01 First Corinthians provides a unique glimpse into the life of a young Christian community in a Greco Roman environment during the early decades of emerging Christianity. It supplies a range and richness of information about the early church that is unparalleled by any other New Testament document. Much effort has gone into reconstructing Christianity at Corinth; more recently, attention has focused on the Corinthian community itself. The scholarly picture of the Corinthian Christians throughout the period of modern interpretation has been far from constant, and their profile has altered as interpretive fashions have shifted. This collection of classic and new essays charts the history of the scholarly quest for the Corinthian church from F. C. Baur to the present day and offers the reflections of leading scholars on where the quest has taken us and its future direction. Paul's Approach to the Cultural Conflict in Corinth Johannes Wessels, 2016. The problem of cultural conflict in congregations has been a serious challenge to the church throughout its history. Many approaches to tackling the problem of cultural intolerance and tensions have been quite pragmatic in nature without the presence of a solid biblical foundation or pastoral model. In this book, Paul's approach as a slave leader emptying himself in analogy of Christ's own kenosis is thoroughly discussed and posed as a biblical approach and solution to handling this very complex and contentious issue in churches, especially in the context of Botswana. Dissertation Series: Theology in Africa, Vol. 7. Subject: Religious Studies, Christianity Studies. **A Pauline Theology of Church Leadership** Andrew D. Clarke, 2008-01-29. Scholarly studies consider Paul's views on leadership tend to fall into one of three camps: 1. the historical development view which in large measure identifies developments in church practice with developments in Pauline and deuteropauline ecclesiology; 2. the synchronic historical reconstruction typically making use of Graeco-Roman social context sources or social scientific modelling focusing on a single congregation and sometimes distinguishing between the situation to which Paul was responding and the pattern he sought to impose; and 3. the theological hermeneutical analysis identifying Paul's particular approach to power and authority often independently of any detailed reconstruction of the situations to which Paul was responding. Andrew Clarke has explored in an earlier work *Serve the Community of the Church* (Eerdmans, 2000) the distinctive local and historical situations in the various Pauline communities and concluded that there is no evidence that they organised themselves according to a common set of governmental structures which clearly developed with the passage of time. Rather, each community was influenced by its own localized social and cultural context. The present project builds on this and necessarily focuses on leadership style rather than church order. It seeks to recover from Paul's critical responses his generic ethos of church leadership, including the ideal qualities, characteristics, and task of leaders and the nature of appropriate interaction and engagement with church members. In the light of current theoretical discussions about power and gender, the study focuses particularly on Paul's attitude towards hierarchy, egalitarianism, authority, responsibility, and privilege. *An Introduction to the New Testament* D. Metaphors and Social Identity Formation in Paul's Letters to the Corinthians Kar Yong Lim, 2017-05-05 Why did Paul frequently employ a diverse range of metaphors in his letters to the Corinthians Was the choice of these metaphors a random act or a carefully crafted rhetorical strategy Did the use of metaphors shape the worldview and behavior of the Christ followers In this innovative work Kar Yong Lim draws upon Conceptual Metaphor Theory and Social Identity Theory to answer these questions Lim illustrates that Paul employs a cluster of metaphors namely sibling familial temple and body metaphors as cognitive tools that are central to how humans process information construct reality and shape group identity Carefully chosen these metaphors not only add colors to Paul s rhetorical strategy but also serve as a powerful tool of communication

in shaping the thinking governing the behavior and constructing the social identity of the Corinthian Christ followers
