A Marxist Interpretation of Church Leadership Jon-Arild Johannessen, 2023-02-15 A Marxist Interpretation of Church Leadership Romans 13 1 7 is a study of Romans 13 1 7 from a Marxist perspective Romans 13 1 7 introduce the concept of obedience to civil authorities As a result obedience has become an integral part of Western culture and may be the

cultural foundation of how capitalism can manage control and direct people Romans 13:1-7 have persuaded many Christians including priests bishops and other representatives of the Church to obey Hitler Mussolini Franco and other tyrants and despots Today Romans 13:1-7 are used as an argument in support of the death penalty In this way Jesus's message of love has become by means of seven simple verses in Paul's epistles an argument that is used to support killing people The purpose of this book is to get to grips with the Pauline impulse from a Marxist perspective This is an historic impulse that has oppressed and excluded people and created an intolerant version of Christianity It has also established obedience as a fundamental principle in Western culture and thereby enhanced capitalism **Passionate Visionary** Richard S.

Clarke,2007-11-29 Scholarly studies consider Paul s views on leadership tend to fall into one of three camps 1 the historical development view which in large measure identifies developments in church practice with developments in Pauline and deuterio Pauline ecclesiology 2 the synchronic historical reconstruction typically making use of Graeco Roman social context sources or social scientific modelling focusing on a single congregation and sometimes distinguishing between the situation to which Paul was responding and the pattern he sought to impose and 3 the theological hermeneutical analysis identifying Paul s particular approach to power and authority often independently of any detailed reconstruction of the situations to which Paul was responding Andrew Clarke has explored in an earlier work *Serve the Community of the Church* Eerdmans 2000 the distinctive local and historical situations in the various Pauline communities and concluded that there is no evidence that they organised themselves according to a common set of governmental structures which clearly developed with the passage of time Rather each community was influenced by its own localized social and cultural context The present project builds on this and necessarily focuses on leadership style rather than church order It seeks to recover from Paul s critical responses his generic ethos of church leadership including the ideal qualities characteristics and task of leaders and the nature of appropriate interaction and engagement with church members In the light of current theoretical discussions about power and gender the study focuses particularly on Paul s attitude towards hierarchy egalitarianism authority responsibility and privilege     **Congressional Record** United States.
