

PAUL TILlich (1886-1965)

Apologetic, Existential, Theologian

He then taught philosophy and theology at the universities of Marburg, Dresden, Leipzig, and Frankfurt. Paul Tillich 1886-1965 Modern Theology:

Modern Theology Ernest John Tinsley, 1973 Paul Tillich 1886-1965 Paul Tillich, 1973 Continental Philosophy and Modern Theology David Brown, 2012-01-18 Paul Tillich and His System of Paradoxical Correlation Charles Amarkwei, 2020-05-05 This book shows the paradoxical mode by which Christians keep their faith in the Christian message as they relate with science. It reveals how Paul Tillich's method of correlation helps us to understand how Christians interact with science without necessarily conflicting, separating and dialoguing and synthesizing with each other. It rules out natural theology but provides a non-eclectic theology of nature that frees Christians to be involved in science meaningfully and without undermining their faith. *Theologians Under Hitler* Robert P. Ericksen, 1985-01-01 What led so many German Protestant theologians to welcome the Nazi regime and its policies of racism and anti-Semitism? In this provocative book Robert P. Ericksen examines the work and attitudes of three distinguished scholarly and influential theologians who greeted the rise of Hitler with enthusiasm and support. In so doing he shows how National Socialism could appeal to well-meaning and intelligent people in Germany and why the German university and church were so silent about the excesses and evil that confronted them. This book is stimulating and thought-provoking. The issues it raises range well beyond the confines of the case studies of the three theologians examined and have relevance outside the particular context of Hitler's Germany. That the book compels the reader to rethink some important questions about the susceptibility of intelligent human beings to as distasteful a phenomenon as fascism is an important achievement. Ian Kershaw *History Today* Ericksen's study throws light on the kinds of perversion to which Christian beliefs and attitudes are easily susceptible and is therefore timely and useful. Gordon D. Kaufman *Los Angeles Times* An understanding and carefully documented study. Ernst C. Helmreich *American Historical Review* This dark book poses a number of social, economic and cultural questions that one has to answer before condemning Kittel, Althaus and Hirsch. William Griffin *Publishers Weekly* A highly competent, well-written book. Tim Bradshaw *Churchman* **The Blackwell Companion to Modern Theology** Gareth Jones, 2008-04-15 In this major reference work a team of the world's leading theologians provides a powerful overview of modern theology. Covers theology's relation to other disciplines, the history of theology, major themes, key figures and contemporary issues. Can be used as the basis for an introductory course or as an essential reference source. **Ford's The Modern Theologians** Rachel Muers, Ashley Cocksworth, 2024-02-21 Captures the multiple voices of Christian theology in a diverse and interconnected world through in-depth studies of representative figures and overviews of key movements. Providing an unparalleled overview of the subject. *The Modern Theologians* provides an indispensable guide to the diverse approaches and perspectives within Christian theology from the early twentieth century to the present. Each chapter is written by a leading scholar and explores the development and trajectory of modern theology while presenting critical accounts of a broad range of relevant topics and representative thinkers. The fourth edition of *The Modern Theologians* is fully updated to provide readers with a clear picture

Tillich J. Heywood Thomas, 2000-12-13 Paul Tillich 1886 1965 was a remarkable theologian who was as much at home in a philosophical discussion as he was in the pulpit and as keenly interested in art and politics as in his life work as a professional theologian Tillich s attacks on Nazism led to the banning of his books his dismissal from Frankfurt University and ultimately his departure for the United States in November 1933 His many points of contact with key thinkers in theology and philosophy including Heidegger Otto Bultmann Adorno and Barth make him a compelling figure for those interested in the history of ideas in the Twentieth Century J Heywood Thomas critically reviews the philosophical background to Tillich s theology including his debts to Schelling Kant and Husserl He surveys Tillich s achievement as a philosophical theologian examining his ontological approach to Christology and salvation and his understanding of the church as a spiritual

community Thomas concludes with an exploration of Tillich's contribution to the changed situation of theology today

Multilateral Theology Timothy T.N Lim, 2021-04-18 This book introduces a new multilateral methodology for the contemporary study of theology. It bases this methodology on the idea that there are too many materials contributing as sources for theologizing to sustain the one method fits all approach found in many systematic theologies within Christianity. What is needed instead is something that reflects the various and varied natures, purposes and tasks of theologians theologizing for their respective contexts. Engaging materials from a range of Christian traditions including Evangelicalism, the Catholic Magisterium and a limited range of pan-Orthodox resources, the book analyzes and assesses major factors that have shaped different streams of theology. Addressing doctrinal development, scripture and revelation, historical tradition and creeds, philosophy and truth sciences and interdisciplinarity, experience, religious pluralism and culture, it demonstrates how these various streams can form a multilateral whole. The book concludes by examining the centers and peripherals of methodologies in theologization for a spectrum of theological traditions, streams both across and beyond Christianity. By offering an approach that keeps in step with the increasingly interconnected and pluralistic world in which we live, this book provides a vital resource for any scholar of Christian theology, constructive theology, contextual theologies and systematic theology as well as religious studies.

The Irrelevance and Relevance of the Christian Message Paul Tillich, 2007-02-06 The Irrelevance and Relevance of the Christian Message is a transcript of Paul Tillich's 1963 Earl Lectures at the Graduate Theological Union. Delivered just two years before his death, these lectures present Tillich's heartfelt and deeply personal understanding of the relevance of Christian preaching and Christian theology. Why, Tillich asks, has the Christian message become seemingly irrelevant to contemporary society? Is the gospel able to give answers to the questions raised by the existentialist analysis of the human predicament? Yes, he answers, but in order to do so, Christian teaching and preaching need to undergo dramatic renewal, the root of which requires an affirmation of love as central to Christian identity. Further, we need to recognize that this task is not limited to preachers and theologians; all of us together are responsible for the irrelevance or the relevance of the gospel in our time.

Method and Context as Problems for Contemporary Theology Hans Schwarz, 1991 A proposal for the need to concentrate on the basic and simple art of doing theology in the context of a world which needs a word that is distinct from its own world.

alienated from God and still yearning to overcome its primordial alienation Theology must be able to convey the ultimate message which is without equal to overcome being a minority voice in an overcrowded market TST 58 89 95 248pp 1991

The Trinity Hans Schwarz,2017-09-15 In the last thirty years books on the Trinity have abounded There seems to be a fascination with this mysterious topic especially among systematic theologians The topic has been mined for many different interests from liberation theology to feminist interpretations of the Christian heritage and from neo Reformation theology to interreligious dialogue This book has no intention of adding to the plethora of treatises on the Trinity The main question with which it is concerned is what is really scripturally tenable with regard to the Trinity and what is unwarranted theological construction or even speculation Through this question Schwarz tries to discern whether the theological assertions made about the Trinity are in line with the biblical base from which they are derived or whether they have veered off in a more or less questionable direction What takes shape here is a story how the doctrine of the Trinity developed over the subsequent centuries from the traces in Scripture to a centralized dogma at the heart of Christian teaching We witness in this an evolution from proclamation to controversy to speculation What are we to make of this doctrine How do we articulate the biblical faith today

Walking Away from Faith Ruth Tucker,2002 Why do some people lose their faith Why do some choose to abandon religious beliefs that were once meaningful to them And what happens when they do In this no holds barred book Ruth Tucker tackles the tough

questions about losing faith Providing historical perspective she looks at the stories of prominent Christians like Chuck Templeton and Billy Graham who have struggled with faith She grapples with difficult philosophical and theological issues exploring the intractable questions that bring people to the point of losing faith suffering science answer to prayer hypocrisy in the church and more Throughout the book she explores the testimonies of some who have made the choice to walk away and some who have returned Tucker writes not just as a detached observer but as one who has also struggled with doubt and disappointment In *Walking Away from Faith* she shares her from her experience and tells you why she continues to choose faith Reading her story and her interviews of others you will find help for working through your own questions and doubts You will also find insight for ministering to your friends family coworkers and neighbors who stumble between belief and unbelief

Understanding the Sacred Murray Milner Jr.,2019-04-04 In the United States and Europe membership and participation in Christian churches have steadily declined When asked for their religious preference increasing numbers say none This is especially the case for younger adults and the well educated A key reason is that many find the prayers creeds and liturgy and the theology that underlie these to be incomprehensible or unbelievable But theology need not be unbelievable and doctrine need not be doctrinaire This book provides a new approach to theology by drawing on sociological concepts that most people will find familiar for example role social relationship pluralism hierarchy and status At the core of this theology is the concept of sacredness What is especially new is to see sacredness as the ultimate form of status that which is most praised and valued Since virtually everyone is familiar with a variety of status systems at work in schools while shopping in church this approach makes theology more understandable and meaningful Yet we should not abandon the accomplishments of the spiritual and intellectual past Hence such classical doctrines as sin the Trinity revelation atonement salvation and grace the nature of the church and worship are reinterpreted so that they are credible and meaningful to contemporary people Any moderately educated person will find this book accessible It is deliberately a brief book that will inform and stimulate laity be helpful to clergy and challenge scholars

The Angel in Annunciation and Synchronicity Tammy L. Montgomery,2013-02-21 Fear grips those who doubt that their existence has meaning and the prevailing notion that humans are situated on a dot in the middle of a dark cold universe leaves people shivering in cosmic insignificance Many would argue that science and technology have separated individuals from God while others would say that people have lost their faith and some would assert that God is dead Many simply do not know what to believe Today s self help industry is a testament to the search for meaning in an age of uncertainty and faltering religious structures The truth is that technology and science now answer many of the questions that used to be left to God This development has confounded people s ability to integrate what is known today with what was once thought The disparity between past and present beliefs may be observed in the concept of the angel There are many who claim that any lingering belief in angels is merely the residue of imaginary or wishful thinking and there are others who hold that angels wings halos and harps literally exist How is one to

reconcile such contradictory beliefs C G Jung s theory of synchronicity meaningful coincidence provides a vehicle for the exploration and possible reconciliation of such questions Rather than echoing the skeptic who says angels cannot exist or the religious enthusiast who affirms their immanence one might reframe the entire discussion Like the biblical concept of annunciation in which an angel delivers a heavenly message to an earthly individual synchronicity defines the moment at which the eternal touches the temporal

Integrative Theology Gordon R. Lewis, Bruce A. Demarest, 2010-09-21 Integrative Theology is designed to help graduate students in a pluralistic world utilize a standard method of fruitful research Each chapter on a major doctrine 1 states a classic issue of ultimate concern 2 surveys alternative past and present answers and 3 tests those proposals by their congruence with information on the subject progressively revealed from Genesis to Revelation Then the chapter 4 formulates a doctrinal conclusion that consistently fits the many lines of biblical data 5 defends that conviction respectfully and finally 6 explores the conclusion s relevance to a person s spiritual birth growth and service to others all for the glory of God Why the title Integrative Theology In each chapter steps 2 6 integrate the disciplines of historical biblical systematic apologetic and practical theology
