A. James Reimer,2004 This collection of essays considers various aspects of Paul Tillich s theology of nature culture and politics in relation to major theological movements thinkers and events of the twentieth century These essays are not purely an exercise in historical theology but an apology for Tillich s theological philosophical and ethical project The underlying assumption is that Tillich s theology both in form and content is worth reading and learning from in the modern and

postmodern era even though we inhabit today an intellectual environment not very amenable to Tillich's form of mediation
