K. Lee, 2023 Through provisional idiosyncratic and non normative listening practices *Queer Ear* Remaking Music Theory counters music theory s continuing tendencies towards rationality unity unilinearity teleology and logical certainty In this volume editor Gavin S K Lee brings together a diverse group of music theorists who issue queer challenges to both music theory and musicology and show that queerness is integral to music theoretical practice These investigations of the queer ear and queer soundings while drawing upon a broad range of approaches are united by the repurposing of hard music theoretical apparatuses as well as soft apparatuses like narratology and cultural theory for queer ends Such repurposings contribute to the search for general principles or a theory of queering that counters mainstream music theory s proclivities instead encouraging everyone to experiment with queer ways of listening Through the lenses of queer temporality queer narratology and queer music analysis the essays examine a wide variety of artists and composers including Sun Ra Cowell Czernowin Henze Schubert and Schumann theories ranging from Schenker to queer shame disability studies and posthumanism and authors such as Edward Cone and Edward Prime Stevenson Together they rethink the field s major tenets examine hidden histories and view listening practices from the perspective of non normative subjectivities Ultimately *Queer Ear* works to queer the field of music theory while paying heed to the ways in which music theory intersects with diverse embodied LGBTQ lives ***Resurrecting Church*** John Cleghorn, 2021 *Resurrecting Church* interweaves three strands The center strand is the remarkable turnaround story of Caldwell Presbyterian Church which was on the edge of extinction when author John Cleghorn filled the role of pastor Cleghorn also tells the story of his own growth and liberation from the myopia

of white privilege The third strand includes the stories of several diverse congregations researched by the author These congregations are examples of faith communities that have taken risks deepening empathy and seeking justice Cleghorn envisions congregations as diverse communities spiritual hospitals for the wounded and marginalized Book jacket *The Sculpted Ear* Ryan McCormack, 2020-04-17 Sound and statuary have had a complicated relationship in Western aesthetic thought since antiquity Taking as its focus the sounding statue a type of anthropocentric statue that invites the viewer to imagine sounds the statue might make The Sculpted Ear rethinks this relationship in light of discourses on aurality emerging within the field of sound studies Ryan McCormack argues that the sounding statue is best thought of not as an aesthetic object but as an event heard by people and subsequently conceptualized into being through acts of writing and performance Constructing a history in which hearing plays an integral role in ideas about anthropocentric statuary McCormack begins with the ancient sculpture of Laocoön before moving to a discussion of the early modern automaton known as Tipu's Tiger and the statue of the Commendatore in Mozart's Don Giovanni Finally he examines statues of people from the present and the past including the singer Josephine Baker the violinist Aleksandar Nikolov and the actor Bob Newhart with each case touching on some of the issues that have historically plagued the aesthetic viability of the sounding statue McCormack convincingly demonstrates how sounding statues have served as important precursors and continuing contributors to modern ideas about the ontology of sound technologies of sound reproduction and performance practices blurring traditional divides between music sculpture and the other arts A compelling narrative that illuminates the stories of individual sculptural objects and the audiences that hear them this book will appeal to anyone interested in the connections between aurality and statues in the Western world in particular scholars and students of sound studies and sensory history *NINCDS Index to Research Grants Subject Number Investigator & Contracts* National Institute of Neurological and Communicative Disorders and Stroke, 1978 *The Homeopathic Eye, Ear, and Throat Journal*, 1907 **NINCDS index to research grants and contracts** National Institute of Neurological and Communicative Disorders and Stroke, 1981 *Paul Through Mediterranean Eyes* Kenneth E. Bailey, 2011-09-12 In this groundbreaking study of Paul's first epistle to the Corinthians Kenneth Bailey examines the canonical letter through Paul's Jewish socio cultural and rhetorical background and through the Mediterranean context of its Corinthian recipients **Neurological and Sensory Disease**, 1963 **Neurological and Sensory Disease: Film Guide, 1963**, 1963 *A Decolonizing Ear* Olivia Landry, 2022-10-03 The recording of Indigenous voices is one of the most well known methods of colonial ethnography In *A Decolonizing Ear* Olivia Landry offers a sceptical account of listening as a highly mediated and extractive act influenced by technology and ideology Returning to early ethnographic practices of voice recording and archiving at the turn of the twentieth century with a particular focus on the German paradigm she reveals the entanglement of listening in the logic of Euro American empire and the ways in which contemporary films can destabilize the history of colonial sound reproduction Landry provides close readings of several

disparate documentary films from the late 1990s and the early 2000s The book pays attention to technology and knowledge production to examine how these films employ recordings plucked from different colonial sound archives and disrupt their purposes Drawing on film and documentary studies sound studies German studies archival studies postcolonial studies and media history A Decolonizing Ear develops a method of decolonizing listening from the insights provided by the films themselves
