

The background is a complex digital composition. At the top, a dark blue space scene features a large, cratered planet on the left and a bright, multi-colored nebula or starburst in the center. Below this, a large, detailed human eye is superimposed, looking directly forward. The bottom portion of the image shows a city skyline at night, with numerous illuminated buildings and lights reflecting on a dark surface, possibly water. The overall color palette is dominated by deep blues, purples, and reds.

Perfecting Your Physical Energy Sphere:

Perfecting Your Physical Energy Sphere Shyam Mehta, 2005-12-01 You are not as healthy as you think you are In your parents day they basically led natural lives and they did active work The food was natural the water was natural the air was fresh during the crucial formative years up to age 15 Now food is artificial and impacted by pesticides and chemicals The water is recycled refuse You sit in an office all day in front of the computer You are injected every now and again with hugely powerful modern drugs These drugs have effects that scientists will only discover 20 years after you have been taking them They destroy your immune system they step by step destroy your nervous system You go to hospital and get fixed Unless you catch an ever more powerful virus during your stay in hospital All of these things mean that just because your parents lived healthily up to age 70 or 90 you will not The man in the street maybe you does not realize that stress is the number one reason for ill health in old age Combined with you during your formative years up to age 15 having been impacted by modern pollution means that you are not nearly as healthy as you think As with most things in the modern world the truth is hidden by advertising by the artificial face that does not tell you that the person you are with is troubled by the pills you take to remedy symptoms that mean you do not know what is really going wrong By the dental floss that damages your gums Sportsmen undertake vigorous exercise and you may think that this is healthy It is not A few years later they retire In the old days in your parents time they may well have subsequently lived to a ripe old age despite their injuries You are not healthy and therefore if you undertake vigorous exercise you are damaging your health even more Even if you do not read or buy this book the author urges you to do two things Take your children away from modern living as much as possible and eliminate all unnecessary stress in your life He dismisses Western fads and fancies as to what natural living means He explains what it really involves but states that this is only important when not if you fall ill not before Poems and Songs Shyam Mehta, 2009-08-23 In reality a poem can also be a song So this book is also a collection of songs on different topics With good wishes to you all *Yoga: The Iyengar Way, Part II* Shyam Mehta, 2009-07-05 The book *Yoga The Iyengar Way* was immensely popular amongst all yoga students across the world It was the first book to in an attractive way set out how to do the yoga asanas in a considered and reflective fashion with enormous attention to detail that the postures warrant Here one of the co authors of *Yoga The Iyengar Way* adds all the additional knowledge you need to be able to help yourself with all the structural and mental ailments that afflict mankind today The Psychology of the Mind Shyam Mehta, 2009-07 Academic knowledge is of academic interest In this book I set out several new sciences relevant to mankind All of these sciences can be directly applied by yourself for your benefit They make predictions about the consequences of your actions and are testable You can use your intuition or judgement to determine whether they are true or not from your perspective or you can wait for the outcome of scientific testing In reality this book sets out a new psychology for both the mind and the self These sciences and analyses and thoughts can help you in all the major aspects of your life Why wait **Lessons from Animals** Shyam

Mehta,2009-08 Today man s immune system has never been worse Even flu will require the whole population to wear face masks But wild animals seem to manage better Is this because they are cleverer No But studying animals gives many insights into what man should not do aswell as what he or she should do to maintain health *Oxford University Shyam*

Mehta,2009-07-03 Book Comment from Leeds University Dear X Cool How about senile this has 2 letters less than demented Do I have your approval now All best wishes Shyam Look forward to it too I just think suffering from dementia sounds so much more sympathetic than demented but as you say you are straight to the point I don t think I disagree with the substance of anything you say as ever Yoga Philosophy and Practice Shyam Mehta,2014 There are three sacred texts i e giving the word of God on Yoga the Bhagavad Gita the Yoga Sutras of Patanjali and the Hatha Yoga Pradipika by Svati marama These set out completely different paths loving God self knowledge and health The Yoga Sutras in particular is shown in this book to be very strange There are three sacred texts underpinning the philosophy of Hinduism known as Vedanta the Upanishads the Bhagavad Gita and the Brahma Sutras There is one text underlying Christianity the Bible One version of the bible differs from another It has been subject to complex theological and political influences over the millennia Even in the New Testament Jesus says some nice things but some silly things Christianity gives a fourth path following Jesus There is one sacred text underlying Islam the Koran Islam is a fifth way to submit to and serve God The Gita the Koran and the Yoga Sutras all state that you need to surrender to God in order to make progress on your life path Hatha yoga is preparatory to this They all say that you need to serve humanity Unlike with the Bible and the Yoga texts though the Gita and Koran do not ask you to believe in magic The author with 57 years of yoga practice 40 years of yoga teaching experience and a deep study of these texts has written this book from a practitioner s perspective He surrendered his body mind and soul to God in 2002 and since has been practicing Bhakti yoga with a view to serving God by helping all nice people he meets to be happy In this book he shows that the different texts highlight different paths that you may wish to follow you need to choose Whatever path you choose you will find that Kundalini Iyengar yoga will help you to serve God better by improving and maintaining your health The author hopes that this book will help you to find your life path to progress in it using Kundalini or Iyengar yoga to help you and to solve any physical sexual emotional love mental spiritual or divine energy sphere issues you may have and to become happier My Book of Paintings Shyam Mehta,2014-04 Nowadays everyone is stressed Emotions are frayed What is your current main emotional difficulty It can vary from day to day The works of art in this book cover all 45 emotions and their characteristics so that you can identify which one you have You can benefit from spending some time each day seeing some wonderful works of art that heal your specific emotional difficulties Merely looking at an appropriate painting in this book for 3 minutes will enable your disturbed emotional energy after an upset rudeness anger and so forth to be cured For any emotional difficulty that is all the time you need **How to Teach Your Child English** Shyam Mehta,2009-07-05 This book describes a completely new system of how to learn English The author believes that this much simplifies the

learning process both for children and adults *Physics* Shyam Mehta,2009-07-03 Dear Henry I think I need to think over what you say But you are not focussing on the big issues and the solutions that I propose I am really saying that Schrodinger is correct and that time is independent of space and that when these two are factored in the whole of modern physics then fits the facts About light travelling at the speed of infinity can we take that as a postulate in the book And then see how the equations of modern physics drop out if that is done E Mc DEGREES2 is another postulate as is that Schrodinger is correct These are the three postulates of new physics **How to Bring Up a Child** Shyam Mehta,2014-02 What it needs How to

give it What to do 0 to 9 months and beyond T 5 years T 9 months Vaccination Loo Intelligence and Wisdom Bad dreams TV and iPods Learning Nursery School Education Sugar The Body Fear of the Dark The Job of a Parent The Environment

Stories for Children Shyam Mehta,2009-08-23 Children today need love and happiness in their lives They do not need more and more toys and computers and Ipods This book provides some lovely stories for both adults and for adults to read to children *How to Teach Your Child Maths* Shyam Mehta,2009-07-05 This book is by a mathematician who believes that the teaching of maths has gone dramatically wrong for young children Here is set out the basics of what a child needs in everyday life He does not look at complicated maths just what very young children will easily pick up if taught properly And that is what the author sets out to help you to do teach your child maths properly **How to Teach Your Child General**

Knowledge Shyam Mehta,2009-07-05 This book describes a completely new system of how to learn General Knowledge The author believes that this much simplifies the learning process both for children and adults Most of the time at school the children waste their time learning unimportant things and not learning important things With this method parents and teachers can focus on teaching what is important and further more do this efficiently The child then only needs three subjects or at most four English Maths General Knowledge and perhaps a foreign language which can be taught in the same way *Economics* Shyam Mehta,2009-07-06 Economics these days is in a mess One person says this and one person says that What is the truth This book sets out the answers in layman s terms *Western Philosophy: Russian Edition* Shyam

Mehta,2014-03-08 This book analyses Western Philosophy and states that one philosopher says this and another the opposite The subject provides nothing useful for mankind *A Storybook for Children* Shyam Mehta,2014-03-09 In this book Shyam

Mehta helps parents teach their children about some of the most important things in life love happiness being kind and so forth Future World Shyam Mehta,2009-07-02 So in this book I set out my best estimates of what might be happening in

the future It is not pretty And the fundamental reason for this is the law of karma that when one does bad things one is due to suffer It is my thesis that there is no more reincarnation and that the amount of bad things that have been done over the last few decades has been enormous Most particularly there has been enormous injury to animals largely but not entirely due to the past trend to non vegetarianism Light on the path to spiritual perfection - Additional Articles IX Ray del
