The Publishers' Trade List Annual ,1985 **The Review of Metaphysics** ,1977 **The American Scholar** William Allison Shimer,1976 *The Publishers Weekly* ,1966 *Books in Print Supplement* ,1985 **Books in Print** ,1982
Subject Guide to Books in Print ,1983 Seminar ,1965 *Proceedings, American Philosophical Society* (vol. 127, No. 6, 1983) , Serials on Microfilm ,1972 *The Architecture of Paul Rudolph* Timothy M. Rohan,2014-07-10 Equally admired and maligned for his remarkable Brutalist buildings Paul Rudolph 1918 1997 shaped both late modernist architecture and a generation of architects while chairing Yale s department of architecture from 1958 to 1965 Based on extensive archival research and unpublished materials *The Architecture of Paul Rudolph* is the first in depth study of the architect neglected since his postwar zenith Author Timothy M Rohan unearths the ideas that informed Rudolph s architecture from his Florida beach houses of the 1940s to his concrete buildings of the 1960s to his lesser known East Asian skyscrapers of the 1990s Situating Rudolph within the architectural discourse of his day Rohan shows how Rudolph countered the perceived monotony of mid century modernism with a dramatically expressive architecture for postwar America exemplified by his Yale Art and Architecture Building of 1963 famously clad in corrugated concrete The fascinating story of Rudolph s spectacular rise and fall considerably deepens longstanding conceptions about postwar architecture Rudolph emerges as a pivotal figure who anticipated new directions for architecture ranging from postmodernism to sustainability God, Revelation and Authority (Set of 6) Carl F. H. Henry,1999-01-25 A monumental six volume set that presents an undeniable case for the revealed authority of God to a generation that has forgotten who he is and what he has done *God, Revelation and Authority: God Who Stands and Stays (Vol. 6)* Carl F. H. Henry,1999-01-25 Part 6 in a monumental six volume set that presents an undeniable case for the revealed authority of God to a generation that has forgotten who he is and what he has done The Social Organization of Juvenile Justice Aaron Cicourel,2017-07-28 The Social Organization of Juvenile Justice recasts familiar sociological problems of research within a dramatically new and different theoretical and methodological perspective In seeing law enforcement officers no less than those accuse of criminal behavior as locked into the creation of history or more precisely a series of retrospective and prospective interpretations of events both within and disengaged from the social contexts relevant to what purportedly took place Aaron Cicourel redefined the fault lines of contemporary criminology The work makes imaginative use of a wide variety of new techniques of analysis from ethnomethodology to community studies while at no point ignoring basic hard statistical data in this study of juvenile justice in two California cities Cicourel states the purpose of his book with clarity The decision making activities that produce the social problem called delinquency and the socially organized procedures that provide for judicial outcomes are important because they highlight fundamental processes of how social order is possible This work challenges the conventional view that assumes delinquents are natural social types distributed in some ordered fashion and produced by a set of abstract internal

or external pressures from the social structure Cicourel views the everyday organizational workings of the police probation departments courts and schools demonstrating how these agencies contribute to various kinds of transformations of the original events that led to law enforcement contact This contextual creation of facts in turn leads to improvised ad hoc interpretations of character structure family life and future prospects In this way the agencies may generate delinquency by their routine encounters with the young His new introduction discusses with great detail the methodology behind his research and responses to earlier critiques of his work *The College on the Hill* Alexander Ross,Terry Crowley,1999-09-01

How has the Ontario Agricultural College contributed to Canadian education What role has the college played in the development of agriculture since it was founded in 1874 This history of Canada s oldest agricultural college revolves around these two questions It shows that the college s mandate has changed in its attempt to serve both education and agriculture The Ontario Agricultural College was established to enshrine science in farming but it also became the testing and extension arm of the provincial ministry of agriculture Direct government control for ninety years provided financial resources not enjoyed by other post secondary schools but the results sometimes proved of greater benefit to agriculture than to education or science Swept into the University of Guelph when it was created in 1964 the college rethought its role It emerged as a centre for advanced scientific inquiry for global agricultural programs and for understanding rural societies The controversies surrounding these changes and the evolving nature of agriculture and science are brought out fully in this account of the past century and a quarter **Heidegger and Aquinas** John D. Caputo,2024-10-22 Available in a new digital edition with reflowable text suitable for e readers The purpose of the present study is to undertake a confrontation of the thought of Martin Heidegger and Thomas Aquinas on the question of Being and the problem of metaphysics Now a confrontation which does no more than draw up a catalogue of common traits and points of difference is no more than a curiosity an idle comparison which bears no fruit **The Americanization of Social Science** David Haney,2008-01-28 A highly readable introduction to and overview of the postwar social sciences in the United States The Americanization of Social Science explores a critical period in the evolution of American sociology s professional identity from the late 1940s through the early 1960s David Paul Haney contends that during this time leading sociologists encouraged a professional secession from public engagement in the name of establishing the discipline s scientific integrity According to Haney influential practitioners encouraged a willful withdrawal from public sociology by separating their professional work from public life He argues that this separation diminished sociologists capacity for conveying their findings to wider publics especially given their ambivalence towards the mass media as witnessed by the professional estrangement that scholars like David Riesman and C Wright Mills experienced as their writing found receptive lay audiences He argues further that this sense of professional insularity has inhibited sociology s participation in the national discussion about social issues to the present day **General Catalogue of Printed Books** British Museum. Department of Printed Books,1969 **The British**

National Bibliography Cumulated Subject Catalogue ,1968 The Dynamics of Progress Samuel L.

Macey,2010-11-01 The development of increasingly precise measurements is an essential part of what Samuel L Macey identifies as the West s wide ranging effort to rationalize human activity to simplify and standardize the way we work and communicate with one another In The Dynamics of Progress Macey examines the history of such rationalizations as they have manifested themselves He identifies a symbiotic relationship among these different types of rationalization demonstrating that without the rationalizing of time weights and measures numbers and language the scientific technological and industrial advances of the past three hundred years would have been inconceivable In addition to discussing rationalization in its various forms Macey also addresses reactions against it and closes with some observations on the future Increasing demands for material goods have the potential for spreading wealth but such demands strain the earth s limited resources How we address the challenge posed by this depletion of resources Macey suggests will be the ultimate test of our rationalizing powers
