Minto-Coy, Evan Berman, 2015-06-26 The Caribbean is at a crucial phase in its development Global and local pressures have seen the region losing its competitiveness while it remains at risk of losing out on development gains made in the last few decades These pressures are demanding improvements in the way government operates particularly in its policy making and administrative Halduskultuur-Administrative Culture 11(1): Small States and the "State" , Strengthening Urban Management Thomas L. Blair, 2013-03-08 Managing cities and providing housing essential infra structure and public services in an era of great pressures on municipal resources are challenging domestic issues in all parts of the world Increasingly city administrators and local government authorities in developing countries and western industrial nations are seeking to share experiences and exchange information in a search for solutions This highly informative volume attempts to meet this critical need and to aid development cooperation among municipalities Strengthening Urban Management presents the practical problems and approaches to the provision of housing transportation and the mobilization of the requisite finance and manpower for local government in contrasting urban situations It draws upon selected papers contributed to inter national meetings and world congresses sponsored by the International Union of Local Authorities The Hague Netherlands Subject areas are illustrated in city examples given by mayors administrators and planners from Lusaka Harare Nairobi Osaka Jakarta Bandung Vienna Stockholm Caracas and Rio de Janeiro Theme introductions and contributions from leading international and national agencies highlight the important role and grave difficulties facing local government in urban management and planning **Caribbean Perspectives on International Law and Organization** Bertie G. Ramcharan, L.B. Francis, 2024-12-16 Development Administration in the Caribbean J. Walker, 2002-05-22 A detailed and historical account of both theory and practice this book attempts to make sense of the loose and little understood field of development administration The book focuses on development administration over forty years and identifies key attributes of public bureaucracy which are associated with bureaucratic performance The associations between bureaucracy's attributes and performance are employed in explaining development differences between Jamaica and Trinidad and Tobago over the period 1960 1995 Associations are explored at the macro level through aggregate data and at the micro level through fascinating case studies of the Industrial Development Corporations IDCs associated with economic growth and the Ministry of Education associated with women's empowerment The study establishes clear patterns of associations in the empirical cases and explores the implications of these findings for the theory

of development administration Gaining Productivity Jamal Khan, 2007 Global Tourism and Informal Labour Relations Godfrey Baladacchino, 2013-08-21 The worldwide expansion of the tourism industry creates many encounters between global agents and local forces yet the host guest interaction is rarely considered from the point of view of the experience of work This study documents and discusses such a global local encounter based on fieldwork carried out in hotels in Barbados and Malta Insight is drawn from a review of such issues as recruitment promotion redundancy discipline security communication expertise total quality management initiatives trade unionism and industrial action **Overcoming Obstacles in Environmental Policymaking** John K. Gamman, 1994-12-05 This book examines why policies and laws intended to protect the environment often do not work In particular Gamman addresses the fundamental reasons why efforts to protect natural resources in the developing world generally fail He describes why environmental initiatives originating in national governments international foreign assistance agencies and environmental groups suffer from a dysfunctional decision making process And he suggests how to improve environmental policymaking by creating partnerships for sustainable development showing how to do this with a step by step negotiation process **An Ethical Turn in Governance** Pearson A. Broome, 2021-04-09 The recurring image throughout the developing world is one of the disintegration of civil order debilitating leaders into a crisis of governance Not a day goes by without extensive media coverage of some form of corruption perceived or real concerning the lack of productivity and or increasing incidences of fraud and unethical behavior An Ethical Turn in Governance The Call for a New Development Narrative posits that the intensification of this crisis is compatible with the root cause of capitalist modernization with its rapid and disorientating changes To mitigate the accompanying effects a call is made for re conceptualization of the search for a solution through incorporating and strengthening the value of an ethical consciousness in our thinking and policies of governance The idea is an urgent possibility perhaps even a controversial and ambitious proposal for countries to begin imagining how it might be brought about and what it would look like The central aim and objective is to move toward a framework for continued theory development and empirical research thereby offering a new narrative on governance and by extension development Recognizing that the inclusion of an ethical turn in governance is fraught with difficulty because of the different opinions the relativism of different value systems and options identified often derived from the perspectives of various stakeholders a call is made for an interactive discourse in the public sphere The argument advanced is that a body politic with sensible social values germane to the policy process is the best way in which human conduct is ordered guided and appraised in order to live together in well functioning societies critical for the success of any democracy **Public Management in Global Perspective** Salvatore Schiavo-Campo, Hazel M. McFerson, 2014-12-18 Written by two authors with a wide range of experience in international affairs this introductory text addresses both the commonalities and diversity of administrative practice around the world including a succinct but thorough overview of PA in the United States It combines solid conceptual

foundations with strong coverage of nuts and bolts how to topics such as personnel management procurement and budgeting and covers both developed countries and developing and transitional economies The book s chapters are organized into four major sections government functions and organization management of government activity interaction between government and citizens and prospects of administrative reform Plentiful illustrations and examples throughout the book and What to Expect sections and discussion questions in each chapter make this an ideal text for any PA course that takes a global perspective
