

# D. Socialist Systems

In most European countries  
& in Canada health care is  
**PROVIDED** by the Government.  
Governments own and run airlines  
and railroads in some countries too!

- 1. An expanded but limited role of government
- 2. Government & Private ownership of the means of production
- 3. Government & Markets determine price and allocate resources

# Public Opinion In European Socialist Systems

**William A. Welsh**

## **Public Opinion In European Socialist Systems:**

**Public Opinion in European Socialist Systems** Walter D. Connor, Zvi Y. Gitelman, 1977 **Beyond Eurocentrism** Peter Gran, 2021-02-01 Eurocentrism influences virtually all established historical writing With the rise of Prussia and by extension Europe eurocentrism became the dominant paradigm for world history Employing the approaches of Gramsci and Foucault Peter Gran proposes a reconceptualization of world history He challenges the traditional convention of relying on totalitarian or democratic functions of a particular state to explain and understand relationships of authority and resistance in a number of national contexts Gran maintains that there is no single developmental model but diverse forms of hegemony that emerged out of the political crisis following the penetration of capitalism into each nation In making comparisons between seemingly disparate and distinctive nations and by questioning established canons of comparative inquiry Gran encourages people to recognize the similarities between the West and non West nations **Public Opinion in Postcommunist Russia** Matthew Wyman, 1996-12-03 This book is a comprehensive account of trends in Russian public opinion over the period 1988-94 Analysing data from Russian polling organizations it covers the development of a professional polling industry and looks at changing popular moods the depth of democratic values attitudes towards political institutions the attempt to introduce a free market economy and views about the loss of empire Concluding sections consider attitudinal differences between social groups and the impact of public opinion on postcommunist politics **Survey Research and Public Attitudes in Eastern Europe and the Soviet Union** William A. Welsh, 2013-10-22 Survey Research and Public Attitudes in Eastern Europe and the Soviet Union is a collection of research studies the survey s the opinions of demographics from Eastern Europe on socialist systems The title analyzes the development of survey research in the socialist systems of Eastern Europe to provide an overview of the nature of socialist countries The territories covered in the selection are Soviet Union Yugoslavia Bulgaria Czechoslovakia Germany Democratic Republic Hungary Poland and Romania The book will be of great interest to sociologists political scientists economists and behavioral scientists Public Opinion William A. Blade, 2002 Twenty four news networks a plethora of newspapers and magazines vibrant news talk radio and the ubiquitous Internet highlight our society as information driven With such a steady stream of hard facts mixed with publicised opinions the mainstream population has an opinion on everything Most anyone seems itching to argue their side of an issue making once private beliefs fodder for general consumption A staple of any medium s content is a regular public opinion poll on whatever hot topic strikes the editor s fancy From the significant to the mundane public opinion permeates society Accordingly politicians have taken note of these opinions and adopted stands and values that put them in tune with public sentiment An understanding of the nature of public opinion therefore is paramount in today s world This book assembles and presents a carefully chosen bibliography on public opinion in its many forms The collection of references makes for a valuable resource in studying and researching the critical issue of public opinion Easy access to these pieces of literature are

then provided with author title and subject indexes      *Public Opinion and Internationalized Governance* Oskar Niedermayer, Richard Sinnott, 1998 New agencies of international government are among the most innovative and experimental aspects of late 20th century politics This study examines the European Union its structure powers operations and legitimacy and its relationship to the United Nations and NATO      The Polish Road from Socialism: The Economics, Sociology and Politics of Transition Walter D. Connor, Piotr Ploszajski, 2019-07-26 What the contributors to this volume offer is neither a romantic version of the course of Polish history nor a jubilant account of the recovery of national independence and political choice Rather they offer a variety of tough minded analytic perspectives on what comes when the party is over not just the PSPR but the celebration marking its downfall They focus on Poland's movement toward an internationally competitive market economy a political democracy in which plural interests compete and the constitution of a civil society that both tolerates and ameliorates conflict The multidisciplinary contributors include Jan Muzel Keith Crane Benjamin Slay Kazimierz Poznanski Jan Bossak Wojciech Bienkowski Włodzimierz Wesolowski Edmund Wnuk Lipinski Adam Sarapata Andrzej Sicinski Piotr Lukaszewicz Krzysztof Nowak David S Mason Andrzej Rychard Krzysztof Jasiewicz Jack Bielasiak Janusz Reykowski Stanisław Gebethner Mirosława Marody Edmund Mokrzycki and Michael D Kennedy      **Elite-Mass Relations in Communist Systems** Daniel N. Nelson, 1988-06-18      **The Politics of the Postcommunist World** Stephen White, Daniel Nelson, 2017-11-01 This title was first published in 2001 This series brings together the most significant journal articles to appear in the field of comparative politics since the 1970s The aim is to render accessible to teachers researchers and students an extensive range of essays as a basis for understanding established terrain and new ground      **Problems of Communism**, 1974      **Politics and the Soviet System** Thomas F. Remington, 1989-06-18 This collection of essays focuses on topics pertaining to Soviet propaganda and policy making Among the essays there is a study of the view of international relations presented by Soviet TV news a survey of development in comparative communist studies and an analysis of recent changes      **Islam & Human Ideology** Samih Atef El-Zeyn, 2019-01-04 This book sets forth the concepts relating to viewpoints concerning life It identifies the principle behind these concepts and traces each such concept back to its source and origin whether it emanates from the capitalist democratic communist socialist or Islamic principle At the same time it calls on people to establish bonds with one another that is intellectual bonds based on common principles It also calls on them to distinguish one concept from another so that they can achieve the correct type of advancement and attain the exemplary ideology First published in 1996 Routledge is an imprint of Taylor Francis an informa company      Hungary from the Nazis to the Soviets Peter Kenez, 2006-05-22 This is the first book in any language to describe in detail the establishment of the communist regime in Hungary Hungary was the last ally of Nazi Germany and as such suffered dreadful destruction in course of the fighting during the last year of the war The war discredited the political and social elite and gave opportunity for a new beginning Early optimism in democratic circles however quickly dissipated The communists who had negligible

indigenous support with the help of the Soviet Army in a short time managed to destroy any organized opposition to their taking power

Democracy and Its Alternatives Richard Rose, William Mishler, Christian Haerpfer, Christian W. Haerpfer, 1998-10-16 The collapse of Communism has created the opportunity for democracy to spread from Prague to the Baltic and Black Seas But the alternatives dictatorship or totalitarian rule are more in keeping with the traditions of Central Europe And for many post Communist societies democracy has come to be associated with inflation unemployment crime and corruption Is it still true then as Winston Churchill suggested a half century ago that people will accept democracy with all its faults because it is better than anything else To find out political scientists Richard Rose William Mishler and Christian Haerpfer examine evidence from post Communist societies in eastern Europe Drawing on data from public opinion and exit polls election results and interviews the authors present testable hypotheses regarding regime change consolidation and prospects for stabilization The authors point out that the abrupt transition to democracy in post Communist countries is normal gradual evolution in the Anglo American way is the exception to the rule While most recent books on democratization focus on Latin America and to some extent Asia the present volume offers a unique look at the process currently under way in nine eastern European countries the Czech Republic Hungary Slovakia Poland Slovenia Bulgaria Romania Belarus and Ukraine Despite the many problems these post Communist societies are experiencing in making the transition to a more open and democratic polity the authors conclude that a little democracy is better than no democracy at all

The State against Society Grzegorz Ekiert, 1996-09-30 Classical images of state socialism developed in contemporary social sciences were founded on simple presuppositions State socialist regimes were considered to be politically stable due to their pervasive institutional and ideological control over the everyday lives of their citizens impervious to reform and change and representative of extreme political and economic dependency Despite their contrasting historical experiences they have been treated as basically identical in their institutional design social and economic structures and policies Grzegorz Ekiert challenges this notion in a comparative analysis of the major political crises in post 1945 East Central Europe Hungary 1956 63 Czechoslovakia 1968 76 and Poland 1980 89 The author maintains that the nature and consequences of these crises can better explain the distinctive experiences of East Central European countries under communist rule than can the formal characteristics of their political and economic systems or their politically dependent status He explores how political crises reshaped party state institutions redefined relations between party and state institutions altered the relationship between the state and various groups and organizations within society and modified the political practices of these regimes He shows how these events transformed cultural categories produced collective memories and imposed long lasting constraints on mass political behavior and the policy choices of ruling elites These crises shaped the political evolution of the region produced important cross national differences among state socialist regimes and contributed to the distinctive patterns of their collapse

Russia and Eastern Europe, 1789-1985 Raymond Pearson, 1989

**Politics, Paradigms, and Intelligence**

**Failures** Ofira Seliktar, 2015-05-20 Washington's failure to foresee the collapse of its superpower rival ranks high in the pantheon of predictive failures. The question of who got what right or wrong has been intertwined with the deeper issue of who won the Cold War. Like the disputes over who lost China and Iran, this debate has been fought out along ideological and partisan lines, with conservatives claiming credit for the Evil Empire's demise and liberals arguing that the causes were internal to the Soviet Union. The intelligence community has come in for harsh criticism for overestimating Soviet strength and overlooking the symptoms of crisis; the discipline of Sovietology has dissolved into acrimonious irrelevance. Drawing on declassified documents, interviews, and careful analysis of contemporaneous literature, this book offers the first systematic analysis of this predictive failure at the paradigmatic foreign policy and intelligence levels. Although it is focused on the Soviet case, it offers lessons that are both timely and necessary.

**The Neo-Stalinist State** Victor Zaslavsky, 2016-07-08 Underlying current controversies about environmental regulation are shared concerns, divided interests, and different ways of thinking about the earth and our proper relationship to it. This book brings together writings on nature and environment that illuminate thought and action in this realm.

**After the Internet, Before Democracy** Johan Lagerkvist, 2010 China has lived with the Internet for nearly two decades. Will increased Internet use, with new possibilities to share information and discuss news and politics, lead to democracy, or will it, to the contrary, sustain a nationalist-supported authoritarianism that may eventually contest the global information order? This book takes stock of the ongoing tug of war between state power and civil society on and off the Internet, a phenomenon that is fast becoming the centerpiece in the Chinese Communist Party's struggle to stay in power indefinitely. It interrogates the dynamics of this enduring contestation before democracy by following how Chinese society travels from getting access to the Internet to our time, having the world's largest Internet population. Pursuing the rationale of Internet regulation, the rise of the Chinese blogosphere and citizen journalism, Internet irony, online propaganda, the relation between state and popular nationalism, and finally the role of social media to bring about China's democratization, this book offers a fresh and provocative perspective on the arguable role of media technologies in the process of democratization by applying social norm theory to illuminate the competition between the Party-state norm and the youth subaltern norm in Chinese media and society.

**Security Implications Of Nationalism In Eastern Europe** Jeffrey Simon, Trond Gilberg, 2019-06-26 Suggesting that events in Poland during 1980-1981 represent the tip of an iceberg, the contributors examine the rise of nationalism in Eastern Europe and its potential consequences for European security. They analyze developing problems and trends in the region, including the cooling of relations between the USSR and individual countries in Eastern Europe, the continuing economic crisis, changing social structures, the influence of the intelligentsia, and the eroding importance of ideology as a key part of Eastern Europe's political culture. The second half of the book focuses on the impact of these shifts on political and military relations between the USSR and Eastern European countries and on the efficient functioning of the Warsaw Pact.

## Unveiling the Power of Verbal Art: An Psychological Sojourn through **Public Opinion In European Socialist Systems**

In some sort of inundated with screens and the cacophony of immediate transmission, the profound power and mental resonance of verbal beauty often disappear in to obscurity, eclipsed by the regular barrage of noise and distractions. However, set within the musical pages of **Public Opinion In European Socialist Systems**, a charming perform of literary splendor that pulses with natural thoughts, lies an remarkable trip waiting to be embarked upon. Published by way of a virtuoso wordsmith, that mesmerizing opus courses visitors on a mental odyssey, lightly revealing the latent potential and profound influence stuck within the intricate web of language. Within the heart-wrenching expanse with this evocative examination, we will embark upon an introspective exploration of the book is central styles, dissect its interesting publishing fashion, and immerse ourselves in the indelible impression it leaves upon the depths of readers souls.
