Public Policy for the Black Community Marguerite Ross Barnett, James A. Hefner, 1976      *Africana Cultures and Policy Studies* Z. Williams, 2009-06-08 This book introduces Africana Cultures and Policy Studies as an interdisciplinary field of study rooted in the historical experience of people of African descent and focusing on policy development analysis and practical application      Handbook of Black Studies Molefi Kete Asante, Maulana Karenga, 2006 Publisher Description

Afro-American Life, History and Culture , 1985      The Color of Freedom David Carroll Cochran, 1999-01-01 Offers a fresh distinctive and compelling analysis of the United States's continuing dilemma of race      *Race and Representation* Georgia A. Persons, 2017-09-04 The National Political Science Review is the official publication of the National Conference of Black Political Scientists This series now entering its sixth volume includes significant scholarly research reflecting the diverse interests of scholars from various backgrounds who use different models approaches and methodologies The central focus is on politics and policies that advantage or disadvantage groups because of race ethnicity gender and other major variables Race and Representation is anchored by a symposium that focuses on efforts to enhance representation of African Americans in legislative bodies under the authority of the historic Voting Rights Act of 1965 and on recent court challenges to the constitutionality of redistricting plans drawn under that act The chapters constitute an extension of an ongoing and protracted highly charged public debate In her introduction Georgia A Persons discusses how recent Supreme Court rulings such as in *Shaw v Reno* *Miller v Johnson* and *Bush v Vera* have significantly redefined the meaning and permissible parameters of the Voting Rights Act She affirms that they have also strongly posited albeit somewhat indirectly a legal meaning of representation that is at variance with the more broadly philosophical meaning of representation grounded in the ideal of enhancing equality among different groups in a society The articles in *Race and Representation* are refreshingly informative They include case studies written by political scientists who became involved directly with events surrounding the theme of this volume A new section Reflections is introduced it will be reserved for commentary and analysis of an issue that captures the political spirit of the times In the inaugural contribution J Owens Smith reflects on the assault on liberal philosophy as a foundation for civil rights claims and offers an alternative philosophical prism for viewing and justifying such claims This volume is essential

**Brief Tests of Collection Strength** Howard D. White, 1995-09-26 For purposes of accreditation resource sharing and institutional mission librarians need to assess the strengths of their collections in particular subject areas This book describes and illustrates a brief test for determining a library's collection strength Though such tests are most often employed in academic libraries the methodology outlined by the author should be useful to all types of libraries in assessing the strength of their holdings In a time of increasing material and limited resources libraries need to be particularly judicious in deciding which works to acquire Oftentimes a library seeks to develop strong holdings in one or more subject areas Such an approach is especially useful for libraries that share their resources with other institutions To

plan their acquisitions carefully and to be of greatest use to other consortia members a library needs to gauge the strength of its holdings accurately This volume describes and illustrates a relatively brief test to assign libraries a score for existing collection strength in a subject area Drawing upon expert human judgment and holdings data available from OCLC the test can assist librarians in setting and verifying collection levels on the RLG or WLN Conspectus scales Collection strength is often verified in a labor intensive fashion The brief test presented by the author is an economical alternative to the more typical labor intensive approach to collection analysis

**Race and Ethnicity in Comparative Perspective** Georgia A. Persons, 2018-04-24 Contradictory forces are at play at the close of the twentieth century There is a growing closeness of peoples fueled by old and new technologies of modern aviation digital based communications new patterns of trade and commerce and growing affluence of significant portions of the world s population Television permits individuals around the world to learn about the cultures and lifestyles of peoples of physically distant lands These developments give real meaning to the notion of a global village Peoples of the world are growing closer in new

and increasingly important ways Nonetheless there are disturbing signs of a growing awareness of ethnic differences in all parts of the world the United States included and a concomitant rise in ethnic based conflicts many of them extraordinarily violent in nature Fear resentment intolerance and mistreatment of the other abound in world news accounts Not only does this phenomenon pose an interesting juxtaposition to the concept of the emergent global village but its emergence in the post cold war era internationally and the post civil rights era in the United States raises significant and compelling questions Why are such conflicts occurring now How do analysts explain these developments The essays in *Race and Ethnicity in Comparative Perspective* lucidly explore some of the complexities of the persistence and re emergence of race and ethnicity as major lines of divisiveness around the world Contributors analyze manifestations of race based movements for political empowerment in Europe and Latin America as well as racial intolerance in these same settings Attention is also given to the conceptual complexities of multidimensional and shared cultural roots of the overlapping phenomena of ethnicity nationalism identity and ideology The book greatly informs discussions of race and ethnicity in the international context and provides an interesting perspective against which to view America's changing problem of race *Race and Ethnicity in Comparative Perspective* is a timely thought provoking volume that will be of immense value to ethnic studies specialists African American studies scholars political scientists historians and sociologists *Journal of Social and Behavioral Sciences*, 1979

Resources in Education, 1999 **Race, Ethnicity, And Nationality In The United States** Paul Wong, 2021-09-02 This book is intended for use in advanced undergraduate and graduate level courses on race and ethnicity and on diversity in America It was first conceived as a collective project of the Research and Resident Scholar Program in Comparative Race Relations at Washington State University which was established in 1994 with support from the Rockefeller Foundation A number of the participating authors are established scholars in racial ethnic studies and several have published award winning bestsellers Others are relative newcomers to the field who were invited to join the project because they were doing important work on less well covered topics such as relations between African Americans and Chicano Latino Americans

Cheatham, James B. Stewart, 2017-10-19

The condition and characteristics of the black family have been subjects of intense debate since at least the 1960s when the Moynihan Report and the culture of poverty theses held sway. Since then a consistent theme has been that black families are pathological. Despite the fact that research has been inconclusive and contradictory, political debate and policy have been strongly influenced by the pathology theme. This volume presents alternative approaches toward understanding the special characteristics of black families. Extending a special issue of *The Review of Black Political Economy*, the book focuses on the economic circumstances and decision making of these families, employing interdisciplinary and cross cultural perspectives. It examines the general responses of black families to various external factors such as economic systems and to internal factors such as interpersonal relationships. This compendium of current thinking and research will be of interest to professionals in a number of fields including family studies, counseling, social work, psychology, and sociology. It will be of practical use in training programs for service delivery systems. Interested in incorporating multicultural perspectives as well as those specifically interested in black families today.

**Gun Violence and Gun Control: Critical Engagements** Annette Bailey, Thomas Harrison, Rebecca Jaremko Bromwich, 2022-06-09. This interdisciplinary anthology explores a wide range of intersecting issues contributing to and arising from gun violence. Millions of people are hurt and killed by gun violence globally, and the traumatic realities of these events are navigated by individuals and communities widely. In this context, gun violence fundamentally threatens social functioning in significant ways and profoundly tests the resilience of families. The resulting transformations carry social, political, legal, and economic implications for mothering, family dynamics, and community engagement. This collaborative volume brings together diverse perspectives intended to deconstruct perceptions, realities, risks, and impacts of gun violence as seen by researchers, educators, community advocates, public health, health care experts, criminologists, social workers, field-based practitioners, and victims/survivors of gun violence. The distinct and broad range of contributions in this volume critically unpacks representations, stress, and trauma, resilience, advocacy, activism, policymaking, family functioning, social justice, and equity, governmentality, and the criminal justice system, public health, health care, and community programs/interventions. Ultimately, the work is a unique contribution to the literature in which there is a lack of wide academic consideration of gun violence and a demonstrably unsatisfactory political response stretching back decades.
