Public Theology Changing Times:

Theology for Changing Times Christopher R. Baker, Elaine Graham, 2018-09-30 From wealth creation to wealth distribution and social ethics from urban mission to religious studies and psychology the work of John Atherton was breathtaking in scope and variety Unifying all of his work however was a concern with engaging the work of theology with wider society With contributions from some of the leading lights in public theology today this book offers not only an appreciation of John Atherton s work within a prodigiously large array of disciplines but also an attempt to ask what next taking his work forward and considering where the future of public theology might lie John Atherton s last published article is also reproduced [Public Theology for Changing Times](#) John Atherton, 2000 For Christians these times of rapid change pose a particular challenge This book is designed to help us to understand the processes at work over the last 40 years from a global national and local perspective and to live efficiently and purposefully in this context An interpretation of these changing times in the light of historical and contemporary processes demonstrates how Christianity has and therefore can act as an effective partner in such change In the words of Hans Kung the author seeks a viable outline of the future which takes historical experiences into account comes to grips with present social reality and at the same time transcends it in search of a relatively better world order **Public Theology in the Post-Secular Age** Dominic

Budhi-Thornton, 2025-07-31 As religion s status and place within society is contested in the post secular age Manchester Cathedral is a fascinating case study of the potential role that cathedrals and other religious institutions may be able to play in various public settings While the church s membership declines in the UK Manchester Cathedral operates as a spiritual hub in the area of Greater Manchester Using primary data gathered on the ground this work explores Manchester Cathedral s public theologies of inclusion which lie at the heart of its various activities and practices Focusing most explicitly on the cathedral s interfaith work anti racism work and its theology of LGBTQIA inclusion the author explores the potential strengths and weaknesses of religious engagement in the contemporary post secular age In this book Budhi Thornton seeks to contribute to questions about the relationship between the religious and the secular tradition and innovation inclusion and distinctiveness Drawing on a wide range of theological and philosophical traditions Budhi Thornton puts forward a case for the development of a public theological hospitality that remains open to the work of the Spirit in the life of the Other

Public Theology Gnana Patrick, 2020-04-07 This book situates public theology within the genre of political theology Drawing upon the distinct strands of political theologies identified by Daniel M Bell Jr Gnana Patrick treats public theology as the form of political theology for our contemporary era and takes special care to relate these strands of political theologies to the Indian context thereby opening up the theological horizon for Indian public theology Further Public Theology dwells upon certain prominent features of our contemporary global world and discerns the human need for experiencing transcendence today Taking faith to be the catalyst for this experience of transcendence it points to civil society as the interstice through

which faith can be imparted to the contemporary world And it argues for the relevance of public theology for that work

Contextual Missiology of the Spirit Wessly Lukose, 2013-01-01 This book explores the identity context and features of Pentecostalism in Rajasthan India as well as the internal and external issues facing Pentecostals It argues for an indigenous origin of Pentecostalism in Rajasthan as it is a product of local Spirit revivals in the existing churches and the missionary activities of Indian Pentecostals It also reveals that both the intra church as well as extra church issues place Pentecostals in a missio ethical dilemma The book aims to suggest a contextual missiology of the Spirit as a new model of contextual missiology from a Pentecostal perspective It is presented as a glocal ecumenical transformational and public missiology

Public Theology in Korea? Minseok Kim, 2021 Public Theology is one of the most important topics in the field of theology across the world but not in Korea There are several historical and theological

reasons for this indifference of Korean Reformed Christianity as the mainstream in Korea In order to dispel doubts of Korean Reformed Christianity to the public theological approaches it is necessary to demonstrate a coherence between some characteristics of public theology and Reformed theology This study analyses and utilises the six characteristics of public theology presented by Heinrich Bedford Strohm as a lens to engage aspects of John Calvin's theology and the period of the Reformation in Geneva Based on this work the author re-examines the history of Korean Christianity with a public theological point of view and asserts the justification for Korean Reformed Christianity to actively embrace public theological approaches

Between a Rock and a Hard Place Elaine Graham, 2013-07-31 Public theology is an increasingly important area of theological discourse with strong global networks of institutions and academics involved in it Elaine Graham is one of the UK's leading theologians and an established SCM author In this book Elaine Graham argues that Western society is entering an unprecedented political and cultural era in which many of the assumptions of classic sociological theory and of mainstream public theology are being overturned Whilst many of the features of the trajectory of religious decline typical of Western modernity are still apparent there are compelling and vibrant signs of religious revival not least in public life and politics local national and global This requires a revision of the classic secularization thesis as well as much Western liberal political theory which set out separate or at least demarcated terms of engagement between religion and the public domain Elaine Graham examines claims that Western societies are moving from secular to post secular conditions and traces the contours of the post secular the revival of faith based engagement in public sphere alongside the continuing perhaps intensifying questioning of the legitimacy of religion in public life She argues that public theology must rethink its theological and strategic priorities in order to be convincing in this new post secular world and makes the case for the renewed prospects for public theology as a form of Christian apologetics drawing from Biblical classical and contemporary sources **Catholic**

Social Teaching and Theologies of Peace in Northern Ireland Maria Power, 2020-07-07 This book investigates the response of the Catholic Church in Northern Ireland to the conflict in the region during the late Twentieth Century It does so through the prism of the writings of Cardinal Cahal Daly 1917-2009 the only member of the hierarchy to serve as a bishop throughout the entire conflict This book uses the prolific writings of Cardinal Daly to create a vision of the Peaceable Kingdom and demonstrate how Catholic social teaching has been used to promote peace justice and nonviolence It also explores the public role of the Catholic Church in situations of violence and conflict as well as the importance for national churches in developing a voice in the public square Finally the book offers a reflection on the role of Catholic social teaching in contemporary society and the ways in which the lessons of Northern Ireland can be utilised in a world where structural violence as evidenced by austerity and reactions to Brexit in the United Kingdom is now the norm This work challenges and changes the nature of the debate surrounding the role of the Catholic Church in the conflict in Northern Ireland It will therefore be a key resource for scholars of Religious Studies Catholic Theology Religion and Violence Peace Studies and

Twentieth Century History *Challenging Religious Studies* John Atherton, 2014-10-30 This book represents a breakthrough in our understanding and development of the practices ethics and theories of religious studies through engagement with the world of daily life and its breath taking transformation since 1800 as revealed particularly in living standards life expectancy and subjective wellbeing Together with the equally disturbing growth of inequalities between and within nations this constitutes the profound paradox of development What is of particular interest is the book s rigorous treatment of the question why religion is better at delivering greater subjective wellbeing and how it does so To build such arguments always involves engaging with key related disciplines experiences and practices including economics psychology sociology and economic history But it will also increasingly offer religion the opportunity to participate in such developments but always and increasingly through collaboration with other such disciplines and experiences and always with the objective of furthering the greater wellbeing of all people in and through their environments Transfiguring Capitalism John Atherton, 2008 Addresses key problems in contemporary life and raises important questions about our growing awareness of the limits of contemporary ways of living with modern economies and modern religion This book explores possible alternatives to such capitalism **The Church on Capitalism** Eve Poole, 2010-10-27 An examination of the views on capitalism of bishops academics and business people in the Church of England Highlighting the richness and distinctiveness of these arguments it also points to flaws and gaps Offering a new framework for public theology Poole urges the Church to take its proper place in re shaping the global economy **Hybrid Church in the City** Christopher Baker, 2013-02-11 There has been a growing interest in the rapidly evolving nature of cities in the past 10 15 years but especially in the last 5 years and the profound impact this is having upon our understanding of community belonging and church This book shows that theology in an urban context has developed way beyond the inner city nostalgia It is a challenging critical and constructive study of the role of the church in cities Seek the Peace of the City Richard Bourne, 2009-10-01 Includes bibliography p 297 324 and index *Violence and Peace in Sacred Texts* Maria Power, Helen Paynter, 2023-01-31 This volume brings together 11 experts from a range of religious backgrounds to consider how each tradition has interpreted matters of violence and peace in relation to its sacred text The traditions covered are Hinduism Buddhism Judaism Christianity Islam and Sikhism The role of religion in conflict war and the creation of peaceful settlements has attracted much academic attention including considerations of the interpretation of violence in sacred texts This collection breaks new ground by bringing multiple faiths into conversation with one another with specific regard to the handling of violence and peace in sacred texts This combination of close attention to text and expansive scope of religious inclusion is the first of its kind *The Practices of Happiness* Ian Steedman, John R Atherton, Elaine Graham, 2010-08-03 A PDF version of this book is available for free in open access via www.tandfebooks.com as well as the OAPEN Library platform www.oapen.org It has been made available under a Creative Commons Attribution Non Commercial No Derivatives 3 0 license and is part of the OAPEN UK research

project There is growing evidence that rising levels of prosperity in Western economies since 1945 have not been matched by greater incidences of reported well being and happiness Indeed material affluence is often accompanied instead by greater social and individual distress A growing literature within the humanities and social sciences is increasingly concerned to chart not only the underlying trends in recorded levels of happiness but to consider what factors if any contribute to positive and sustainable experiences of well being and quality of life Increasingly such research is focusing on the importance of values and beliefs in human satisfaction or quality of life but the specific contribution of religion to these trends is relatively under examined This unique collection of essays seeks to rectify that omission by identifying the nature and role of the religious contribution to wellbeing A unique collection of nineteen leading scholars from the field of economics psychology public theology and social policy have been brought together in this volume to explore the religious contribution to the debate about happiness and well being These essays explore the religious dimensions to a number of key features of well being including marriage crime and rehabilitation work inequality mental health environment participation institutional theory business and trade They engage particularly closely with current trends in economics in identifying alternative models of economic growth which focus on its qualitative as well as quantitative dimensions This unique volume brings to public notice the nature and role of religion s contribution to wellbeing including new ways of measurement and evaluation As such it represents a valuable and unprecedented resource for the development of a broad based religious contribution to the field It will be of particular relevance for those who are concerned about the continuing debate about personal and societal well being as well as those who are interested in the continuing significance of religion for the future of public policy
