The Development of Southern Public Libraries and the African American Quest for Library

Access, 1898-1963 Dallas Hanbury, 2019-12-04 Using the Atlanta Birmingham and Nashville Public Libraries as case studies The Development of Southern Public Libraries and the African American Quest for Library Access 1898 1963 argues that public libraries played an integral role in Southern cities economic and cultural boosterism efforts during the New South and Progressive Eras First Southern public libraries helped institutionalize segregation during the early twentieth century by refusing to serve African Americans or only to a limited degree Yet the Progressive Era s emphasis on self improvement and moral uplift influenced Southern public libraries to the extent that not all embraced total segregation It even caused Southern public libraries to remain open to the idea of slowly expanding library service to African Americans Later libraries social mission and imperfect commitment to segregation made them prime targets for breaking down the barriers of segregation in the post World War II era In this study Dallas Hanbury concludes that dealing with the complicated and unexpected outcomes of having practiced segregation constituted a difficult and lengthy process for Southern public libraries

*Public Libraries and Their Communities* Kay Ann Cassell, 2021-04-02 Public Libraries and

Their Communities An Introduction provide an overview of public librarianship today It covers library organization policy development staffing fiscal organization including funding sources and budgets the legal framework relationships with local

and state governments advocacy services and service development for different age groups and for different groups of users development of programming and outreach collection development promotion and marketing and current issues and trends In addition to context and concepts the book uses many examples from both large and small public libraries to bring principles to life Examples include real library policies case studies strategic planning organization charts and library budgets Many think that public libraries are not complicated to run This book aims to show that public libraries are very complicated and require much skill on the part of the director staff and Board of Trustees to meet the needs of their local users Advocacy and marketing have become important parts of the work of public libraries Funding is always challenging so public libraries must constantly be making the local government and its citizens aware of the public library its programs collections and services This book s focus is on how public libraries reach beyond the walls of their buildings and touch the lives of their citizens Meeting community interests and needs is essential for 21st century public libraries For students the book offers discussion questions at the end of each chapter These questions also provide discussion starters for public library staff development *Public Library Development Program* Peggy O'Donnell,1988 **Public Library System**
