Public Opinion In War Peace

Raffaele Giammetti, Thomas Palley

Public Opinion In War Peace:

Public Opinion in War and Peace Abbott Lawrence Lowell, 1923 No detailed description available for Public Opinion in War and Peace

War, Peace and International Relations Colin S. Gray, 2007-06-11 This new volume explores the theory and practice of war and peace in modern historical context In fifteen clear and concise chapters this book hits the high and low points of international politics over a two hundred year period plus a brief foray into the future out to 2025 War Peace and International Relations serves as an excellent introduction to the international history of the past two centuries showing how those two centuries were shaped and reshaped extensively by war This book takes a broad view of what was relevant to the causes courses and consequences of wars This upper level textbook is an invaluable resource for students of strategic studies security studies international relations and international history

Public Opinion in War and Peace Abbott Lawrence Lowell, 1926

War, Peace and International Order? Maartje Abbenhuis, 2017-02-24 Chapter 9 The Hague as a framework for British and American newspapers public presentations of the First World War Notes Chapter 10 Norway's legalistic approach to peace in the aftermath of the First World War The Scandinavian proposal for an international judicial organisation Drafting the Permanent Court of International Justice's statute The establishment of the Permanent Court of International Justice Conclusion Notes Chapter 11 Against the Hague Conventions Promoting new rules for neutrality in the Cold War The communist re-discovery of neutrality Attempts at reshaping neutrality in the Cold War era New rules for neutrals Conclusion Notes Chapter 12 The neutrals and Spanish neutrality A legal approach to international peace in constitutional texts A commitment to peace Re-defining neutrality in a system of collective security in the League of Nations era The law of war in an age of democracy Conclusions Notes Index

War, Peace and International Relations Colin Gray, James J. Wirtz, 2023-10-24 This textbook provides a comprehensive introduction to the strategic history of the past two centuries showing how those 200 years were shaped and reshaped extensively by war The book takes a broad view of what was relevant to the causes courses and consequences of conflict The volume provides students with a strong grounding in the contribution of war to the development of the modern world from the pre-industrial era to the age of international terrorism and smart weapons Covering all the major wars of the past two centuries the third edition has been revised and updated and now includes new introductory essays at the start of each section to help students recognize historical turning points and strategic themes revised and updated material on the post Cold War period accommodating new developments and contemporary perspectives new material on non-Western views on strategy especially Sun Tzu a new chapter on The age of acceleration and great power competition starting with the death of Bin Laden and ending with the Ukraine crisis a new Conclusion offering a synthesis between the message of earlier editions and the state of strategy today This textbook will be essential reading for students of strategic studies security studies war studies International Relations and international history

The Political Economy of War, Peace, and the Military-Industrial Complex Raffaele Giammetti, Thomas

Palley,2025-01-10 This volume contains a collection of articles by leading thinkers in economics political economy and history They explore the enduring challenges of avoiding war and ensuring peace **Public Opinion** ,1866 Star Wars in the Public Square Derek R. Sweet,2015-12-01 Speculative science fiction with its underlying socio political dialogue represents an important intersection of popular culture and public discourse As a pop culture text the animated series Star Wars The Clone Wars offers critical commentary on contemporary issues marking a moment of interplay whereby author and audience come together in what Russian philosopher Mikhail Bakhtin called collaborative meaning making This book critically examines the series as a voice in the political dialogues concerning human cloning torture just war theory peace and drone warfare Forged Through Fire: War, Peace, and the Democratic Bargain John Ferejohn,Frances McCall Rosenbluth,2016-12-06 Peace many would agree is a goal that democratic nations should strive to achieve But is democracy in fact dependent on war to survive Having spent their celebrated careers exploring this provocative question John Ferejohn and Frances McCall Rosenbluth trace the surprising ways in which governments have mobilized armies since antiquity discovering that our modern form of democracy not only evolved in a brutally competitive environment but also quickly disintegrated when the powerful elite no longer needed their citizenry to defend against existential threats Bringing to vivid life the major battles that shaped our current political landscape the authors begin with the fierce warrior states of Athens and the Roman Republic While these experiments in mixed government would serve as a basis for the bargain between politics and protection at the heart of modern democracy Ferejohn and Rosenbluth brilliantly chronicle the generations of bloodshed that it would take for the world s dominant states to hand over power to the people In fact for over a thousand years even as medieval empires gave way to feudal Europe the king still ruled Not even the advancements of gunpowder which decisively tipped the balance away from the cavalry dominated militaries and in favor of mass armies could threaten the reign of monarchs and landed elites of yore The incredibly wealthy however were not well equipped to handle the massive labor classes produced by industrialization As we learn the Napoleonic Wars stoked genuine bottom up nationalism and pulled splintered societies back together as commoners stepped up to fight for their freedom Soon after Hitler and Stalin perfectly illustrated the military limitations of dictatorships a style of governance that might be effective for mobilizing an army but not for winning a world war This was a lesson quickly heeded by the American military who would begin to reinforce their ranks with minorities in exchange for greater civil liberties at home Like Francis Fukuyama and Jared Diamond s most acclaimed works Forged Through Fire concludes in the modern world where the tug of war between the powerful and the powerless continues to play out in profound ways Indeed in the covert battlefields of today drones have begun to erode the need for manpower giving politicians even less incentive than before to listen to the demands of their constituency With American democracy s flanks now exposed this urgent examination explores the conditions under which war has promoted one of the most cherished human inventions a government of the people by the people for the people The

result promises to become one of the most important history books to emerge in our time *Anglo-American Relations in the Twentieth Century* Alan Dobson, 2002-03-11 The relationship between Britain and America has been the most important bilateral relationship the world has ever seen Dobson's concise and readable book covers the whole of this century and employs selected historical detail to expose the special relationship in its true light and in all its complexity Dobson rejects the claim that the US was ever hegemonical Its relationship with Britain over the Suez Crisis and Iran in the 1960s and Grenada in 1983 clearly demonstrates that it had to bargain and did not always get its way However the two nations co-operated in every major crisis from the Great to the Gulf war and together promoted liberal democracy and capitalism The story reveals both more interdependence and conflict than has been recognised in the past Nuclear intelligence defence and other links between the USA and Britain continue to this day but the importance of the special relationship has diminished for both countries Have common interests disappeared to an extent that the scope for bilateral cooperation has diminished to insignificance It is in addressing this question that Dobson draws his conclusions Covering defence economic political and personal aspects of Anglo-US relations this book will be indispensable for students of twentieth century American and British history and international relations *Eisenhower's Atoms for Peace* Ira Chernus, 2002 In his Atoms for Peace speech of 1953 President Dwight David Eisenhower captured the tensions and the ironies of the atomic age While nuclear devastation threatened all nations Eisenhower believed only nuclear preparedness offered protection while nuclear weapons loomed as the ultimate war cloud nuclear power offered progress and hope In this thought provoking consideration of Eisenhower's speech and others leading up to it Ira Chernus views the Atoms for Peace speech presented to the General Assembly of the United Nations not merely as a legitimisation of American foreign policy but as itself an act of policy Indeed he frames the policy in a new interpretation of Eisenhower's broad discursive goal which he calls apocalypse management a plan to allow the United States to manage threats and crises around the world Chernus sheds new light on the internal consistency of Eisenhower's thought which many observers have found inconsistent as well as on the ways in which the president's rhetoric backed him into a policy corner he had not intended to occupy Chernus also reviews the domestic impact of the speech through a detailed examination of media interpretations in the United States This tightly reasoned clearly written study offers a new understanding of the evolution of cold war nuclear policy the power of presidential rhetoric and the political understanding of America's man of peace Dwight David Eisenhower The full text of Eisenhower's speech is presented in the text Those interested in American foreign policy will find it compelling reading scholars and students will find it challenging and rewarding analysis **War, Peace and Terror in the Middle East** Raphael Israeli, 2014-03-18 A collection of articles about the fateful issues of war and peace in the Middle East especially the evasive brands of war terrorism and incitement Horrific words of incitement followed by atrocious acts of terror have occurred during the past few years These have significantly eroded hope in the peace process that had been initiated by Sadat and Begin a quarter century ago 1977 All

efforts to duplicate that feat between Israel and Palestinians have ended in frustration so far and it now seems that a tremendous amount of ground work will have to be done before a new peace venture This volume focuses on these themes and brings to bear both the benefit of the hindsight gained since the articles were published and the insight that the current world crisis occasioned by the terrorism and broadsides against Western culture that al Qai da and its allies have launched

The State in Peace and War John Watson,1919 Worlding Women Jan Jindy Pettman,2005-12-20 In *Worlding Women* Jan Jindy Pettman asks Where are the women in international relations She develops a broad picture of women in colonial and post colonial relations racialized ethnic and national identity conflicts in wars liberation movements and peace movements and in the international political economy Bringing contemporary feminist theory together with women s experiences of the international Pettman shows how mainstream international relations is based on certain constructions of masculinity and femininity Her ground breaking analysis has implications for feminist politics as well as for the study of international relations **Kuwait Amid War, Peace and Revolution** Lori Plotkin Boghardt,2006-10-31 This books explores Kuwaiti internal security challenges of terrorism sabotage and subversion and using untapped Kuwaiti government sources examines policy responses such as mass deportations and special security trials The study details how turmoil in neighbouring states and religious tensions threaten Kuwait s environment **Media and the Path to Peace** Gadi Wolfsfeld,2004-01-15 This is the first book to examine in detail the roles that the news media can play in an ongoing peace process Gadi Wolfsfeld explains how the press s role in such processes varies over time and political circumstance He examines three major cases the Oslo peace process between Israel and the Palestinians the peace process between Israel and Jordan and the process surrounding the Good Friday Agreement in Northern Ireland Wolfsfeld s central argument is that there is a fundamental contradiction between news values and the nature of a peace process This often leads the media to play a destructive role in attempts to make peace but variations in the political and media environment affect significantly exactly how the media behave Wolfsfeld shows how the media played a mainly destructive role in the Oslo peace process but were more constructive during the Israel Jordan process and in Northern Ireland War, Peace and World Orders in European History Anja V. Hartmann,Beatrice Heuser,2002-11 This book explores a new way for students of International Relations to look at war peace and world orders throughout European history The contributors argue that the predominant realist paradigm that focuses on states and their self interest is not applicable to the largest period of European history because states either did not exist or were only in the making Instead they argue we have to look through the eyes of historical entities to see how they understood the world in which they lived The authors use a wide range of case studies focusing on subjects as diverse as the ancient Greek concept of honour and persecution under Communist regimes during the Cold War to explore the ways in which people in different societies at different times perceived and felt about war and peace in the world around them **Public Opinion and World Peace** George H. Turner,1923 *The Soviet View of War, Peace*

and Neutrality P.H. Vigor, 2021-01-26 This book first published in 1975 analyses the three tools which the Russians used for attaining their political objectives war peace and neutrality This study shows how they have evolved a clear cut view based on Marxism Leninism of the origins of war the categories of war the ways in which it can be made to serve the Marxist revolutionary interest and the circumstances in which it is profitable to use it As for peace both Lenin and Khrushchev described it as a temporary unstable armistice between two wars In the Leninist view peace is a tool for attaining political objectives just like war while neutrality is essentially ridiculous he who is not with me is against me Nevertheless there are occasions when neutrality is a concept acceptable to the Soviet leaders and this study examines instances of this alongside war and peace *War, Peace, and the Future* Ellen Key, 1916
