Tyack, Thomas James, Aaron Benavot, 1987 Using case studies as illustrations this text explores the ways in which public schooling was shaped by state constitutions by state statutes and administrative law and by appellate decisions concerning public education *Hearings, Reports, Public Laws* United States. Congress. House. Committee on Education and Labor, 1967 **Public School Assistance Act of 1961** United States. Congress. Senate. Labor and Public Welfare, 1961 *Choosing Charters* Joshua L. Glazer, 2018-03-30 Do charter schools strengthen students educational experience What are their social costs This volume brings together a group of premier researchers to address questions about the purposes of charter schools and the role of public policy in shaping the educational agenda Chapter authors explore topics seldom encountered in the current charter school debate such as the challenges faced by charter schools in guaranteeing students civil rights and other legal protections the educational and social implications of current instructional programs designed specifically for low income and minority students the use of charters as school turnaround agents and other issues that lie at the intersection of education politics and social policy Readers across the political spectrum both supporters and critics of charter schools can use this book to inform public policy about the ways in which charters affect diversity and inequality and the potential to devise policies that mitigate the most troublesome social costs of charter schools Book Features Examines how charter schools affect diversity and equity in U S schools Describes how segregation plays out by race ethnicity and income by disability and language minority status and by culture language and religion Considers charter schools within a broader social context of high poverty rates changing demographics and continued housing and school segregation Examines charter schools in the context of a new federal administration that is forging its own path in education and other domains of social policy Includes some of the most prominent researchers and commentators in the field spanning policy research traditions methodological approaches and theoretical perspectives Digest of Education Statistics ,1993 Contains information on a variety of subjects within the field of education statistics

visions of public education and the values of the public good that comprise the public in public schools *Compilation of the Public School Laws of New Mexico, 1915* New Mexico, 1916 **Hearings** United States. Congress. Senate. Committee on Labor and Public Welfare, 1963 When Leadership Fails Doris R. Fine, 1986-01-01 The belief that desegregation in the public schools has been a failed and costly policy is widespread Educational standards suffer and public support declines it is said when the schools are used as agencies of social reform In this study of school desegregation in San Francisco Doris Fine argues that although the schools difficulties are real they are due not to the policy of desegregation but to deficiencies of leadership and organization within the schools Fine s central concern is institutional integrity and the demoralization that sets in when integrity is undermined Some of the questions she considers are How did San Francisco s public schools become a central arena for community conflict over issues of civil rights What options did school leaders have What happened when the political and educational controversy was brought to federal court Did court orders help or hinder institutional reform Most importantly what adjustments in the leadership and internal dynamics of public schools were necessary for change to be effective This study of social policy and institutional dynamics documents a painful episode in the history of public schools It sheds light both on the nature of social change and on the critical role leadership plays in the reform of organizations
