Public Service Labor Relations In A Democratic South Africa:

Public Service Labour Relations in a Democratic South Africa Glenn Adler, 2000 The democratic South Africa boasts some of the most advanced labour legislation in the world allowing public service workers to enjoy trade union and collective bargaining rights for the first time in the country's history These developments set the stage for public servants to bring their conditions of service into line with the industrial relations best practice in the private sector The chapters in this volume are based on critical assessments of contemporary developments in the public service drawn from original research by a range of contributors including public servants academics and independent researchers all specialists in this field The problem of addressing workers demands and concerns about job security transforming the state into a more effective agent of development and redressing the legacies of discrimination and authoritarianism is likely to generate considerable conflict between workers and managers and between different groups of workers made international headlines in August 1999 demonstrated that labour management strife in the public service is not a narrow industrial relations issue of interest to the parties alone The outcomes of these conflicts will have crucial and long lasting consequences for the transformation of the state as an institution and therefore for the government's ability to promote fiscal integrity economic development and service delivery The contributions thus combine depth of research and critical appraisal with privileged insight into recent policy developments

South African Human Resource Management for the Public Sector Barney Erasmus, 2005 This report discusses important themes in the field of human resource management for the public sector including managing employee relations strategizing and planning human resources departments and selecting employees within the equal employment opportunity guidelines Current legislation of the field is discussed and new theories on local and international applied research are explored

Governance in the New South Africa Guy C. Z. Mhone, Omano Edigheji, 2003 The major challenges confronting South Africa since the advent of non racial multiparty democracy have been the need to promote democratic governance economic growth global competitiveness and to improve the standard of living of its people especially the previously disadvantaged majority Black population These challenges have coincided with the ascendancy of globalisation with its attendant social economic and political imperatives all of which have consequences for governance and development at the national level not least in emerging economies like South Africa This important book assesses the implications of global imperatives for the nature capacity character and scope of democratic governance and the pursuit of equitable development in the new South Africa A major conclusion is that the implementation of domestic economic reforms predicated on market fundamentalism with its dominant logic and paradigm of globalisation and economic management is incompatible and irreconcilable with the quest for democratic governance and equitable development The contributors contend that such an approach reproduces a substantively undemocratic and inequitable society Governance in the New South Africa concludes by offering some considerations related to how substantive democracy and equitable development may be promoted in South

Labour Beyond Cosatu Andries Bezuidenhout, Malehoko Tshoaedi, Christine Bischoff, 2017-07-01 Labour Beyond Cosatu is the fourth volume in the series Taking Democracy Seriously a ground breaking textured and nuanced study on workers and democracy which was established in the 1990s The series looks at members of trade unions affiliated to the Congress of South African Trade Unions Cosatu and provides a rich database of trade union members and research conducted over the past twenty years It is one of the very few such resources available to researchers anywhere in the world Labour Beyond Cosatu paints a complex picture The 12 chapters of the volume explore various rebellions and conflicts in the trade union sector starting with the National Union of Mineworkers NUM and rivalries between Cosatu affiliates Unpacking the conflicts between state sector and private sector workers contributors look at the impact of generational and educational shifts seen by some commentators as proof that Cosatu is now middle class The book also raises the issue of gender in the unions by usefully locating the controversy around charges levelled at Zwelinzima Vavi in 2013 in the larger context of serious problems in the gender politics within parts of Cosatu Refuting the image of a union federation solidly committed to the ANC Labour Beyond Cosatu presents evidence of a sharp decline in support for the ANC within Cosatu and growing scepticism towards the Alliance It shows that attempts to understand the labour movement in South Africa in the future will need to include research of smaller independent unions and social movements The volume s contributors make a major contribution to key debates on labour and democracy providing new material that can potentially shift the discussion in important ways This book will be of great value to students and researchers in Industrial Sociology Political Studies Industrial Psychology and Economics and Management Trade Unions of the World (8th edition) Daniel Blackburn, 2021-01-03 Trade Unions of the World is the essential guide to trade unions and trade unionism in more than 200 countries and territories around the world examining the social political and economic contexts they inhabit Each country profile includes an overview of the political and economic history of the country or territory and an outline of the development of trade unionism locally and the situation for trade unions and trade union rights today The profiles include details not only of national centres but also of all larger affiliated unions giving a comprehensive global picture of trade unionism around the world today A wide range of data is provided on the history structure membership and political and industrial role of the unions A final section profiles the key actors at global and regional levels The country profiles cover Political and economic background Population GDP HDI and GINI Indexes Overview of trade union history and development within the country Details for national trade union centres and further detail on the history and character of key affiliates and non affiliated unions International affiliations

widespread failure of privatisation efforts societies in the global south are increasingly seeking progressive ways of recreating the public sector With contributors ranging from cutting edge scholars to activists working in health water and energy provision and with case studies covering a broad spectrum of localities and actors Making Public in a Privatized World uncovers the radically different ways in which public services are being reshaped from the grassroots up From communities holding the state accountable for public health in rural Guatemala to waste pickers in India and decentralized solar electricity initiatives in Africa the essays in this collection offer probing insights into the complex ways in which people are building genuine alternatives to privatization while also illustrating the challenges which communities face in creating public services which are not subordinated to the logic of the market or to the monolithic state entities of the past
